Draft Guideline on Pharmacovigilance of Veterinary Medicinal Products: Management of Adverse Event Reports, VICH Topic GL24

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability and request for comments.

SUMMARY: A draft guideline titled "Pharmacovigilance of Veterinary Medicinal Products: Management of Adverse Event Reports" has been developed by the International Cooperation on Harmonization of Technical Requirements for Registration of Veterinary Medicinal Products (VICH). The draft guideline deals with the spontaneous reporting system for identification of possible adverse events following the use of marketed veterinary medicinal products. Because the draft guideline applies, in part, to veterinary biological products regulated by the Animal and Plant Health Inspection Service under the Virus-Serum-Toxin Act, we are requesting comments on its provisions so that we may include any relevant public input on the draft in the Agency's comments to the VICH Steering Committee.

DATES: We invite you to comment on the draft guidelines. We will consider all comments that we receive by January 30, 2001.
