DEPARTMENT OF THE INTERIOR**National Park Service**

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the University of Denver Department of Anthropology and Museum of Anthropology, Denver, CO

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the University of Denver Department of Anthropology and Museum of Anthropology, Denver, CO.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by University of Denver Department of Anthropology and Museum of Anthropology professional staff and a contract physical anthropologist in consultation with representatives of the Arapahoe Tribe of the Wind River Reservation, Wyoming; Cheyenne-Arapaho Tribes of Oklahoma; Comanche Indian Tribe, Oklahoma; Fort Sill Apache Tribe of Oklahoma; Hopi Tribe of Arizona; Jicarilla Apache Tribe of the Jicarilla Apache Indian Reservation, New Mexico; Kiowa Indian Tribe of Oklahoma; Navajo Nation, Arizona, New Mexico and Utah; Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana; Pueblo of Acoma, New Mexico; Pueblo of Cochiti, New Mexico; Pueblo of Jemez, New Mexico; Pueblo of Isleta, New Mexico; Pueblo of Laguna, New Mexico; Pueblo of Nambe, New Mexico; Pueblo of Picuris, New Mexico; Pueblo of Pojoaque, New Mexico; Pueblo of San Felipe, New Mexico; Pueblo of San Juan, New Mexico; Pueblo of San Ildefonso, New Mexico; Pueblo of Sandia, New Mexico; Pueblo of Santa Ana, New Mexico; Pueblo of Santa Clara, New Mexico; Pueblo of Santo Domingo, New Mexico; Pueblo of Taos, New Mexico; Pueblo of Tesuque, New Mexico; Pueblo of Zia, New Mexico; Skull Valley Band of Goshute Indians of Utah; Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah and Ouray Reservation, Utah; Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico and Utah; and the Zuni Tribe of the Zuni Reservation, New Mexico.

In 1932, human remains representing one individual were recovered from a site near La Veta, Huerfano County, CO, by Dr. E.B. Renaud of the University of Denver Department of Anthropology, and his assistant, Charlie Steen. No known individuals were identified. No funerary objects are present.

Dr. Renaud was taken to the remains by Karl Gilbert of the U.S. Forest Service. Dr. Renaud collected the long bones of the skeleton and reported, but did not collect, numerous glass beads associated with the remains. At the U.S. Forest Service office in La Veta, CO, Dr. Renaud examined the skull of the remains and a series of associated funerary objects that had been collected by John Durant in the winter of 1931-32. These funerary objects included one Barrett flintlock gun dated 1848, three metal arrow points, one saddle buckle, five saddle rings, one piece of copper, one spoon, and one stone pipe. Dr. Renaud was given the skull, which he took along with the long bones to the University of Denver. Currently, the university is in possession of eight long bones. The skull has not been located.

The date on the gun previously associated with the remains demonstrates that this individual died in the mid to late 19th century. At that time, south central Colorado, including Huerfano County, was the territory of the Eastern Bands of the Ute. This geographic association is confirmed by the oral testimony given in consultation, and is supported by ethnographical and historical evidence. Dr. Renaud's notes include a 1932 interview with Mr. I. Blasquez, a resident of La Veta since 1863, who also confirmed that the Ute lived in the La Veta area in the mid-19th century.

Based on the above-mentioned information, officials of the University of Denver Department of Anthropology and Museum of Anthropology have determined that, pursuant to 43 CFR 10.2(d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Also, officials of the University of Denver Department of Anthropology and Museum of Anthropology have determined that, pursuant to 43 CFR 10.2(e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Skull Valley Band of Goshute Indians of Utah; the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; the Ute Indian Tribe of the Uintah and Ouray Reservation, Utah; and the Ute Mountain Tribe of the Ute Mountain

Reservation, Colorado, New Mexico and Utah.

This notice has been sent to officials of the Arapahoe Tribe of the Wind River Reservation, Wyoming; Cheyenne-Arapaho Tribes of Oklahoma; Comanche Indian Tribe, Oklahoma; Fort Sill Apache Tribe of Oklahoma; Hopi Tribe of Arizona; Jicarilla Apache Tribe of the Jicarilla Apache Indian Reservation, New Mexico; Kiowa Indian Tribe of Oklahoma; Navajo Nation, Arizona, New Mexico and Utah; Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana; Pueblo of Acoma, New Mexico; Pueblo of Cochiti, New Mexico; Pueblo of Jemez, New Mexico; Pueblo of Isleta, New Mexico; Pueblo of Laguna, New Mexico; Pueblo of Nambe, New Mexico; Pueblo of Picuris, New Mexico; Pueblo of Pojoaque, New Mexico; Pueblo of San Felipe, New Mexico; Pueblo of San Juan, New Mexico; Pueblo of San Ildefonso, New Mexico; Pueblo of Sandia, New Mexico; Pueblo of Santa Ana, New Mexico; Pueblo of Santa Clara, New Mexico; Pueblo of Santo Domingo, New Mexico; Pueblo of Taos, New Mexico; Pueblo of Tesuque, New Mexico; Pueblo of Zia, New Mexico; Skull Valley Band of Goshute Indians of Utah; Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; Ute Indian Tribe of the Uintah and Ouray Reservation, Utah; Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico and Utah; and the Zuni Tribe of the Zuni Reservation, New Mexico. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Jan I. Bernstein, Collections Manager and NAGPRA Coordinator at the University of Denver Department of Anthropology and Museum of Anthropology, 2000 Asbury, Sturm Hall S-146, Denver, CO 80208-2406, email jbernste@du.edu, telephone (303) 871-2543, before December 6, 2000. Repatriation of the human remains to the Skull Valley Band of Goshute Indians of Utah; the Southern Ute Indian Tribe of the Southern Ute Reservation, Colorado; the Ute Indian Tribe of the Uintah and Ouray Reservation, Utah; and the Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico and Utah may begin after that date if no additional claimants come forward.

