The applicant must also, within 30 days of filing its application give local public notice in a newspaper. The specific data that must be included in the newspaper publication is contained in Section 74.991(c). The notice must be published twice a week for two consecutive weeks. The burdens for these involuntarily displaced ITFS stations are included in the estimates for the FCC 327 and FCC 330. Additionally, Section 74.902(i) requires that a copy of this application be served on the ITFS licensee to be moved. The data will be used by the ITFS licensee to oppose the involuntary migration if the proposal would not provide comparable ITFS service and to ensure that the public interest is served.

OMB Control Number: 3060-0684.

Title: Amendment to the Commission's Rules Regarding a Plan for Sharing Costs of Microwave Relocation, WT Docket No. 95-157, FCC No. 00-123

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities; Individuals or households.

Number of Respondents: 2,000.

Estimate Time Per Response: 54 mins. (avg.).

Frequency of Response: Biennial and on occasion reporting requirements; Third party disclosure.

Total Annual Burden: 1,790 hours.

Total Annual Costs: \$862,000.

Needs and Uses: On April 5, 2000, the FCC adopted an Order on Reconsideration which revised its rules to effectuate the relocation of fixed microwave incumbents from the 2 GHz band to clear spectrum for the development of PCS. In doing so, the FCC implemented its plan for PCS relocators and subsequent PCS licensees to share the costs of relocating existing 2 GHz microwave facilities, thus providing for a fair and efficient relocation process. These rules, which govern both the relocation and cost-sharing plans, foster the development of competitive broadband PCS service throughout the country, while permitting incumbent providers of microwave service to relocate to higher spectrum bands. This information collection facilitates dispute resolution for PCS relocators and microwave licensees independent of the Commission and assists PCS relocators and microwave licensees when they negotiate relocation agreements.

Furthermore, the information collection helps two industry clearinghouses maintain a national database, determine reimbursement obligations of subsequent PCS entities under the Commission's cost-sharing rules, and notify subsequent PCS entities of their obligations.
