Title of Proposal: Annual Lead-Based
Paint Activity Report.

OMB Control Number: 2577-0090.

*Description of the need for the
information and proposed use:* HUD
needs the information to assure
statutory and regulatory compliance
with The Lead-Based Paint Poisoning

Prevention Act (LBPPA), as amended
(42 U.S.C. 4821-4846) which requires
public and Indian housing agencies
(HAs) to randomly sample their pre-
1978 developments for the presence of
LBP. Congress directed HUD to establish
an adequate management information
system for measuring and reporting on
HAs' performance on LBP activities.
HUD revised the tracking system for
collecting lead-based paint data. The
system collects less, but different data.
HAs use the Form HUD-52850 to submit
information on LBP. HUD reports the
information to Congress as required by
statute.

Agency form number: HUD-52850.

Members of affected public: State,
Local or Tribal government.

*Estimation of the total number of
hours needed to prepare the information
collection including number of
respondents:* 3,100 respondents; one
response per respondent annually; one
hour average per response, 3,100 total
reporting burden hours per year.

*Status of the proposed information
collection:* Reinstatement, without
change.

Authority: Section 3506 of the Paperwork
Reduction Act of 1995, 44 U.S.C. Chapter 35,

OMB Approval No. 2577-0090 (Exp. 11/30/2000)

Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. This agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless that collection displays a valid OMB control number. The Lead-Based Paint Poisoning Prevention Act, (42 U.S.C. 4821-4846) requires Housing Agencies to randomly sample their pre-1978 developments for the presence of Lead-Based Paint. Congress directed HUD to establish an adequate management information system for measuring and reporting HAS use of funds designated for lead paint testing and abatement. The information will be used by HUD to ensure statutory and regulatory compliance with the Act, to respond to Congressional inquiries and to monitor HAS' LBP activities. Responses to the collection of information are mandatory. The information requested does not lend itself to confidentiality.

Instructions For Completing The Annual LBP Activity Report

The following requested data should be provided on an **annual basis** based on the HA's Fiscal Year. Reports shall be sent to the local HUD Field Office and are due 30 days after the end of the HA's Fiscal Year.

The following information is to be submitted on **each development** engaged in LBP activities during this reporting period.

Header: Enter the Development Code and Suffix (where applicable) for each development engaged in LBP activities during this reporting period.

Total Family Units in Development: Enter the total number of family units within each development engaged in LBP activities during this reporting period.

EBLs:

1. Enter the number of children identified by the health community as having an elevated blood lead (EBL) level. If a parent informs the HA that their child has an EBL, the HA should confirm this with the child's physician, nurse, or health care facility.
2. Enter the number of HA units associated with resident children identified as having an EBL.
3. Enter the average number of days to test a unit.
4. Enter the number of times an EBL resulted in relocation of the family or abatement of the unit.

Testing:

5. Enter the number of pre-1978 family units that were actually tested for LBP hazards during this reporting period.
6. Enter the number of units which were tested during this reporting period which were found to contain LBP hazards. This number represents either:

(a) the total number of units randomly sampled and found to contain LBP hazards represents the total number of units in the development and therefore all units in the development require abatement (i.e., there are 100 units in the development, of which 51 were tested, and 51 of those tested contain a LBP hazard; therefore, all 100 units in the development are considered to contain LBP hazards). Therefore, the number to be recorded on line 12 should be 100 units; or

(b) the total number of units randomly sampled is 51 units out of 100; however, 100 units are eventually sampled (tested); of the 100 tested, only 40 are found to contain LBP hazards. Therefore, the number to be recorded on line 12 should be 40 units.

7. Enter the total amount of funds expended for LBP random sampling during this reporting period.
8. Enter the total amount of MOD (CIAP and/or CGP) funds expended for LBP random sampling this reporting period. This amount may be less than or equal to the amount on line 7.

Abatement:

9. Enter the number of units planned to be abated during this reporting period.
10. Enter the number of units actually abated during this reporting period.
11. Enter the total amount of funds expended for abatement this reporting period.
12. Enter to total amount of MOD funds expended during this reporting period. This amount may be less than or equal to the amount on line 11.

Note: If the Housing Authority has performed any LBP activities and incurred any cost related to acquisition under the development program, provide the above information on a separate activity report form. **Previous edition is obsolete**
