

American Electric Power Company, Inc. (70-8429)

American Electric Power Company, Inc. ("AEP"), a registered holding company, and its wholly owned subsidiary, AEP Resources, Inc. ("Resources", and together with AEP, "Applicants"), both located at 1 Riverside Plaza, Columbus, Ohio 43215, have filed a post-effective amendment under sections 6(a), 7, 9(a), 10, 12(b), 32 and 33 of the Act and rules 45 and 53 under the Act to their application-declaration previously filed under the Act.

By orders dated December 22, 1994, May 10, 1996 and April 27, 1998 ("Prior Orders") (HCAR Nos. 26200, 26516 and 26864), the Commission authorized AEP and Resources to, among other things, issue debt and equity securities ("Securities")¹ through December 31, 2000, for investment in "exempt wholesale generators" ("EWGs") and "foreign utility companies" ("FUCOs"), as defined in sections 32 and 33 of the Act. AEP and Resources were also authorized to acquire the securities of one or more companies ("Project Parents") that directly or indirectly hold the securities of one or more EWGs or FUCOs ("Power Projects"). The Prior Orders also provided authority for AEP to guarantee the obligations of Resources, for AEP and Resources to guarantee the obligations of one or more Project Parents or Power Projects, and for Project Parents to guarantee the obligations of their Power Projects² all in an aggregate amount which, together with the proceeds of the Securities, would not exceed 100% of AEP's consolidated retained earnings, as defined in rule 53(a) under the Act ("Investment Limitation").

By order dated June 14, 2000 (HCAR No. 27186), the Commission approved the merger of AEP and Central and South West Corporation ("CSW"), a

¹ In particular, AEP was authorized to issue and sell up to ten million shares of its common stock and to incur short-term debt in the form of notes issued to banks and commercial paper. Resources was authorized to incur short-term and long-term debt. The Applicants state that, because of the adoption of rule 52, any securities issuance by any associate company, other than AEP, constitutes an exempt transaction under the rule.

² The Prior Orders provided that AEP could guarantee Resources' issuance of long-term notes having terms of not less than nine months nor more than twenty years, bearing interest at a fixed rate, a fluctuating rate or a combination of fixed and fluctuating rates. AEP was authorized also to guarantee borrowings by Resources under lines of credit that would generally bear interest at an annual rate not greater than the prime commercial rate in effect from time to time. Finally, the prior Orders authorized AEP to guarantee the issuance and sale of commercial paper by Resources maturing not more than 270 days from the date of issuance.

registered holding company. In the order, the Commission also increased the Investment Limitation to allow AEP to issue and sell Securities and provide guarantees in an amount of up to 100% of AEP and CSW's combined consolidated retained earnings after giving effect to the merger ("Modified Investment Limitation").

The Applicants now request authority for AEP to extend, through June 30, 2005 and within the Modified Investment Limitation, AEP's authority under the Prior Orders to issue and sell Securities and to guarantee the indebtedness and other financial commitments of Resources, Project Parents and Power Projects for investments in EWGs and FUCOs. The Applicants separately request authority, through June 30, 2005, for Resources to guarantee obligations, other than indebtedness,³ of Project Parents and Power Projects, and for Project Parents to guarantee obligations of Power Projects, other than indebtedness, each in amounts not exceeding \$3 billion outstanding at any time.

For the Commission, by the Division of Investment Management, under delegated authority.

Margaret H. McFarland,
Deputy Secretary.

L. 96-193) (hereinafter referred to as "the Act") and Title 14, Code of Federal Regulations (CFR), part 150. SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed Noise Compatibility Program for Camarillo Airport which will be approved or disapproved on or before May 4, 2001. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted Noise Exposure Maps that are found by the FAA to be in compliance with the requirements of Title 14, CFR, part 150, promulgated pursuant to Title I of the Act, may submit a Noise Compatibility Program for FAA approval which sets forth in the measures the operator has taken or proposes for the reduction of existing noncompatible uses and for the

prevention of the introduction of additional noncompatible uses.

The FAA has formally received the Noise Compatibility Program for Camarillo Municipal Airport, effective on September 6, 2001. It is requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a Noise Compatibility Program under section 104(b) of the Act. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of Noise Compatibility Programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before, May 4, 2001.

The FAA's detailed evaluation will be conducted under the provisions of Title 14, CFR part 150, § 150.33. The primary considerations in the evaluation process are whether the proposed measures reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or are reasonably consistent with obtaining the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable.
