**SUPPLEMENTARY INFORMATION:** On

October 27, November 3 and November 13, 2000, the Committee for Purchase From People Who Are Blind or Severely Disabled published notices (65 F.R. 64420, 66230 and 64417) of proposed additions to and deletion from the Procurement List:

**Additions**

After consideration of the material presented to it concerning capability of qualified nonprofit agencies to provide the commodity and services and impact of the additions on the current or most recent contractors, the Committee has determined that the commodity and services listed below are suitable for procurement by the Federal Government under 41 U.S.C. 46-48c and 41 CFR 51-2.4.

I certify that the following action will not have a significant impact on a substantial number of small entities. The major factors considered for this certification were:

2. The action will not have a severe economic impact on current contractors for the commodity and services.

3. The action will result in authorizing small entities to furnish the commodity and services to the Government.

connection with the commodity and services proposed for addition to the Procurement List.

Accordingly, the following commodity and services are hereby added to the Procurement List:

**Draft Environmental Impact Statement (DEIS) for the Habitat Conservation Plans proposed for Public Utility District No. 1 of Douglas County, Washington, and the Public Utility District No. 1 of Chelan County, Washington**

**AGENCY:** National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

**ACTION:** Notice of document availability; request for comments.

**SUMMARY:** This notice advises the public that the Public Utility District (PUD) No. 1 of Douglas County, Washington, and the PUD No. 1 of Chelan County, Washington, (applicants) have submitted individual applications to the National Marine Fisheries Service (NMFS) for incidental take permits pursuant to the Endangered Species Act (ESA). The permit applications are related to the effects on listed anadromous fish of the PUDs' ongoing and future hydroelectric project operations on the mainstem Columbia River. Each PUD has included with its application a proposed (draft) Anadromous Fish Agreement and Habitat Conservation Plan (HCP) designed to minimize and mitigate any such incidental take of endangered or threatened species, as required by the ESA. The proposed HCPs are also intended to serve as proposed agreements to satisfy the PUDs' obligations under the Federal Power Act and related Federal and state laws governing project effects on anadromous fish and their habitat. To consider the effects of these proposed HCPs, the NMFS has prepared a DEIS that is now available for review and comment by interested parties.

**DATES:** Written comments on the DEIS must be received on or before March 29, 2001.

**ADDRESSES:** For copies of the DEIS, or to provide written comments, contact: National Marine Fisheries Service, Northwest Region, Hydro Program, 525 NE Oregon Street, Suite 420, Portland, OR 97232-2737 (503-736-4734). Comments may also be sent via fax to (503) 231-2318. Comment will not be accepted if submitted via email or the internet.

The DEIS and the proposed HCPs are available for review via the world wide web at [www.nwr.noaa.gov/1hydro/hydroweb/ferc.htm](http://www.nwr.noaa.gov/1hydro/hydroweb/ferc.htm) (under the "Related Documents" heading).

**FOR FURTHER INFORMATION CONTACT:** Mr. Bob Dach, Fishery Biologist, Hydro Program, Portland, OR (503-736-4734).

**SUPPLEMENTARY INFORMATION:** Under section 9 of the ESA and its implementing regulations, "taking" of an endangered species is prohibited. However, in limited circumstance NMFS may issue a permit to take endangered species if such taking is incidental to, and not the purpose of, an otherwise lawful activity. Regulations governing permits for endangered species can be found in 50 CFR part 222.

Anticipating that NMFS' decision to issue an incidental take permit, as contemplated by the proposed HCPs, would be a major federal action under the National Environmental Policy Act (NEPA), the PUDs requested that NMFS conduct a coordinated and consolidated environmental review process to facilitate the resolution of remaining issues under the proposed agreements while complying with applicable Federal and state legal requirements.

NMFS considers each of these permit requests to be a major Federal action significantly affecting the quality of the human environment. Therefore, in accordance with the requirements of NEPA, NMFS has prepared a DEIS. This notice, provided pursuant to NEPA
