Analysis of Comments and Changes

In response to our invitation in the notice of proposed competitive preference, two parties submitted comments on the proposed additional competitive preference. An analysis of the comments follows.

Comment: One commenter supported the proposed competitive preference.

Discussion: None.

Change: None.

Comment: The other commenter noted that it may be difficult to substantiate information on people with disabilities serving as project staff. Some people with disabilities prefer not to disclose those disabilities.

Discussion: Based upon experience with current and former grantees, the Assistant Secretary believes that substantiation will be a minor issue.

Change: None.

Note: This notice does not solicit applications. In any year in which the Assistant Secretary chooses to use this priority, we invite applications through a notice in the **Federal Register**.

Competitive Preference

Under 34 CFR 75.105(c)(2)(i) the Assistant Secretary adds a competitive preference to applications that are otherwise eligible for funding under the all previously mentioned programs.

The maximum score under the selection criteria for each of these programs is 100 points; however, we will also use the following competitive

preference so that up to an additional 10 points may be earned by an applicant for a total possible score of 110 points.

Up to 10 points may be earned based on the extent to which an application includes effective strategies for employing and advancing in employment qualified individuals with disabilities as project employees in projects awarded under these programs. In determining the effectiveness of those strategies, we will consider the applicant's prior success, as described in the application, in employing and advancing in employment qualified individuals with disabilities.

Therefore, within this competitive preference, applicants can be awarded up to a total of 10 points in addition to those awarded under the published selection criteria noted previously in parentheses after each program. That is, an applicant meeting this competitive preference could earn a maximum total of 110 points.

Goals 2000: Educate America Act

The Goals 2000: Educate America Act (Goals 2000) focuses the Nation's education reform efforts on the eight National Education Goals and provides a framework for meeting them. Goals 2000 promotes new partnerships to strengthen schools and expands the Department's capacities for helping communities to exchange ideas and obtain information needed to achieve the goals.

This competitive preference supports the National Education Goal that calls for every American to possess the skills necessary to compete in a global economy.

Intergovernmental Review

These programs are subject to Executive Order 12372 and the regulations in 34 CFR part 79. One of the objectives of the Executive order is to foster an intergovernmental partnership and a strengthened federalism. The Executive order relies on processes developed by State and local governments for coordination and review of proposed Federal financial assistance.

This document provides early notification of our specific plans and actions for these programs.
