

information on the GSEs' business activities is needed to measure and monitor their compliance with statutorily mandated housing goals; to ensure the GSEs' compliance with counting rules, including the exclusion of high cost, predatory loans, from eligibility for goals credit; to foster a continuing dialogue between HUD, the GSEs, Congress, and the public on the activities of the GSEs with respect to affordable housing and underserved mortgage market issues; and to improve the operating of the housing finance market.

In accordance with HUD's regulation issued in 1995, the GSEs submit Quarterly Mortgage Reports, Annual Housing Activities Reports, Periodic Reports, and Other Information Analyses. This reporting remains unchanged in HUD's recently published regulation.

The mid-year second quarter Mortgage Report and the year-end Annual Mortgage Activities Report also must include year-to-date computerized loan level data. In order to accommodate the counting rule changes in HUD's new regulation, HUD proposes to increase its mid-year and year-end computerized loan level data collection requirement by about 36 percent over requirements imposed during the reporting period 1996–1999. The 36 percent increase includes data fields that are counted twice because the same data is collected from both single family and multifamily data sources. This action represents the first increase in HUD's data collection requirements since publication of the 1995 final rule. These new data collection requirements will enable HUD to monitor GSEs' compliance with new goals and counting conventions and will also permit HUD to make determinations relative to the effectiveness of certain incentives in promoting conventional mortgage lending activity to traditionally underserved borrowers and communities.

Agency Form Numbers, if applicable: None.

Estimation of the total number of hours needed to prepare the information collection including number of respondents, frequency of response, and hours of responses: The estimated number of respondents is 2, the total annual responses are approximately 87 reports, and the total annual hours of all responses, including reports and data collection, are estimated at 5,697 hours.

Status of the proposed information collection: Revision of a currently approved collection.

Authority: The Paperwork Reduction Act of 1995, 44 U.S.C., Chapter 35, as amended.

Dated: October 31, 2000.

William C. Appgar,

Assistant Secretary for Housing-Federal Housing Commissioner.
