

The proposed project area for the Klamath River in Oregon is @11 miles long from the John C. Boyle Dam to the OR/CA State Line and encompasses @4960 acres. The California portion of the project is from the OR/CA State Line to the slack water of Copco Reservoir in California, a distance of @10 miles and encompasses @4200 acres.

The proposed project is within Klamath County, Oregon and Siskiyou County, California. The proposed project is approximately 12–25 miles south west of Klamath Falls, Oregon beginning at the John C. Boyle Dam.

The BLM/Klamath Falls Resource Area, 2795 Anderson Avenue, Bldg. 25, Klamath Falls, OR 97603, (541) 883–6916 will be the lead agency in preparation of documents. Future documents will be available from this address. Related documents include the Final Eligibility and Suitability Report for the Upper Klamath Wild and Scenic River Study (1990) (Department of the Interior). Copies of this document are available from the Klamath Falls Resource Area office. Another related document is the Klamath Wild and Scenic River Eligibility Report and Environmental Assessment (1994) (National Park Service, Pacific Northwest Region). Copies of this document are available at the National Park Service, Northwest Regional Office, 909 First Avenue, Seattle, WA 98104–1060.

The interdisciplinary team will be made up of a team leader, wildlife, fisheries, botany, archaeology, recreation, hydrology, and planning specialists. An Interagency Review Committee comprised of representatives from county, state, and federal agencies will ensure the project complies with regulatory processes in California and Oregon. The Upper Basin Subcommittee of the Klamath Provincial Advisory Committee will assist in the gathering of information from private river users, local private landowners and other interested parties to include in the interdisciplinary analysis.

The Oregon Parks and Recreation Department is a cooperative agency in the preparation of this document. Other cooperating agencies are the BLM/Redding Field Office in California. The proposed project is for the BLM/Klamath Falls Resource Area to prepare an ACEC/River Management Plan and Environmental Impact Statement for the Klamath River project area. For this River Management Plan and EIS, the State of Oregon will prepare a chapter in the EIS document that will be the management plan for the State scenic waterway and the scenic river.

Comments, including names and addresses of respondents, will be available for public review at the Klamath Falls Resource Area office during regular business hours (8 a.m. to 5 p.m., M–F, except holidays) and may be published as part of the EIS or other related documents. Individuals may request confidentiality. If you wish to withhold your name or address from public review or from disclosure under the Freedom of Information Act, you must state this promptly at the beginning of your written comment. Such request will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

If this management direction is approved, one or more of the alternatives would amend the Klamath Falls Resource Area Resource Management Plan (June 1995) and the Redding Resource Management Plan (June 1993). If the proposed direction amends the RMP plans in both California and Oregon, Bureau of Land Management regulations and associated manuals and handbooks for land use planning would apply.

Sincerely,

Teresa A. Raml,

Manager, Klamath Falls Resource Area.
