

Presently, the Phlx's Rules do not sufficiently address the issue of staffing levels; however, the Commission believes that proposed amendment to Rule 501(d) will help to ensure that there is adequate staffing coverage on the trading floors.

The Commission believes that proposed amendment to Rule 506 regarding the AES Committee's authority to require specialist units to state their system order acceptance and execution levels, and notify the AES Committee of any changes to the respective system acceptance and execution levels, will help the Exchange to accurately and effectively assess whether the specialist units have the ability to attract order flow to the Exchange.

The Commission believes that proposed amendments to Rule 501, Commentary .02 and Rule 748, will help ensure adequate supervision of specialist staff by considering back-up staff used by a specialist to be employees of the specialist unit. This will help to hold a specialist unit accountable for the acts of staff under their direction, albeit such staff is not directly employed by that specialist unit.

Lastly, the Commission believes that proposed amendments to Rule 501, 505, and 506 regarding notification will help to supply the Phlx and the AES Committee with the appropriate information to make determinations regarding the ability of a specialist to perform in a particular security in accordance with the AES Committee's review procedures.

III. Conclusion

It Is Therefore Ordered, pursuant to Section 19(b)(2) of the Act,⁶ that the proposed rule change (SR-PHLX-00-72) is approved.

For the Commission by the Division of Market Regulation, pursuant to delegated authority.⁷

Margaret H. McFarland,

Deputy Secretary.

SOCIAL SECURITY ADMINISTRATION

Privacy Act of 1974, as Amended; New System of Records and Routine Use Disclosures

AGENCY: Social Security Administration (SSA).

ACTION: New System of Records and Proposed New Routine Uses.

SUMMARY: In accordance with the Privacy Act (5 U.S.C. 552a(e)(4) and (e)(11)), we are issuing public notice of our intent to establish a new system of records entitled, the Social Security Administration's Customer PIN/Password (PPW) Master File System (hereinafter referred to as the Customer PPW Master File System) and routine uses applicable to this system. The proposed Customer PPW Master File System will maintain information collected for use in connection with SSA's implementation of a personal identification number (PIN)/Password system that allows Social Security program applicants, beneficiaries and other customers to conduct business with SSA in an electronic business environment.

The proposed Customer PPW Master File System will provide for routine use disclosures in connection with our administration of the Social Security Act or as mandated by Federal law. We invite public comment on this proposal.

DATES: We filed a report of the proposed new system of records with the Chairman of the Senate Governmental Affairs Committee, the Chairman of the House Reform and Oversight Committee, and the Director, Office of Information and Regulatory Affairs, Office of Management and Budget (OMB) on November 28, 2000. The proposed system of records, including the proposed routine uses, will become effective on January 13, 2001, unless we receive comments that would warrant the system of records not being implemented.