Dated: October 30, 2000.

John Robbins,

Assistant Director, Cultural Resources Stewardship and Partnerships.

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Notice of Intent to prepare an Environmental Impact Report (EIR)/ Environmental Impact Statement (EIS) on the Imperial Irrigation District/San Diego County Water Authority Water Conservation and Transfer Project

AGENCY: Bureau of Reclamation, Interior.

ACTION: Amended Notice of Intent to Prepare a Joint Environmental Impact Report/Environmental Impact Statement (EIR/EIS).

SUMMARY: The Fish and Wildlife Service (Service) intends to be a cooperating agency (pursuant to 40 CFR section 1501.6) in the Bureau of Reclamation's (Bureau) preparation of a joint EIR/EIS pursuant to the National Environmental Policy Act (NEPA) and the California Environmental Quality Act (CEQA). The joint EIR/EIS will be developed for: (1) the conservation and transfer of water from Imperial Irrigation District (IID) to the San Diego County Water Authority (SDCWA), the Coachella Valley Water District (CVWD) and/or the Metropolitan Water District of Southern California (MWD) and (2) approval of a Habitat Conservation Plan, and issuance of an incidental take permit, pursuant to section 10(a)(1)(B) of the Endangered Species Act of 1973, as amended, including consideration of conservation measures or plans addressing State-listed species.

This notice is being furnished pursuant to the Council on Environmental Quality Regulations for Implementing the Procedural Provisions of the National Environmental Policy Act (40 CFR section 1501.22). Pursuant to regulations at 40 CFR (sections 1501.7 and 1508.22), the Bureau, as lead agency pursuant to NEPA, and the Service, as the Federally authorized permitting agency, are seeking suggestions and information from other agencies and the public on the scope of issues and alternatives to be considered in preparation of the joint EIR/EIS pertaining to possible issuance of a Federal incidental take permit. To satisfy both NEPA and CEQA, the Service, as a cooperator, with the Bureau as the Federal lead agency and IID as the State lead agency are conducting this additional scoping process for the preparation of the environmental documents.

DATES: In order to expedite the planning process, the above agencies request all scoping comments on this notice be received by December 6, 2000.

ADDRESSES: You should address written comments to Ms. Nancy Gilbert, Assistant Field Supervisor, Fish and Wildlife Service, 2730 Loker Avenue West, Carlsbad, California 92008. You may also send comments by facsimile to (760) 431-9618.

FOR FURTHER INFORMATION: Contact Ms. Carol Roberts, Salton Sea Coordinator, or Mr. Pete Sorensen, Division Chief, at the above Carlsbad address or by telephone at (760) 431-9440. Persons wishing to obtain background material may contact Mr. Steve Knell of the Imperial Irrigation District at 333 E. Barioni Blvd., P.O. Box 937, Imperial California 92251, or by telephone at (760) 339-9266.

SUPPLEMENTARY INFORMATION: The Bureau is publishing this notice to amend the September 27, 1999 Notice of Intent (see 64 FR 52102) to provide public notice that the project EIR/EIS will include an evaluation of the impacts associated with the potential issuance of an incidental take permit. This was not specifically addressed in the initial Notice of Intent provided for the project. The Habitat Conservation Plan will cover a broad array of activities including: water conservation, water conveyance and drainage, operation and maintenance, system improvements, miscellaneous activities, and third party activities required to achieve the conservation and transfer of up to 300,000 acre-feet of water per year from IID to the SDCWA and to meet the voluntary cap on IID's water use of 3.1 million acre-feet per year from the Colorado River. Up to 100,000 acre-feet of the water conserved by IID may be transferred to the CVWD and/or MWD, instead of SDCWA, as part of the proposed Quantification Settlement Agreement on the Colorado River. The EIR/EIS will evaluate transfer volumes up to 400,000 acre-feet per year. The IID (Applicant) intends to request an incidental take permit for up to 96 listed (Federal and State) and unlisted species of concern (fish, wildlife, and plants) under specific provisions of the permit. In the case of unlisted species, the permit will provide coverage should these species be listed in the future. The Plan will cover all areas of IID's water delivery and collection system from the Imperial Dam on the Colorado River throughout the Imperial Valley (approximately 470,000 acres) into the Salton Sea.

Availability of Documents

During the comment period the documents will be available for public inspection by appointment during normal business hours (8 a.m. to 5 p.m.,
