

ecosystem provide food for the CVFTL. As human population in the Coachella Valley grows, the protection of windblown sand dunes become increasingly important for CVFTL habitat and survival.

The CVMV was listed as endangered by the USFWS in October 1998 under the authority of the ESA of 1973, as amended. The CVMV has not been listed by the State of California under its Endangered Species Act.

The CVMV occurs primarily on areas of loose windblown sand in the Coachella Valley. It is an annual or short-lived perennial plant. The plant is highly ephemeral in nature with growth highly dependent on rainfall patterns. Much of the plant's original habitat has been lost to agricultural, residential, and business development. Remaining habitat is threatened by these impacts as well as by OHVs, exotic plant invasion and wind farms.

The CVFTL is intimately associated with its habitat, virtually any activity which disturbs or destroys habitat will almost certainly destroy individual lizards. A similar relationship exists for the CVMV and the Flat-Tailed Horned Lizard (FTHL). In addition, other rare animals, such as the Palm Springs pocket mouse, Coachella Valley/Palm Springs ground squirrel, Coachella Valley Jerusalem cricket and Coachella giant sand treader cricket, which have adapted to living in actively moving sand would also be protected if this closure were implemented.

It was determined by the BLM that the venue for addressing the management of OHVs in the Windy Point area is the CVMSHCP, which is currently in development.

Any person who fails to comply with this order may be subject to the penalties provided in 43 CFR 8360.0-7.

[Docket No. UT-912-01-1150-AE-24-1A]

Notice of Utah Resource Advisory Council Meeting

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Utah Resource Advisory Council meeting.

SUMMARY: The Bureau of Land Management's Utah Statewide Resource Advisory Council will be having a one-day Orientation to BLM meeting on February 6, 2001.

The meeting is being held at the Bureau of Land Management's Utah State Office, 324 South State Street, Salt Lake City, from 8:00 until 4:00. A public comment period is scheduled from 12:30-1:00, where members of the public may address the council. All meetings are open to the public, however, transportation, lodging, and meals are the responsibility of the participating public.

FOR FURTHER INFORMATION CONTACT:

Contact Sherry Foot, Special Programs Coordinator, Utah State Office, Bureau of Land Management, 324 South State Street, Salt Lake City, Utah, 84111; phone (801) 539-4195.

Dated: December 19, 2000.

Sally Wisely,

State Director.

BILLING CODE 4310–70–P

DEPARTMENT OF THE INTERIOR

National Park Service

**Notice of Inventory Completion for
Native American Human Remains and
Associated Funerary Objects in the
Possession of the Office of the State
Archaeologist, University of Iowa, Iowa
City, IA**

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Office of the State Archaeologist, University of Iowa, Iowa City, IA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by the Office of the State Archaeologist, University of Iowa, professional staff in consultation with the California Native American Heritage Commission and representatives of the Santa Rosa Indian Community of the Santa Rosa Rancheria, California; the Table Mountain Rancheria of California; the Tule River Indian Tribe of the Tule River Reservation, California; the Big Sandy Rancheria of Mono Indians of California; the Cold Springs Rancheria of Mono Indians of California; the Northfork Rancheria of Mono Indians of California; the Ione Band of Miwok Indians of California; the Chicken Ranch Rancheria of Me-Wuk Indians of California; the Jackson Rancheria of Me-Wuk Indians of California; the Shingle Springs Band of Miwok Indians, Shingle Springs Rancheria (Verona Tract), California; and the Tuolumne Band of Me-Wuk Indians of the Tuolumne Rancheria of California.

At an unknown date, human remains representing four individuals were removed from unknown locations in the San Joaquin Valley, CA, by John Morrie, of Fort Madison, IA. In 1994, the Morrie family transferred these human remains to the Office of the State Archaeologist Burials Program. No known individuals were identified. No associated funerary objects are present.

Morphological evidence indicates that these individuals are Native American based on dental wear and cranial features. The limited accession information indicates that these human remains were collected within the San Joaquin Valley, CA, and are identified as late precontact to early historic Yokuts Indians. Yokuts-speaking peoples occupied the entire San Joaquin Valley at the time of European contact, and had been living in the valley for a long time. Archeological, linguistic, ethnographic, and oral historical evidence suggests that the Yokuts and their ancestors inhabited the region since 500 B.C.

Based on the above-mentioned information, officials of Office of the State Archaeologist, University of Iowa, have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of four individuals of Native American ancestry. Also, officials of the Office of the State Archaeologist, University of Iowa, have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Santa Rosa Indian Community of the Santa Rosa Rancheria, California; the Table Mountain Rancheria of California; the Tule River Indian Tribe of the Tule River Reservation, California; the Big Sandy Rancheria of Mono Indians of California; the Cold Springs Rancheria of Mono Indians of California; the Northfork Rancheria of Mono Indians of California; the Ione Band of Miwok Indians of California; the Chicken Ranch Rancheria of Me-Wuk Indians of California; the Jackson Rancheria of Me-Wuk Indians of California; the Shingle Springs Band of Miwok Indians, Shingle Springs Rancheria (Verona Tract), California; and the Tuolumne Band of Me-Wuk Indians of the Tuolumne Rancheria of California.

This notice has been sent to officials of the California Native American Heritage Commission; the Santa Rosa Indian Community of the Santa Rosa Rancheria, California; the Table Mountain Rancheria of California; the Tule River Indian Tribe of the Tule River Reservation, California; the Big Sandy Rancheria of Mono Indians of California; the Cold Springs Rancheria of Mono Indians of California; the Northfork Rancheria of Mono Indians of California; the Ione Band of Miwok Indians of California; the Chicken Ranch Rancheria of Me-Wuk Indians of California; the Jackson Rancheria of Me-Wuk Indians of California; the Shingle Springs Band of Miwok Indians, Shingle Springs Rancheria (Verona Tract),
