**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** EPA proposes to approve revisions to the Arizona State Implementation Plan (SIP) which concern rules from the Pinal County Air Quality Control District (PACAQCD) and Pinal-Gila Counties Air Quality Control District (PGCAQCD).

The intended effect of this action is to provide support for general permitting requirements for stationary sources in the PACAQCD in accordance with the requirements of the Clean Air Act, as amended in 1990 (CAA or the Act). In the Final Rules section of this **Federal Register**, EPA is approving the state's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision and anticipates no adverse comments. A detailed rationale for this approval is set forth in the direct final rule. If no adverse comments are received, no further action is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period. Any parties interested in commenting should do so at this time.

**DATES:** Written comments must be received by January 19, 2001.

#### Approval and Promulgation of Air Quality Implementation Plans; Texas; Control of Emissions of Volatile Organic Compounds from Batch Processes, Industrial Wastewater and Service Stations

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA is proposing to take direct final action on revisions to the Texas State Implementation Plan provisions for the control of volatile organic compounds (VOCs). This rule covers three separate actions. First, we are approving revisions to the rules for controlling emissions from industrial wastewater for the Houston/Galveston, Beaumont/Port Arthur, Dallas/Fort Worth and El Paso areas. Second, we are approving new rules for the control of emissions from batch processes in the Beaumont/Port Arthur area. Third, we are approving rules that added requirements for vapor recovery at service stations in the 95 counties in the eastern half of Texas.

The EPA is approving these revisions to regulate emissions of Volatile Organic Compounds in accordance with the requirements of the Federal Clean Air Act.

In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the EPA views this as a noncontroversial revision and anticipates no adverse comment. The EPA has explained its reasons for this approval in the preamble to the direct final rule. If EPA receives no relevant adverse comments, the EPA will not take further action on this proposed rule. If EPA receives relevant adverse comment, EPA will withdraw the direct final rule and it will not take effect. The EPA will address all public comments in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time.

**DATES:** Written comments must be received by January 19, 2001.

**ADDRESSES:** Written comments should be addressed to Mr. Thomas H. Diggs, Chief, Air Planning Section (6PD-L), at the EPA Region 6 Office listed below. Copies of documents relevant to this action are available for public inspection during normal business hours at the following locations. Anyone wanting to examine these documents should make an appointment with the appropriate office at least two working days in advance.

**SUPPLEMENTARY INFORMATION:** This document concerns revisions to the Texas State Implementation Plan provisions for the control of VOCs. The revisions strengthen the requirements for the control of emissions from industrial wastewater, add requirements for the control of emissions from batch processes and add requirements for the control of emissions during the filling of storage tanks at gasoline service stations in 95 counties in the eastern half of Texas. #### Approval of Air Quality Implementation Plan Revisions and Section 112(I) Program; Colorado; Issuance of Permits To Limit Potential to Emit Criteria and Hazardous Air Pollutants

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Proposed rule.

**SUMMARY:** The EPA is proposing to approve revisions to Colorado's construction permit requirements in Regulation No. 3 and hazardous air pollutant requirements in Regulation No. 8 of the State Air Quality Control Commission (AQCC) regulations, regarding permits to limit potential to emit criteria and hazardous air pollutants (HAPs). These revisions were submitted to EPA on April 26, 1996. Colorado submitted these revisions to create federally enforceable limits on criteria pollutants and HAPs, for both new and existing sources, through the State's construction permit program. EPA is approving the revisions to Regulation No. 3 regarding criteria pollutants as part of Colorado's state implementation plan (SIP) under section 110 of the Clean Air Act (CAA).

SIP approval under section 110 of the CAA, however, only extends to the control of HAPs that are criteria pollutants, such as volatile organic compounds or particulate matter, whereas section 112 of the CAA provides the underlying authority for controlling all HAPs listed in section 112(b) of the CAA. Therefore, the EPA is also approving the revisions to Regulation No. 3 and Regulation No. 8 under section 112(l) of the CAA.

In the Final Rules Section of this **Federal Register**, EPA is approving the States' revisions to Regulations No. 3 and 8 as a direct final rule without prior proposal because the Agency views these as noncontroversial revisions and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this proposed rule, no further activity is contemplated in relation to this rule. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

**DATES:** Comments must be received in writing on or before January 19, 2001.

**ADDRESSES:** Written comments may be mailed to Richard R. Long, Director, Air and Radiation Program, Mailcode 8P-AR, Environmental Protection Agency (EPA), Region VIII, 999 18th Street, Suite 300, Denver, Colorado, 80202. Copies of the documents relevant to this action are available for public inspection during normal business hours at the Air and Radiation Program, Environmental Protection Agency, Region VIII, 999 18th Street, Suite 300, Denver, Colorado, 80202.
