**Atomic Safety and Licensing Board; Notice (Schedule for Oral Argument)**

Before Administrative Judges:

G. Paul Bollwerk, III, Chairman  
Dr. Peter S. Lam  
Thomas D. Murphy

In the Matter of Carolina Power & Light Company (Shearon Harris Nuclear Power Plant)

In accordance with the Licensing Board's memorandum and order of August 28, 2000, the Board will hold the 10 CFR 2.1113 argument regarding the parties' written summaries on intervenor Board of Commissioners of Orange County's (BCOC) contention EC-6, Environmental Impact Statement Required, on *Thursday, December 7, 2000, beginning at 9:30 a.m. EST, in the Jane S. McKimmon Conference Center, North Carolina State University, corner of Gorman Street and Western Avenue, Raleigh, North Carolina.* The procedures applicable to this oral argument will be the same as those used for the January 2000 oral argument. See Licensing Board Memorandum and Order (Subpart

K Oral Argument Procedures) (Jan. 13, 2000) at 1-3 (unpublished).

At this juncture, it is the Board's intent that this oral argument will be open to the public. If, in submitting written summaries, any of the parties utilize proprietary or other nonpublic information, the parties should be prepared to advise the Board whether that information will be discussed during, or otherwise be a part of, the oral argument. See *id.* at 5.

Rockville, Maryland, November 9, 2000.

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 72-3]

**Notice of Issuance of Amendment to Materials License No. SNM-2502, Carolina Power & Light Company; Independent Spent Fuel Storage Installation**

The U.S. Nuclear Regulatory Commission (NRC or the Commission) has issued Amendment No. 12 to Materials License SNM-2502 held by Carolina Power & Light Company (CP&L) for the receipt, possession, transfer, and storage of spent fuel at the H. B. Robinson Independent Spent Fuel Storage Installation (ISFSI), located on the H. B. Robinson Steam Electric Plant Unit 2 site, Darlington County, South Carolina. The amendment is effective as of the date of issuance.

By application dated August 28, 2000, CP&L requested an amendment to Materials License SNM-2502 for the H.B. Robinson ISFSI. CP&L is seeking Commission approval to amend the materials license safeguards license condition and the Technical Specifications to reflect that the Industrial Security Plan and Safeguards Contingency Plan are combined into the Physical Security and Safeguards Contingency Plan. The revision would also clarify the text to indicate that the Training and Qualification Plan no longer contains safeguards information. Such an action would only change the reference to and the location of the Industrial Security Plan and the Safeguards Contingency Plan. The requested change does not affect the

\* Copies of this notice were sent this date by Internet e-mail transmission to counsel for (1) applicant Carolina Power and Light Company; (2) intervenor BCOC; and (3) the NRC staff.

design, operation, maintenance, or surveillance of the ISFSI.

This amendment complies with the requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment.

In accordance with 10 CFR 72.46(b)(2), a determination has been made that the amendment does not present a genuine issue as to whether public health and safety will be significantly affected. Therefore, the publication of a notice of proposed action and an opportunity for hearing or a notice of hearing is not warranted. Notice is hereby given of the right of interested persons to request a hearing on whether the action should be rescinded or modified.

The Commission has determined that the issuance of the amendment meets the criteria for a categorical exclusion set forth in 10 CFR 51.22(c)(10) of the regulations. Therefore, an environmental assessment need not be prepared in connection with issuance of the amendment.

Documents related to this action are available for public inspection at the Commission's Public Document Room located at the One White Flint Building, 11555 Rockville Pike, Rockville, Maryland, or from the publicly available records component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room).

Dated at Rockville, Maryland, this 6th day of November 2000.

For the Nuclear Regulatory Commission.

