

are designed to record all information required under 43 CFR 4300.20 and 43 CFR 4300.57. BLM uses the information provided by the applicant(s) and permittee(s) to determine whether applicant qualifies to receive a reindeer grazing permit and whether permittee meets the specified terms and conditions of the granted permit.

Based on BLM's experience administering the activities described above, the public reporting burden for the information collected estimates to average 1 hour per application and 15 minutes for the permit. The respondents are Alaska Natives. The frequency of response is once every 5 years for the renewal applications and once per year for the reindeer grazing permits. The estimated number of responses per year totals 18. The estimated total annual burden is 23 hours (5 hours annual burden on permittees and 18 hours to apply for the renewal of existing reindeer grazing permits). BLM specifically requests your comments on its estimate of the amount of time that it takes to prepare a response.

BLM will summarize all responses to this notice and include them in the request for Office of Management and Budget approval. All comments will also become a matter of public record.

Nature of Comments

We specifically request your comments on the following:

1. Whether the collection of information is necessary for the proper functioning of the Bureau of Land Management, including whether the information will have practical utility;
2. The accuracy of BLM's estimate of the burden of collecting the information, including the validity of the methodology and assumptions used;
3. The quality, utility and clarity of the information to be collected; and
4. How to minimize the burden of collecting the information on those who are to respond, including the use of appropriate automated electronic, mechanical, or other forms of information technology.

Title: Bureau of Land Management's Program Evaluation for the National Riparian Service Team and Extended Riparian Network, OMB approval number: 1004-NEW.

Abstract: The Bureau of Land Management is proposing a new information collection for the purpose of conducting a program evaluation for the National Riparian Service Team (NRST) and the extended riparian network. The BLM will conduct surveys and interviews of individuals who work within or receive services from the interagency NRST or the extended riparian network. The information will allow the BLM to measure satisfaction and program effectiveness, and comply with the requirements and spirit of the Government Performance and Results Act of 1993 and Executive Order No. 12862. Questions will address the following areas: (1) Satisfaction with the team as a facilitator of cooperative riparian restoration/management; (2) program effectiveness (*e.g.*, on-the-ground implementation and/or achievement of interim steps toward implementation of riparian management strategies; impact of thought process,

PFC as a tool for creating a common vocabulary, for facilitating effective cooperation); and (3) general demographic information.

Bureau Form Number: None.

Frequency: Once every other year (biennial).

Description of Respondents: The respondents will be individuals who work with or receive services from the National Riparian Service Team or the extended riparian network, including: Federal, State, Local and Tribal Government employees; individuals affiliated with non-profit organizations; and members of the general public. Estimated completion time: (survey) 25 minutes/.42 hours per respondent (500 respondents), and (interview) 45 minutes/.75 hours per respondent (40 respondents).

Annual Responses: 540 (biennial).

Filing Fee Per Response: None.

Annual Burden Hours: 250 (biennial).
