

makes transmissions as exclusively interactive or noninteractive. The statutory definition of an "interactive service" and the DMCA Conference Report make it clear that a transmitting entity may offer both types of service, either concurrently or at different times, and that "the noninteractive components are not to be treated as part of an interactive service, and thus are eligible for statutory licensing." See, DMCA Conference Report at 88 (1998). The proposed amendment makes no mention of this nuance of the law.

Moreover, the Copyright Office is not persuaded that any new rules are necessary to discern which parties should participate in the current copyright arbitration royalty panel proceeding, the purpose of which is only to set rates and terms for the public performance of sound recordings made in accordance with the section 114 statutory license. 17 U.S.C. 114(f)(2)(A). The panel's responsibility is to establish the value of the performances and set appropriate rates, not to discern whether a particular service meets the eligibility requirements for using the license.

In short, the Office does not believe that DiMA has presented a persuasive case that a rulemaking on this issue is necessary, desirable, or feasible.

For these reasons, the Office denies DiMA's petition.

BILLING CODE 1410-31-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 55

[FRL-6914-9]

Outer Continental Shelf Air Regulations; Consistency Update for California

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule—consistency update.

SUMMARY: EPA is proposing to update a portion of the Outer Continental Shelf (OCS) Air Regulations. Requirements applying to OCS sources located within 25 miles of states' seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area (COA), as mandated by section 328(a)(1) of the Clean Air Act, as amended in 1990 (the

Act). The portion of the OCS air regulations that is being updated pertains to the requirements for OCS sources for which the South Coast Air Quality Management District (South Coast AQMD) and Ventura County Air Pollution Control District (Ventura County APCD) are the designated COAs. The intended effect of approving the OCS requirements for the above Districts, contained in the Technical Support Document, is to regulate emissions from OCS sources in accordance with the requirements onshore. The changes to the existing requirements discussed below are proposed to be incorporated by reference into the Code of Federal Regulations and are listed in the appendix to the OCS air regulations.

DATES: Comments on the proposed update must be received on or before January 10, 2001.

ADDRESSES: Comments must be mailed (in duplicate if possible) to: EPA Air Docket (Air-4), Attn: Docket No. A-93-16 Section XXII, Environmental Protection Agency, Air Division, Region 9, 75 Hawthorne St., San Francisco, CA 94105.

Docket: Supporting information used in developing the rule and copies of the documents EPA is proposing to incorporate by reference are contained in Docket No. A-93-16 Section XXII. This docket is available for public inspection and copying Monday-Friday during regular business hours at the following locations:

EPA Air Docket (Air-4), Attn: Docket No. A-93-16 Section XXII, Environmental Protection Agency, Air Division, Region 9, 75 Hawthorne St., San Francisco, CA 94105.

SUPPLEMENTARY INFORMATION:

I. Background Information

Why is EPA taking this action?

II. EPA's Evaluation

A. What criteria was used to evaluate rules submitted for update of 40 CFR part 55?

B. What rule requirements were submitted for update of 40 CFR part 55?

I. Background Information

Why is EPA Taking This Action?

On September 4, 1992, EPA promulgated 40 CFR part 55¹, which established requirements to control air pollution from OCS sources in order to attain and maintain federal and state ambient air quality standards and to comply with the provisions of part C of title I of the Act. Part 55 applies to all OCS sources offshore of the States except those located in the Gulf of Mexico west of 87.5 degrees longitude. Section 328 of the Act requires that for such sources located within 25 miles of a state's seaward boundary, the requirements shall be the same as would be applicable if the sources were located in the COA. Because the OCS requirements are based on onshore requirements, and onshore requirements may change, section 328(a)(1) requires that EPA update the OCS requirements as necessary to maintain consistency with onshore requirements.

Pursuant to § 55.12 of the OCS rule, consistency reviews will occur (1) at least annually; (2) upon receipt of a Notice of Intent under § 55.4; or (3) when a state or local agency submits a rule to EPA to be considered for incorporation by reference in part 55. This proposed action is being taken in response to the submittal of rules by two local air pollution control agencies. Public comments received in writing within 30 days of publication of this document will be considered by EPA before publishing a final rule.

