

I. Effect of the Proposed Routine Use on the Individuals Rights

Under the proposed routine use SSN verifications will be provided to State BVS for individuals for whom the BVS is preparing an electronic death report. Since the individuals would be dead, there would be no adverse effects on individual rights. In the event that an SSN verification may be inadvertently provided for an individual who is alive, the individual's rights would be protected through an agreement with the State BVS that restricts their use or disclosure of such information.

Kenneth S. Apfel,

Commissioner of Social Security.

The membership of this advisory committee consists of private sector defense trade specialists, appointed by the Assistant Secretary of State for Political-Military Affairs, who advise the Department on policies, regulations, and technical issues affecting defense trade.