**NUCLEAR REGULATORY COMMISSION****Application for a License to Export Highly-Enriched Uranium**

Pursuant to 10 CFR 110.70(b)(2) "Public notice of receipt of an application," please take notice that the Nuclear Regulatory Commission has received the following application for an export license. Copies of the application are available electronically through ADAMS and can be accessed through the Public Electronic Reading Room (PERR) link <<http://www.nrc.gov/>

[NRC/ADAMS/index.html](#)> at the NRC Homepage.

A request for a hearing or petition for leave to intervene may be filed within 30 days after publication of this notice in the **Federal Register**. Any request for hearing or petition for leave to intervene shall be served by the requestor or

petitioner upon the applicant, the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington D.C. 20555; the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555; and the Executive Secretary, U.S. Department of State, Washington, D.C. 20520.

In its review of the application for a license to export special nuclear material noticed herein, the Commission does not evaluate the health, safety or environmental effects in the recipient nation of the material to be exported. The information concerning this application follows.

the Haddam Neck Plant are also washed at the laundromat on occasion. The petitioner contends that although it is not clear whether or not the garments were radioactively contaminated that the "laundering of Haddam Neck's protective garments at a public facility constitutes a serious loss of radiological control, and blatant disregard for public and worker health and safety, the environment, and NRC rules and regulations." In support of the claim the petition cites a number of events that the petitioner believes collectively demonstrate an "inability on the licensee's part to follow NRC rules and regulations \* \* \*."

Based on the findings of an inspection performed by the NRC staff as a result of the petition, the staff is confident that there is not an immediate safety issue associated with this petition. Therefore, the NRC does not intend to act immediately on the petitioners' second request (suspension or revocation of the Haddam Neck Plant operating license).

This request is being treated pursuant to 10 CFR 2.206 of the Commission's regulations. The request has been referred to the Director of the Office of Nuclear Reactor Regulation. As provided by Section 2.206, appropriate action will be taken on this petition within a reasonable time.

The petition (ADAMS Accession Number ML003755400) may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and is accessible electronically from the ADAMS Public Library component of the NRC Web site, <http://www.nrc.gov> (the Public Electronic Reading Room).

Dated at Rockville, Maryland, this 9th day of November 2000.

**NUCLEAR REGULATORY COMMISSION**

[Docket No. 50-213]

**Connecticut Yankee Atomic Power Company, et al., Haddam Neck Plant; Receipt of Petition for Director's Decision Under 10 CFR 2.206**

Notice is hereby given that by petition dated September 26, 2000, the Citizens Awareness Network (petitioner) has requested that NRC take action with regard to Connecticut Yankee Atomic Power Company (CYAPCO). The petitioner requests that the United States Nuclear Regulatory Commission (NRC): (1) Conduct a full investigation of CYAPCO's garment laundering practices and specifically of the September 20, 2000, incident at a public laundry facility; (2) revoke CYAPCO's license, or suspend it until such time that an investigation is completed and any contamination found as a result of that investigation is remediated; (3) report any violations of regulations to the Department of Justice, and; (4) conduct an informal public hearing.

As the basis for this request the petitioner states that on September 20, 2000, CYAPCO laundered bright yellow coveralls at a public laundromat in East Hampton, CT. In addition, the petitioner states that rubber boots and gloves from

**OMB Circular A-133 Information Collection Under OMB Review**

**AGENCY:** Office of Management and Budget, Executive Office of the President.

**ACTION:** Notice of Submission for OMB Review, Comment Request.

**SUMMARY:** In accordance with the Paperwork Reduction Act of 1980, as amended (44 U.S.C. 3501 *et seq.*), this notice announces that an information collection request was submitted to the Office of Management and Budget's (OMB) Office of Information and Regulatory Affairs for processing under 5 CFR 1320.10. The first notice of this information collection request, as required by the Paperwork Reduction Act, was published in the **Federal Register** on July 11, 2000 (65 FR 42735). The information collection request involves two proposed information collections from two types of entities: (1) Reports from auditors to auditees concerning audit results, audit findings, and questioned costs; and, (2) reports from auditees to the Federal Government providing information about the auditees, the awards they administer, and the audit results. These