Section 328(a) of the Act requires that EPA establish requirements to control air pollution from OCS sources located within 25 miles of states' seaward boundaries that are the same as onshore requirements. To comply with this statutory mandate, EPA must incorporate applicable onshore rules into part 55 as they exist onshore. This limits EPA's flexibility in deciding which requirements will be incorporated into part 55 and prevents EPA from making substantive changes to the requirements it incorporates. As a result, EPA may be incorporating rules into part 55 that do not conform to all of EPA's state implementation plan (SIP) guidance or certain requirements of the Act. Consistency updates may result in the inclusion of state or local rules or regulations into part 55, even though the same rules may ultimately be disapproved for inclusion as part of the

¹ The reader may refer to the Notice of Proposed Rulemaking, December 5, 1991 (56 FR 63774), and the preamble to the final rule promulgated September 4, 1992 (57 FR 40792) for further background and information on the OCS regulations.

SIP. Inclusion in the OCS rule does not imply that a rule meets the requirements of the Act for SIP approval, nor does it imply that the rule will be approved by EPA for inclusion in the SIP.

II. EPA's Evaluation

A. What Criteria Was Used To Evaluate Rules Submitted for Update of 40 CFR Part 55?

In updating 40 CFR part 55, EPA reviewed the rules submitted for inclusion in part 55 to ensure that they

are rationally related to the attainment or maintenance of federal or state ambient air quality standards or part C of title I of the Act, that they are not designed expressly to prevent exploration and development of the OCS and that they are applicable to OCS sources. 40 CFR 55.1. EPA has also evaluated the rules to ensure they are not arbitrary or capricious. 40 CFR 55.12 (e). In addition, EPA has excluded administrative or procedural rules,² and requirements that regulate toxics which are not related to the attainment and

maintenance of federal and state ambient air quality standards.

B. What Rule Requirements Were Submitted for Update of 40 CFR Part 55?

1. After review of the rules submitted by South Coast AQMD against the criteria set forth above and in 40 CFR part 55, EPA is proposing to make the following rule revisions applicable to OCS sources for which the South Coast AQMD is designated as the COA:

Rule No.	Rule names	Adoption date
102	Definition of Terms	04/09/99
210	Applications and Regulation II—List and Criteria Identifying Information required of Applicants Seeking a Permit to Construct from the SCAQMD.	04/10/98
218	Continuous Emission Monitoring	05/14/99
219	Equipment Not Requiring a Permit Pursuant to Regulation II	05/19/00
301	Permit Fees (except (e)(6) and Table IV)	05/19/00
304	Equipment, Materials, and Ambient Air Analyses	05/19/00
304.1	Analyses Fees	05/19/00
306	Plan Fees	05/19/00
309	Fees for Regulation XVI	05/19/00
401	Visible Emissions	09/11/98
403	Fugitive Dust	12/11/98
403.1	Wind Entertainment of Fugitive Dust	06/16/00
431.1	Sulfur Content of Gaseous Fuels	06/12/98
465	Vacuum Producing Devices or Systems	08/13/99
Reg. IX	New Source Performance Standards	05/19/00
1107	Coating of Metal Parts and Products	08/14/98
1113	Architectural Coatings	05/14/99
1121	Control of Nitrogen Oxides from Residential-Type, Natural Gas-Fired Water Heaters	12/10/99
1146	Emissions of Oxides of Nitrogen from Industrial, Institutional, and Commercial Boilers, Steam Generators, and Process Heaters.	06/16/00
1171	Solvent Cleaning Operations	10/08/99
1610	Old-Vehicle Scrapping	02/12/99
1612	Credits for Clean On-Road Vehicles	07/10/98
1620	Credits for Clean Off-Road Mobile Equipment	07/10/98
1701	General	08/13/99
1702	Definitions	08/13/99
1704	Exemptions	08/13/99
1706	Emission Calculations	08/13/99
2005	New Source Review for RECLAIM except (i)	04/09/99
2011	Requirements for Monitoring, Reporting, and Recordkeeping for Oxides of Sulfur (SO _x) Emissions	04/09/99
2012	Requirements for Monitoring, Reporting, and Recordkeeping for Oxides of Nitrogen (NO _x) Emissions	04/09/99

