

has petitioned NHTSA to decide whether non-U.S. certified 2000 Yamaha R1 motorcycles are eligible for importation into the United States. The vehicles which NCDL believes are substantially similar are 2000 Yamaha R1 motorcycles that were manufactured for importation into, and sale in, the United States and certified by their manufacturer as conforming to all applicable Federal motor vehicle safety standards.

The petitioner claims that it carefully compared non-U.S. certified 2000 Yamaha R1 motorcycles to their U.S. certified counterparts, and found the vehicles to be substantially similar with respect to compliance with most Federal motor vehicle safety standards.

NCDL submitted information with its petition intended to demonstrate that non-U.S. certified 2000 Yamaha R1 motorcycles, as originally manufactured, conform to many Federal motor vehicle safety standards in the same manner as their U.S. certified counterparts, or are capable of being readily altered to conform to those standards.

Specifically, the petitioner claims that non-U.S. certified 2000 Yamaha R1 motorcycles are identical to their U.S. certified counterparts with respect to compliance with Standard Nos. 106 *Brake Hoses*, 111 *Rearview Mirrors*, 116 *Brake Fluid*, 119 *New Pneumatic Tires for Vehicles other than Passenger Cars*, and 122 *Motorcycle Brake Systems*.

The petitioner also states that vehicle identification number plates that meet the requirements of 49 CFR Part 565 are already affixed to non-U.S. certified 2000 Yamaha R1 motorcycles.

Petitioner additionally contends that the vehicles are capable of being readily altered to meet the following standard, in the manner indicated:

Standard No. 108 *Lamps, Reflective Devices and Associated Equipment*: (a) Installation of a red reflector on each side of vehicle at its rear end; (b) installation of an amber reflector on each side of the vehicle at its front end. The petitioner states that the vehicle is equipped with a headlamp system, a tail lamp system, a stop lamp system, a white license plate lamp, a red rear reflector, and turn signals that are in conformity with the standard.

Standard No. 120 *Tire Selection and Rims for Vehicles other than Passenger Cars*: Installation of a tire information label.

Standard No. 123 *Motorcycle Controls and Displays*: Modification of the speedometer to conform to the standard. The petitioner states that all other controls and displays on the vehicle,

including the supplemental engine stop control, conform to the standard.
