

taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the abandonment provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this abandonment should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

Comments and protests may be filed electronically via the internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's web site at <http://www.ferc.fed.us/efi/doorbell.htm>.

If the Commission decides to set the application for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a

final Commission order approving or denying abandonment will be issued.

## ENVIRONMENTAL PROTECTION AGENCY

[FRL-6917-4]

### Agency Information Collection Activities: Proposed Collection; Comment Request; Control Technology Determinations for Constructed and Reconstructed Major Sources of Hazardous Air Pollutants

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that EPA is planning to submit the following proposed and continuing Information Collection Request (ICR) to the Office of Management and Budget (OMB): Control technology determinations for constructed and reconstructed major sources of hazardous air pollutants, EPA ICR #1658.02, OMB #2060-0284, expiration date February 28, 2001. Before submitting the ICR to OMB for review and approval, EPA is soliciting comments on specific aspects of the proposed information collection as described below.

**DATES:** Comments must be submitted on or before February 13, 2001.

**ADDRESSES:** Send all comments on this ICR to Ms. Pamela J. Smith, Information Transfer and Program Integration Division (MD-12), Office of Air Quality Planning and Standards, U.S. Environmental Protection Agency, Research Triangle Park, North Carolina 27711. Interested persons may obtain a copy of the ICR without charge by contacting Ms. Smith at (919) 541-0641 or E-mail "smith.pam@epa.gov" and refer to EPA ICR Number 1658.02.

**FOR FURTHER INFORMATION CONTACT:** Kathy Kaufman at (919) 541-0102 and E-mail "kaufman.kathy@epa.gov."

### SUPPLEMENTARY INFORMATION:

*Affected Entities:* Entities potentially affected by this action are those who must submit an application for a permit to construct or reconstruct a major source of hazardous air pollution, permitting agencies who review the permit applications, and EPA staff who

review some permitting authority decisions.

*Title:* Information Collection Request for 40 CFR Part 63 Regulations Governing Constructed and Reconstructed Major Sources, EPA ICR Number 1658.02, OMB Control Number 2060-0284, Expiration date February 28, 2001.

*Abstract:* Section 112(g)(2)(B) of the Clean Air Act as amended in 1990 requires that maximum achievable control technology (MACT) standards be met by constructed or reconstructed major sources of hazardous air pollutants. Where no applicable emission limit has been set, the MACT determination shall be made on a case-by-case basis.

In order to receive a construction permit for a constructed or reconstructed major source, the applicant must conduct the necessary research, perform the appropriate analyses and prepare the permit application with documentation to demonstrate that their project meets all applicable statutory and regulatory requirements. Specific activities and requirements are listed and described in the Supporting Statement for the ICR.

Permitting agencies, either State, local or Federal, review the permit application to affirm the proposed constructed or reconstructed major source will comply with the Clean Air Act (Act) and applicable regulations. The permitting Agency then provides for public review of the proposed project and issues the permit based on its consideration of all technical factors and public input. The EPA, more broadly, reviews a fraction of the total applications and audits the State and local programs for their effectiveness. Consequently, information prepared and submitted by the source is essential for the source to receive a permit, and for Federal, State and local environmental agencies to adequately review the permit application and thereby properly administer and manage the section 112(g) programs.

To facilitate adequate public participation, information is submitted by sources as a part of their permit application and should generally be a matter of public record. See sections 165(a)(2) and 110(a)(2)(C), (D), and (F) of the Act. Notwithstanding, to the extent that the information required for the completeness of a permit is proprietary, confidential, or of a nature that it could impair the ability of the source to compete in the marketplace, that information is collected and handled according to EPA's policies set forth in title 40, chapter 1, part 2, subpart B—Confidentiality of Business Information
