

duplicate current and widely available research syntheses, unless new evidence is available that suggests the need for revisions or updates.

For each topic, nominators should provide a rationale and supporting evidence on the importance and relevance of the topic. Nominators must also state their plans for use of the evidence report and indicate how the report could be used by public and private decision makers. Nomination information should include:

- Defined organizational/financial arrangement or structure impacting quality, outcomes, cost, access or use.
- Three to five specific questions to be answered.
- If appropriate, description of how the organizational/financial arrangement or structure is particularly relevant to delivery of care for specific vulnerable populations (e.g., children, persons with chronic disease) or certain communities (e.g., rural markets).
- Costs potentially affected by the organizational/financial arrangement, to the extent they can be quantified.
- Impact potential of the evidence report to decrease health care costs or to improve health status or outcomes.
- Availability of scientific and/or administrative data and bibliographies of studies on the topic.
- References to significant variation in delivery and financing patterns and/or results, and related controversies.
- Nominator's plan for use of an evidence report on this topic.
- Nominator's plan for measuring the impact of the report on practice.

Selection Criteria for Organization and Financing Topics

Factors that will be considered in the selection of topics related to the organization and financing of care include the following: (1) Uncertainty about the impact of the subject organizational or financing strategy; (2) potential for the subject organizational or financing strategy or the proposed research synthesis to significantly impact aggregate health care costs; (3) policy-relevant to Medicare, Medicaid, and/or other Federal and State health programs; (4) relevant to vulnerable populations, including racial and ethnic minorities, and particular communities, such as rural markets; (5) available scientific data to support systematic review and analysis of the topic; (6) demonstrated commitment by the nominating organization to incorporate the report into its managerial or policy decision-making; and (7) plans by the

nominating organization to measure the impact of the report on practice.

Dated: November 2, 2000.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection Renewal Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Information collection; request for comments.

SUMMARY: We are submitting the collection of information described below to OMB for renewal under the provisions of the Paperwork Reduction Act of 1995. If you wish to obtain copies of the proposed information collection requirement, related forms, and/or explanatory material, contact the

Information Collection Clearance Officer at the address listed below.

DATES: OMB has up to 60 days to approve or disapprove information collection but may respond after 30 days. Therefore, to ensure maximum consideration, you must submit comments on or before December 13, 2000.

ADDRESSES: Send your comments on the requirement to the Office of Management and Budget, Attention: Department of Interior Desk Officer, 725 17th Street, NW., Washington, DC 20503, and to Rebecca Mullin, Service Information Collection Clearance Officer, U.S. Fish and Wildlife Service, MS 222-ARLSQ, 1849 C Street NW., Washington, DC 20204.

FOR FURTHER INFORMATION CONTACT: Rebecca Mullin, Information Collection Clearance Officer, at (703) 358-2287; rebecca_mullin@fws.gov.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR part 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities. The U.S. Fish and Wildlife Service plans to submit a request to OMB to renew its approval of the collection of information concerning numbers of double-crested cormorants taken under the Depredation Order (50 CFR 21.47). We are requesting a 3-year term of approval for this information collection activity. A previous 60 day notice was published (July 28, 2000, pages 46488-46489) in the **Federal Register** inviting public comment. One comment was received.

Comments

A letter from the National Aquaculture Association (NAA) stated that although they felt the time burden was underestimated, the burden is justified because the information collection is "vital to the overall management program." NAA also suggested that publishing an on-line summary of the results of the information collection (*i.e.*, the number of cormorants killed under the Depredation Order) would be useful and that online reporting should be considered.

Response

While we do not feel that these comments justify revising the estimated time burden, we will consider the idea of using the internet for information