The following new rules were submitted and are proposed for incorporation:

112	Definition of Minor Violation and Guidelines for Issuance of Notice to Comply	11/13/98
218.1	Continuous Emission Monitoring Performance Specifications	05/14/99
218.1	Attachment A—Supplemental and Alternative CEMS Performance Requirements	05/14/99
2506	Area Source Credits for NO _x and SO _x	12/10/99

The following rules were submitted, but will not be incorporated because they are administrative:

216	Appeals	05/19/00
222	Filing Requirements for Specific Emission Sources Not Requiring a Permit Pursuant to Regulation II	05/19/00
303	Hearing Board Fees	05/19/00
311	Air Quality Investment Program (AQIP) Fees	05/19/00

2. After review of the rules submitted by Ventura County APCD against the criteria set forth above and in 40 CFR

part 55, EPA is proposing to make the following rule revisions applicable to

OCS sources for which the Ventura County APCD is designated as the COA:

² Each COA which has been delegated the authority to implement and enforce part 55, will use its administrative and procedural rules as

onshore. However, in those instances where EPA has not delegated authority to implement and enforce part 55, EPA will use its own administrative

and procedural requirements to implement the substantive requirements. 40 CFR 55.14 (c)(4).

Rule No.	Rule name	Adoption date
42	Permit Fees	06/13/00
74.15.1	Boilers, Steam Generators, and Process Heaters	06/13/00

III. Administrative Requirements

A. Executive Order 12866

The Office of Management and Budget (OMB) has exempted this regulatory action from Executive Order 12866, Regulatory Planning and Review.

B. Executive Order 13045

Executive Order 13045, entitled Protection of Children from Environmental Health Risks and Safety Risks (62 FR 19885, April 23, 1997), applies to any rule that: (1) is determined to be "economically significant" as defined under Executive Order 12866, and (2) concerns an environmental health or safety risk that EPA has reason to believe may have a disproportionate effect on children. If the regulatory action meets both criteria, the Agency must evaluate the environmental health or safety effects of the planned rule on children, and explain why the planned regulation is preferable to other potentially effective and reasonably feasible alternatives considered by the Agency.

This rule is not subject to Executive Order 13045 because it does not involve decisions intended to mitigate environmental health or safety risks.

C. Executive Order 13084

Under Executive Order 13084, Consultation and Coordination with Indian Tribal Governments, EPA may not issue a regulation that is not required by statute, that significantly or uniquely affects the communities of Indian tribal governments, and that imposes substantial direct compliance costs on those communities, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by the tribal governments, or EPA consults with those governments. If EPA complies by consulting, Executive Order 13084 requires EPA to provide to the OMB in a separately identified section of the preamble to the rule, a description of the extent of EPA's prior consultation with representatives of affected tribal governments, a summary of the nature of their concerns, and a statement supporting the need to issue the regulation. In addition, Executive Order 13084 requires EPA to develop an effective process permitting elected officials and other representatives of Indian tribal governments "to provide

meaningful and timely input in the development of regulatory policies on matters that significantly or uniquely affect their communities."

Today's proposed rule does not significantly or uniquely affect the communities of Indian tribal governments. Accordingly, the requirements of section 3(b) of Executive Order 13084 do not apply to this proposed rule.

