[Docket No. RP01-84-000]

Petal Gas Storage, L.L.C.; Notice of Request for Exemption

November 15, 2000.

Take notice that on November 9, 2000, Petal Gas Storage L.L.C. (Petal) tendered for filing, in accordance with the Commission's Order on Filings to Establish Imbalance Netting and Trading Pursuant to Order Nos. 587-G and 587-L, in Docket No. RM96-1-014 issued October 27, 2000, 93 FERC ¶ 61,093 (2000), a request for an exemption from the requirement to implement imbalance netting and trading on its system in conformance with Section 284.12(c)(2)(ii) of the Commission's Regulations. Petal's shippers do not incur imbalances and are not subject to imbalance penalties. Accordingly, there are no imbalances to net or trade on Petal's system.

Petal states that copies of this filing are being served on all affected customers and applicable state regulatory agencies.

Any person desiring to be heard or to protest said filing should file a motion to intervene or a protest with the Federal Energy Regulatory Commission, 888 First Street, N.E., Washington, DC 20426, in accordance with Sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed on or before November 22, 2000. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a motion to intervene. Copies of this filing are on file with the Commission and are available for public inspection in the Public Reference Room. [Docket No. CP01-26-000]

Tennessee Gas Pipeline Co.; National Fuel Gas Supply Corp.; Notice of Application

November 15, 2000.

Take notice that on November 1, 2000, Tennessee Gas Pipeline Company

(Tennessee) and National Fuel Gas Supply Corporation (National Fuel), collectively Applicants, filed an abbreviated application in Docket No. CP01-26-000 pursuant to sections 7(b) and 7(c) of the Natural Gas Act, as amended, and sections 157.7 and 157.14 of the Regulations of the Federal Energy Regulatory Commission (Commission), requesting a certificate of public convenience and necessity granting the Applicants authorization to amend the Hebron Storage Agreement in certain respects. The application is on file with the Commission and open to public inspection. This filing may be viewed via the internet at <http://www.ferc.fed.us/online/rims.htm> (call 202-208-2222 for assistance). Any questions regarding the application should be directed to Christopher D. Young, Senior Counsel, Tennessee Gas Pipeline Company, P.O. Box 2511, Houston, Texas 77252 at (713) 420-7239 or David W. Reitz, National Fuel Gas Supply Corp., 10 Lafayette Square, Buffalo, New York 14203 at (716) 857-7949.

The Applicants request that the Commission issue an order authorizing the reallocation of the Applicants' certified entitlements to storage capacity and delivery capacity at the Hebron Storage Field pursuant to an amendment to the Hebron Storage Agreement. Applicants indicate that upon receiving appropriate certificate authority, Tennessee's Assigned Storage Capacity will be reduced by 1.0 Bcf and National Fuel's will be increased by an equivalent amount, with a corresponding change to the Assigned Delivery Capacity of each party. Applicants summarize the change in storage capacity as follows:

ASSIGNED STORAGE CAPACITY

	Current assignment		Proposed assignment	
	Percent	Mcf	Percent	Mcf
Tennessee	86.1	14,870,000	80.31	13,870,000
National Fuel	13.9	2,400,000	19.69	3,400,000
Rated Storage Capacity	100	17,270,000	100	17,270,000

Applicants state that, under the Hebron Storage Agreement, the Assigned Storage Capacity of a party is that portion of the Rated Storage Capacity that the Assigned Delivery Capacity of such party bears to the Rated Delivery Capacity of the storage field. The Applicants propose that the Assigned Delivery Capacity be fixed portions of the Rated Delivery Capacity:

Tennessee's portion would be 80.31% and National Fuel's would be 19.69%, subject to change in the event that a future development program is implemented.

Applicants also request that the Commission approve an option for a limited term lease arrangement between Tennessee and National Fuel to provide a measure of flexibility to Tennessee for

an interim period while Tennessee adjusts its arrangements for meeting its service obligations. Applicants propose that Tennessee have the option to lease from National Fuel storage capacity in the Hebron Field up to the amount transferred to National Fuel (1 Bcf). Applicants also propose that such lease provide for a delivery capacity up to the amount transferred to National Fuel.
