

form for the collection of this required additional information. The information required in 43 CFR Parts 2800 and 2880 is needed to enable the BLM to determine whether or not a right-of-way may be granted, establish the terms and conditions of the grant and administer the grant when made. Additional information in the form of construction and other plans; detailed maps; certification, permits and approvals required by other agencies; and other information necessary for the completion of the project are authorized by 43 CFR 2802.4, 2881.2, and 2882.3. Each right-of-way is an individual situation and the information collected is specific to that individual proposal and only available from the applicant. BLM may require additional information in the form of a plan. This plan is a product of the NEPA requirements. It is a useful working tool that enables both the BLM and the applicant to have a common understanding on how the project will proceed. BLM may also require an as-built map. These maps show greater detail than the basic location map required to be submitted with the application. A more exact location of the holder's right-of-way and related facilities will give the holder more protection for their improvements. The BLM also requires assurances that certifications, permits, and approvals required by others and identified during the NEPA analysis process have been obtained. BLM may require a detailed description of alternative routes the applicant considered when developing the proposal. BLM uses such information to gain insight into the complexities and conflicts of the proposals. BLM may request statements of need and economic feasibility and of the environmental, social, and economic effects of the proposal to assist us in evaluating the proposal with respect to NEPA compliance. If the BLM fails to properly collect the required information including plans, construction schedules, maps specific certificates, permits, and approvals necessary for the completion of the project, the BLM will reject the right-of-way application.

Based on BLM's experience administering the activities described above, approximately 25 percent of the 4,000 applications the BLM receives annually require additional information collection. The applicants are usually large companies that seek to construct large complex projects on public lands which require a right-of-way. The public reporting burden for the information collected is estimated to average 16.8

hours per response. The frequency of response is once. The estimated total annual burden on new respondents is about 16,800 hours. BLM will summarize all responses to this notice and include them in the request for Office of Management and Budget approval. All comments will also become a matter of public record.

#### **Realty Action: FLPMA Sec. 302 Lease, Iliamna Lake**

**AGENCY:** Bureau of Land Management, Interior.

**ACTION:** Notice of Realty Action, Lease of Public Land.

**SUMMARY:** Mr. Ted J. Forsi has submitted an application to lease public land. The lease is to be used in conjunction with an existing Special Recreation Permit (SRP). He has held the SRP since 1992. The Permit allows him to guide hunting and fishing clients. He requests to convert the following tent structures into cabins at his existing camp:

- (1) 24' x 24' Lodge/Cabin
- (2) 14' x 16' Cabin
- (3) 10' x 12' Cabin
- (4) 10' x 12' Cabin

The proposed lease is located approximately 10 miles northwest of Iliamna Lake and is described as:

**Seward Meridian, Alaska**

T. 7 S., R. 40 W., Sec. 17

Containing approximately 2 acres, more or less.

The State of Alaska has selected the land for conveyance and the applicant must obtain their concurrence.

The land has been examined and found suitable for lease under the provisions of Section 302 of the Federal Land Policy Act and 43 CFR Part 2920.

The lessee shall reimburse the United States for reasonable administrative fees and monitoring of construction, operation, maintenance, and rehabilitation of the land authorized. The reimbursement of costs shall be in accordance with the provisions of 43 CFR 2920.6.

The lease will be offered for a term of 10 years and will require the lessee to

pay rent at no less than fair market value.

Detailed information concerning this action is available for review at the office of the Bureau of Land Management, Anchorage Field Office, 6881 Abbott Loop Road, Anchorage, Alaska, 99507-2599.

**DATES:** Interested parties may submit comments on or before January 25, 2001 to the Field Manager, Anchorage Field Office, 6881 Abbott Loop Road, Anchorage, Alaska 99507-2599. In the absence of a timely objection, this proposed Realty Action will become final.
