

requirement itself, and will only be used for the stated purposes (reporting and planning). Any potentially sensitive data released within the Army or to its contractor will be clearly marked as Contractor Proprietary. Non-sensitive roll-up information may eventually be published for public inspection after such data has been validated as deemed appropriate.

(g) *Sub-Contractor(s)*. The contractor shall ensure that all reportable sub-contractor data is timely reported to the data collection web site (citing this contract/order number). At the discretion of the prime contractor, this reporting may be done directly by subcontractors to the data collection site; or by the prime contractor after consolidating and rationalizing all significant data from their sub-contractors.

(h) *Report schedule*. The contractor is required to report the required information to the Office of the Assistant Secretary of the Army (Manpower and Reserve Affairs) data collection web site generally contemporaneous with submission of a request for payment (for example, voucher, invoice, or request for progress payment), but not less frequently than quarterly, retroactive to October 1, 1999, or the start of the contract/order, whichever is later. Deviation from this schedule requires approval of the contracting officer.

(i) *Reporting format*. The information required should be reported electronically to the M&RA data collection point, at <https://contractormanpower.us.army.mil>. This web site identifies and explains all the mandatory data elements and format required to assure reliable and consistent collection of the data required by law, and includes, but is not limited to, identification of the information collected pursuant to § 668.2(d)(1) and (2) as related to:

(1) *Reporting to Congress or Army Leadership*. Data elements required for reports to Congress and Army manpower planning, such as: the applicable federal supply class or service code, appropriation data (and estimated value for each appropriation where more than one appropriation funds a contract), major Army organizational element receiving or reviewing the work, and place of performance/theater of operation where contractor performs the work.

(2) *Data Credibility*. Data elements required for purposes of assuring credible and consistent reporting and general compliance with the reporting requirement, such as: beginning and ending dates for reporting period; contract number (including task or delivery order number); name and address of contracting office; name, address and point of contact for contractor; and total estimated value of contract.

(j) *Reporting Flexibility*. Contractors are encouraged to communicate with the help desk identified at the data collection web site to resolve reporting difficulties. The web site reporting pages include a "Remarks" field to accommodate non-standard data entries if needed to facilitate simplified reporting and to minimize reporting burdens arising out of unique circumstances. For example, contractors may use the remarks field to identify multiple delivery orders associated

with a single data submission or record, so long as the contract number, federal supply or service code, major Army organizational element receiving or reviewing the work, and contracting office are the same for the reporting period for that set of delivery orders, rather than entering a separate data submission or record for each individual delivery order. Subcontract data may also be consolidated in a single report for a reporting period. Other changes to facilitate reporting may be authorized by the contracting officer or the Help Desk (under Army policy direction and oversight).

Robert Bartholomew III,

Deputy Assistant Secretary (Force Management, Manpower and Resources).

Edward G. Elgart,

Acting Deputy Assistant Secretary of the Army (Procurement).

BILLING CODE 3710-08-U

DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR 165

[COTP Southeast Alaska 00-017]

RIN 2115-AA97

Safety Zone; Tongass Narrows, Ketchikan, AK; correction

AGENCY: Coast Guard, DOT.

ACTION: Correcting amendments.

SUMMARY: This document contains corrections to the final regulations which were published in the **Federal Register**, June 21, 1994, (59 FR 31933). The regulations related to the movement of vessels in Tongass Narrows, Ketchikan, AK during the annual fireworks display. That document contained a latitude/longitude position and a required safety fallout radius from the barge conducting fireworks display that has changed; thus, a correction is necessary.

DATES: Effective on December 26, 2000.

FOR FURTHER INFORMATION CONTACT: Lieutenant Cecil McNutt, United States Coast Guard Marine Safety Office Juneau, (907) 463-2470.

SUPPLEMENTARY INFORMATION:

Background

In final rule 59 FR 31933, the latitude/longitude position and safety fallout radius around the barge conducting fireworks display are no longer correct because the marine event sponsor has increased the fireworks display shell size (12 inches) and amount of fireworks display (600 lbs Division 1.3G UN 0335), causing an increase in the

required safety fallout radius of 300 yards around the barge conducting fireworks display activities and changing the latitude/longitude position.

Need for Correction

As published, the final regulations contain errors which may prove to be dangerous to the public and need to be amended. Accordingly, 33 CFR Part 165 is corrected by making the following correcting amendments:

PART 165—REGULATED NAVIGATION AREAS AND LIMITED ACCESS AREAS

1. The authority citation for part 165 continues to read as follows:

Authority: 33 U.S.C. 1231; 50 U.S.C. 191, 33 CFR 1.05-1(g), 6.04-1, 6.04-6, 160.5; 49 CFR 1.46.

§ 165.1708 [Amended]

2. In § 165.1708 paragraph (a), delete the word "100" and add the word "300" in its place, respectively.

3. In § 165.1708 paragraph (a) location, delete the words "55°20'20" N, 131°39'36" W" and add the words "55°20'32" N, 131°39'40" W" in its place, respectively.

Dated: December 5, 2000.

Robert Lorigan,

Captain, U.S. Coast Guard, Captain of the Port, Southeast Alaska.