D. Executive Order 13132

Executive Order 13132, entitled Federalism (64 FR 43255, August 10, 1999) revokes and replaces Executive Orders 12612, Federalism and 12875, Enhancing the Intergovernmental Partnership. Executive Order 13132 requires EPA to develop an accountable process to ensure "meaningful and timely input by State and local officials in the development of regulatory policies that have federalism implications." "Policies that have federalism implications" is defined in the Executive Order to include regulations that have "substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government." Under Executive Order 13132, EPA may not issue a regulation that has federalism implications, that imposes substantial direct compliance costs, and that is not required by statute, unless the Federal government provides the funds necessary to pay the direct compliance costs incurred by State and local governments, or EPA consults with State and local officials early in the process of developing the proposed regulation. EPA also may not issue a regulation that has federalism implications and that preempts State law unless the Agency consults with State and local officials early in the process of developing the proposed regulation.

This proposed rule will not have substantial direct effects on the States, on the relationship between the national government and the States, or on the distribution of power and responsibilities among the various levels of government, as specified in Executive Order 13132, because it merely acts on a state rule implementing a federal standard, and does not alter the relationship or the distribution of

power and responsibilities established in the Clean Air Act. Thus, the requirements of section 6 of the Executive Order do not apply to this proposed rule.

E. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA) generally requires an agency to conduct a regulatory flexibility analysis of any rule subject to notice and comment rulemaking requirements unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. Small entities include small businesses, small not-for-profit enterprises, and small governmental jurisdictions.

This proposed rule will not have a significant impact on a substantial number of small entities because SIP approvals under section 110 and subchapter I, part D of the Clean Air Act do not create any new requirements but simply act on requirements that the State is already imposing. Therefore, because the Federal SIP approval does not create any new requirements, I certify that this action will not have a significant economic impact on a substantial number of small entities.

F. Unfunded Mandates

Under section 202 of the Unfunded Mandates Reform Act of 1995 ("Unfunded Mandates Act"), signed into law on March 22, 1995, EPA must prepare a budgetary impact statement to accompany any proposed or final rule that includes a Federal mandate that may result in estimated costs to State, local, or tribal governments in the aggregate; or to private sector, of \$100 million or more. Under section 205, EPA must select the most cost-effective and least burdensome alternative that achieves the objectives of the rule and is consistent with statutory requirements. Section 203 requires EPA to establish a plan for informing and advising any small governments that may be significantly or uniquely impacted by the rule.

EPA has determined that the proposed action does not include a Federal mandate that may result in estimated costs of \$100 million or more to either State, local, or tribal governments in the aggregate, or to the private sector. This proposed Federal action acts on pre-existing requirements under State or local law, and imposes

no new requirements. Accordingly, no additional costs to State, local, or tribal governments, or to the private sector, result from this action.

G. National Technology Transfer and Advancement Act

Section 12 of the National Technology Transfer and Advancement Act (NTTAA) of 1995 requires Federal agencies to evaluate existing technical standards when developing a new regulation. To comply with NTTAA, EPA must consider and use "voluntary consensus standards" (VCS) if available and applicable when developing programs and policies unless doing so would be inconsistent with applicable law or otherwise impractical.

EPA believes that VCS are inapplicable to today's proposed action because it does not require the public to perform activities conducive to the use of VCS.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 00-2714; MM Docket No. 00-120; RM-9902]

Radio Broadcasting Services; Meeker and Craig, CO

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; denial.

SUMMARY: This document denies a petition filed on behalf of Western Slope Communications, L.L.C., permittee of Station KAYW, Channel 251C, Meeker, Colorado, requesting the reallocation of Channel 251C from Meeker to Craig, Colorado, and modification of the authorization for Station KAYW accordingly. *See* 65 FR 45017, July 20, 2000. The reallocation proposal is denied as it would remove the sole local potential service at Meeker, and would not result in a preferential arrangement of allotments pursuant to the Commission's allotment priorities. *See Modification of FM and TV Authorizations to Specify a New Community of License*, 4 FCC Rcd 4870 (1989), *recon. granted in part*, 5 FCC Rcd 7094 (1990); and *Revision of FM Assignment Policies and Procedures*, 90 FCC 2d 88 (1982).

ADDRESSES: Federal Communications Commission, Washington, DC 20554.
