This is the next "stretch" step in advancing the future of the domestic steel industry and compliments the current program based on the Steel Technology Roadmap. Each awardee will develop a conceptual design with supporting technical, marketing, economic and policy data; describe opportunities and barriers; and develop energy, environmental and economic targets.

DATES: The deadline for receipt of applications is 3:00 p.m. MST February 28, 2001.

ADDRESSES: Applications should be submitted to: Procurement Services Division, U.S. Department of Energy, Idaho Operations Office, Attention: Elaine Richardson [DE-PS07-01ID14002], 850 Energy Drive, MS 1221, Idaho Falls, Idaho 83401-1563.

SUPPLEMENTARY INFORMATION: The statutory authority for this program is the Federal Non-Nuclear Energy Research and Development Act of 1974 (P.L. 93-577). DOE anticipates making approximately 1 to 4 cooperative agreement awards each with a duration of two years or less. At the end of the two-year period, a panel of judges made up of steel industry executives will determine which designs will be selected for long term cost-shared research and development investment. Approximately \$500,000 in federal funds is expected to be available to fund the first year of selected design concept efforts. No cost share is required. For-profit, non-profit, state and local governments, Indian Tribes, and institutions of higher education may submit applications in response to this solicitation. Multi-partner collaborations between steel companies, equipment suppliers, engineering firms, and educational institutions are strongly encouraged; collaboration with educational institutions and their students is mandatory. National laboratories will not be eligible for an award under this solicitation. However, an application that includes performance of a portion of the work by a National Laboratory may be considered for award provided the applicant clearly identifies the unique capabilities, facilities, and/or expertise the Laboratory offers the primary applicant. The issuance date of Solicitation No. DE-PS07-01ID14002 will be on or about November 14, 2000. The solicitation will be available in full text via the Internet at the following address: <http://www.id.doe.gov/doiid/psd/proc-div.html>. Technical and non-technical questions should be submitted in writing to Elaine Richardson by e-mail richarem@id.doe.gov, or facsimile at 208-526-5548 no later than January 26, 2001.
