- G. Public hearing on new entry criteria for the Mau Zone bottomfish fishery

The Council has developed a framework amendment to the Fishery Management Plan for Bottomfish and Seamount Groundfish Fisheries of the Western Pacific Region. The amendment will establish criteria for new entry into the limited access Mau Zone bottomfish fishery around the NWHI. In developing the framework document, the Council considered a range of alternatives and impacts on NWHI bottomfish fishery. Currently, there are no Federal regulations that specify how new permits are to be issued for the Mau Zone fishery once the number of vessels in the Zone falls below the target

number of 10 permits. The Council is soliciting public comment and input on options for eligibility criteria including but not limited to the following: weighted point system based on past participation in the bottomfish fisheries off the main Hawaiian islands and NWHI, free and limited transferability of permits, and a lottery system.

11. Crustacean Fisheries

C. National Academy of Sciences report on fishery data

D. American Samoa framework measure

The entry of large boats into the pelagics fishery in the exclusive economic zone (EEZ) around American Samoa could cause local overfishing in a portion of the EEZ, create gear conflicts particularly in areas of concentrated fishing, and reduce the opportunities for profitable fishing operations. This management measure addresses these concerns by allocating fishing privileges to small-boat fishermen harvesting pelagic management unit species (PMUS) in the EEZ surrounding American Samoa. Specifically, the measure prohibits the taking of PMUS by domestic fishing vessels larger than 50 ft (15.24 m) (length overall) from waters within an area that is approximately 50 nm from the baselines of Tutuila Island, Rose Atoll, and the Manu'a Islands and Swain's Island. An owner of a vessel

greater than 50 ft (15.24 m) in length who held a NMFS Longline General Permit on or prior to November 13, 1997, and made a landing of PMUS in American Samoa on or prior to that date is exempt from the prohibition to take PMUS within the closed area.
