AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meeting.

SUMMARY: The Gulf of Mexico Fishery Management Council will convene a public meeting of the Reef Fish Advisory Panel (AP) on January 5, 2001.

DATES: The Reef Fish AP will meet beginning at 9:00 a.m. on January 5, 2001.

ADDRESSES: The meeting will be held at the Chateau LeMoyné, 301 Dauphine Street, New Orleans, LA 70130; telephone: 504-581-1303.

Council address: Gulf of Mexico Fishery Management Council, 3018 U.S. Highway 301 North, Suite 1000, Tampa, FL 33619.

FOR FURTHER INFORMATION CONTACT: Mr. Steven Atran, Population Dynamics Statistician, Gulf of Mexico Fishery Management Council; telephone: 813-228-2815.

SUPPLEMENTARY INFORMATION: The Reef Fish AP will meet to review a report of the Reef Fish Stock Assessment Panel and to recommend total allowable catches (TACs) for red grouper and greater amberjack. The AP will also make recommendations on a proposed red snapper recovery plan that calls for converting from a constant catch to a constant fishing mortality rate strategy beginning in 2004, and thereafter a review and adjustment of TAC at five-year intervals. In addition, the AP will review an early draft of options being considered for including in a new Reef Fish plan amendment. These options deal with a longline limited entry system, moving the longline boundary line, phasing out the use of longlines, the use of cut-up reef fish for bait, an electronic vessel monitoring system for longline and fish trap vessels, the use of powerheads when spearfishing, requiring operator permits for commercial and charter/headboat operators, a commercial grouper fishery endorsement, grouper closed seasons, prohibiting the import of undersized red snapper, eliminating dormant reef fish permits, and changes to the species listed in the reef fish management unit and deep-water grouper aggregation. Additional options may be added or

deleted as this options paper is developed into Reef Fish Amendment 18.

Although other non-emergency issues not on the agenda may come before the AP for discussion, in accordance with the Magnuson-Stevens Fishery Conservation and Management Act, those issues may not be the subject of formal action during these meetings. Actions of the AP will be restricted to those issues specifically identified in the agendas and any issues arising after publication of this notice that require emergency action under Section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take action to address the emergency.

Copies of the agenda can be obtained by calling 813-228-2815.

FOR FURTHER INFORMATION CONTACT: Dan Waldeck or Don McIsaac, Pacific Fishery Management Council; telephone: (503) 326-6352.

SUPPLEMENTARY INFORMATION: The primary purpose of this work session is to review topic areas and issues contained in the Groundfish Strategic Plan; prioritize the various topic areas and issues; develop a draft implementation schedule; discuss the make-up of management-alternative development teams; and develop recommendations to the Council about the implementation process and schedule, and membership of the development teams.

This meeting is the first step in implementing the Groundfish Strategic Plan. In September 2000, the Council adopted the following guidelines for implementing the plan:

1. At the September 2000 Council meeting, the Council adopts the Final Groundfish Strategic Plan document (per revisions incorporated after the summer public comment phase).
2. The Council directs the formation of a "Groundfish Strategic Plan Implementation Oversight Committee" which should be composed of Council members, some of which will have been members of the Strategic Plan Development Committee, to ensure continuity and an effective transition to implementation.
3. At its discretion, the Implementation Oversight Committee may establish small implementation development teams to develop specific alternative(s) for implementing elements of the Strategic Plan. Implementation development teams will be comprised of Council subpanel, management team, and committee members from the Groundfish Management Team, Groundfish Advisory Subpanel, Scientific and Statistical Committee, Enforcement Committee, and members of the public as deemed necessary by the Implementation Oversight Committee.
4. The Implementation Oversight Committee works at the direction of the Council and is tasked with making recommendations regarding implementation of the strategic plan.
5. The Implementation Oversight Committee goals should include: (a) effective transition to the implementation phase, (b) ensuring the plan is implemented in a timely fashion, and (c) whenever possible, doing so in a fashion that provides for constituent acceptance and buy-in.
