II. Background Information

A. What is the Purpose of This Notice?

The purpose of this notice is to make available for comment drafts of three documents. They are entitled:

(1) Emergency Planning and Community Right-to-Know Act—Section 313 Guidance for Reporting Toxic Chemicals: Mercury and Mercury Compounds Category;

(2) Emergency Planning and Community Right-to-Know Act—Section 313 Guidance for Reporting Toxic Chemicals: Polycyclic Aromatic Compounds Category;

(3) Emergency Planning and Community Right-to-Know Act—Section 313 Guidance for Reporting Toxic Chemicals: Pesticides and Other Persistent Bioaccumulative (PBT) Chemicals.

Some of the toxic chemicals discussed in these guidance documents were added to the list of EPCRA section 313 toxic chemicals as part of a final PBT chemical rule (64 FR 58666, October 29, 1999)(FRL-6389-11). The remainder of the chemicals in these three draft documents were previously on the list, and have lower reporting thresholds as a result of the final PBT chemical rule. EPA would like to receive comments on the technical contents of the guidance documents, particularly on the methods of estimating releases and other waste

management quantities for these chemicals. Unit I.B. contains information on how to get copies of the draft guidance documents.

EPA is providing two methods through which interested parties may help complete the final version of the PBT technical guidance documents. As always, there will be a 30-day comment period for responding to the draft PBT documents. In addition, EPA will be meeting directly with stakeholders to improve these guidance documents. A workgroup has already been formed for this purpose. EPA welcomes additional stakeholders to this workgroup. If you are interested in participating, please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section by December 28, 2000.

III. What is the Agency's Authority for Taking this Action?

Section 5(h)(1) of TSCA and 40 CFR 720.38 authorizes EPA to exempt persons from premanufacture notification (PMN) requirements and permit them to manufacture or import new chemical substances for test marketing purposes, if the Agency finds that the manufacture, processing, distribution in commerce, use, and disposal of the substances for test marketing purposes will not present an unreasonable risk of injury to health or the environment. EPA may impose restrictions on test marketing activities and may modify or revoke a test marketing exemption upon receipt of new information which casts significant doubt on its finding that the test marketing activity will not present an unreasonable risk of injury.

IV. What Action is the Agency Taking?

EPA approves the above-referenced TME. EPA has determined that test marketing the new chemical substance, under the conditions set out in the TME application and in this notice, will not present any unreasonable risk of injury to health or the environment.

V. What Restrictions Apply to this TME?

The test market time period, production volume, number of customers, and use must not exceed specifications in the application and this notice. All other conditions and restrictions described in the application and in this notice must also be met.
