Applicant also requests approval of the "open access" rates and tariff submitted herewith. Applicant also seeks authorization of its negotiated rate proposal, all as more fully set forth in the application which is on file with the Commission and open to public inspection. Applicant states that it will be a natural gas company subject to the Commission's NGA jurisdiction once its previously certificated facilities have been constructed and it has been authorized to commence service. It is indicated that the Commission's order issued July 26, 2000 in Docket No. CP00-47-000. *Trans-Union Interstate Pipeline, L.P.* 92 FERC ¶ 61,066, authorized Applicant to construct and operate facilities subject to the Commission's jurisdiction.
