II. Background

Proper management of America's Public lands is vital for the natural ecosystems that they support and for the activities and resources they provide. The use of off-highway vehicles (OHVs) on BLM-administered public lands has increased substantially in recent years, and there has been an increasing concern about the impact of all types of recreational activities, including OHV use, on the 264 million acres of public land resources. The management challenges posed by OHV use in the fast-growing West have become very apparent, especially since the BLM's land-use plans, budgets, and staffing levels have not kept pace with OHV technology and popularity. These factors, along with litigation over OHV management issues, have created the need for a National OHV Management Strategy.

In August 2000, the BLM asked the public for ideas and proposed solutions for improving management of the OHV program. We are again requesting your participation to review this document and give us substantive comments. Because of the immense interest the public has shown in the OHV management on BLM-administered public lands, we are requesting that your comments specifically relate to this document. All comments will be fully considered and evaluated in making any necessary changes in the development of the final National Off-Highway Management Strategy.

Comments, including names and street addresses of respondents will be available for public review at the Bureau of Land Management, Equity Building, Room 204, 1620 L Street NW,

Washington, DC from 8:30 a.m. to 4:30 p.m., Monday through Friday, except holidays. Individual respondents may request confidentiality. If you wish to withhold your name or address from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your comments. Such requests will be honored to the extent allowed by law. All submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, will be made available for public inspection in their entirety.

Dated: December 4, 2000.

Assistant Director Renewal Resources and Planning.
