Priority Areas

Priority Area 1.01 University-Head Start Partnerships

Eligible Applicants: Universities and four-year colleges on behalf of a faculty member who holds a doctorate or equivalent in their respective field.

Project Duration: The announcement for Priority Area 1.01 is soliciting applications for project periods of three years, with the first year as a planning grant which will be used to pilot instruments or interventions. Awards, on a competitive basis, will be for the first one-year planning budget period. Applications for continuation funds under these awards beyond the first-year budget period, but within the established project period, will be entertained in subsequent years on a non-competitive basis, subject to availability of funds, satisfactory progress of the grantee, and a determination that continued funding would be in the best interests of the Government.

Federal Share of Project Costs: The maximum Federal share is \$75,000 for the first-year budget period. The Federal share for the subsequent years is approximately \$150,000 for each year of the project period. The Federal Share is inclusive of indirect costs.

Matching Requirements: There are no matching requirements.

Anticipated Number of Projects To Be Funded: It is anticipated that 4-8 projects will be funded.

Priority Area 1.02 Master's-Level and Doctoral Head Start Research Grants

Eligible Applicants: Institutions of higher education on behalf of graduate

students at both the Master's and Doctorate levels. Doctoral students must have completed their Master's degree or equivalent in that field prior to applying for this grant or by the time grants are awarded, and have sent formal notification of having been granted the degree to ACYF. To be eligible to administer the grant on behalf of the student, the institution must be fully accredited by one of the regional accrediting commissions recognized by the Department of Education and the Council on Post-Secondary Accreditation. In addition, the specific graduate student on whose behalf the application is made must be identified.

Project Duration: The announcement for Priority Area 1.02 is soliciting applications for project periods up to two years. Awards, on a competitive basis, will be for a one-year budget period, although project periods may be for two years. It should be noted, that if the graduate student, on whose behalf the university is applying, expects to receive a degree by the end of the first year budget period, the applicant should request a one-year project period only. A second year budget period will not be granted if the student has graduated by the end of the first year. If the student either graduates or leaves the program during the project or budget period, the grant cannot be transferred to another student and must be surrendered to the Government. Applications for continuation grants will be entertained in the subsequent year on a non-competitive basis, subject to availability of funds, satisfactory progress of the grantee and a determination that continued funding would be in the best interest of the Government.

Federal Share of Project Costs: The maximum Federal share shall range between \$10,000–\$20,000 for the first-year budget period or a maximum of \$40,000 for a two-year project period.
