

treated and all commodities contain residues at predicted day zero levels. For this screening level assessment with an application rate of 3 pounds ATBC or TEC per acre, the following 0-time level residues are predicted from the nomogram: leafy vegetables—375 ppm, legume vegetables—36 ppm, fruiting vegetables, cucurbit vegetables, citrus fruits, pome fruits, stone fruits, berries, cereal grains, grapes, and bananas—21 ppm.. Using the above modeling parameters, chronic exposure was estimated for the overall U.S.

population and 25 population subgroups. Chronic exposure for the overall U.S. population was estimated to be 0.492873 mg/kg bwt/day, representing 4.9% of the RfD. The exposure estimate for the most highly exposed population subgroup, children 1-6 years of age, was 0.984312 mg/kg bwt/day, or 9.8%.

ii. *Drinking water.* Based upon the chemical and physical properties, and the environmental fate characteristics, ATBC and TEC are not expected to persist environmentally, nor result in significant concentrations in drinking water sources.

2. *Non-dietary exposure.* ATBC and TEC are currently used in non-food use pesticide formulations, as well as in food, food packaging, cosmetics, medical devices and pharmaceuticals, and as plasticizers.

D. Cumulative Effects

Cumulative effects are not expected since ATBC and TEC are rapidly degraded to natural substances.

E. Safety Determination

1. *U.S. population.* Based upon the dietary residue exposure analysis using the Kenega nomogram, the most sensitive population, children 1-6 years, was 0.984312 mg/kg bwt/day or 9.8% of the RfD for the crops and crop groups used in this assessment. Results of a 2-generation reproduction study with ATBC did not reveal developmental or reproduction effects at doses up to 100 mg/kg bwt/day. Also, based on the absence of pup toxicity up to the dose level (1,000 mg/kg bwt/day) producing maternal effects, there is no evidence of special post-natal sensitivity to infants and children. It is concluded that there is reasonable certainty that no harm will result to infants and children from aggregate exposure to acetyl tributyl citrate (ATBC) or triethyl citrate (TEC) when used as inert ingredients in agricultural formulations of pesticides.

2. *Infants and children.* No embryotoxic, developmental, or teratogenic effects have been associated

with acetyltributyl citrate (ATBC) or triethyl citrate (TEC).

F. International Tolerances

Morflex Inc. is unaware of any International tolerances or CODEX maximum residue limits (MRL's) for acetyltributyl citrate (ATBC) or triethyl citrate (TEC) on any crop or livestock commodities.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-6930-2]

Notice of Tentative Approval, Request for Comments and Solicitation of Requests for a Public Hearing for Public Water System Supervision Program Revision for the Commonwealth of Virginia

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Tentative Approval and Solicitation of Requests for a Public Hearing.

SUMMARY: Notice is hereby given in accordance with the provision of section 1413 of the Safe Drinking Water Act as amended, and the rules governing National Primary Drinking Water Regulations that the Commonwealth of Virginia has revised its approved Public Water System Supervision Primacy Program. Specifically, Virginia has adopted Consumer Confidence Report regulations requiring annual drinking water quality reports from community water suppliers. EPA has determined that these regulations are no less stringent than the Federal provisions and satisfy the requirements of the Federal regulations. Therefore, EPA has decided to tentatively approve the program revisions. All interested parties are invited to submit written comments on this determination and may request a public hearing.

DATES: Comments or a request for a public hearing must be submitted by February 5, 2001. This determination shall become effective on February 5, 2001 if no timely and appropriate request for a hearing is received and the Regional Administrator does not elect to hold a hearing on his own motion, and if no comments are received which cause EPA to modify its tentative approval.

ADDRESSES: Comments or a request for a public hearing must be submitted to Patti Kay Wisniewski, Drinking Water Branch (3WP22), U.S. Environmental

Protection Agency Region III, 1650 Arch Street, Philadelphia, PA 19103-2029.

All documents relating to this determination are available for inspection between the hours of 8:00 a.m. and 4:30 p.m., Monday through Friday, at the following offices:

- Drinking Water Branch, Water Protection Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103-2029; and
- Virginia Department of Health, Division of Water Supply Engineering, 1500 East Main Street, Richmond, Virginia 23218.

FOR FURTHER INFORMATION CONTACT: Patti Kay Wisniewski at the Philadelphia address given above; telephone (215) 814-5668 or fax (215) 814-2318.

SUPPLEMENTARY INFORMATION: All interested parties are invited to submit written comments on this determination and may request a public hearing. All comments will be considered, and, if necessary, EPA will issue a response. Frivolous or insubstantial requests for a hearing may be denied by the Regional Administrator. However, if a substantial request for a public hearing is made by February 5, 2001, a public hearing will be held. A request for public hearing shall include the following: (1) The name, address, and telephone number of the individual, organization, or other entity requesting a hearing; (2) a brief statement of the requesting person's interest in the Regional Administrator's determination and of information that the requesting person intends to submit at such a hearing; and (3) the signature of the individual making the request; or, if the request is made on behalf of an organization or other entity, the signature of a responsible official of the organization or other entity.

Dated: December 27, 2000.

Bradley M. Campbell,

Regional Administrator, EPA, Region III.

BILLING CODE 6560-50-M

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission

December 20, 2000.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as

required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before February 5, 2001. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Judy Boley, Federal Communications Commission, room 1-C804, 445 12th Street, SW., DC 20554 or via the Internet to jboley@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Judy Boley at 202-418-0214 or via the Internet at jboley@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-0966.

Title: Sections 80.385, 80.475, and 90.303, Automated Marine Telecommunications Service (AMTS).

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Individuals or households and businesses or other for-profit.

Number of Respondents: 20.

Estimated Time Per Response: .50 hours.

Frequency of Response: On occasion reporting requirement and third party disclosure requirement.

Total Annual Burden: 10 hours.

Total Annual Cost: N/A.

Needs and Uses: The reporting requirements are necessary to require licensees of Automated Maritime Telecommunications System (AMTS) stations to notify TV stations and two organizations (the American Radio

Relay League (ARRL), and Interactive Systems, Inc.) that maintain databases of AMTS locations for the benefit of amateur radio operators of the location of AMTS fill-in stations. Amateur radio operators use some of the same frequencies (219-220 MHz) as AMTS stations on a secondary, non-interference basis for digital message forwarding systems. Reporting requirements are necessary to require amateurs proposing to operate within close proximity of an AMTS station to notify the AMTS licensee as well as the ARRL. The information is used to update databases concerning AMTS locations for the benefit of amateur radio operators. If the collection of this information was not conducted, the database would become inaccurate and the ability to avoid interference problems would deteriorate.

Federal Communications Commission.

William F. Caton,

Deputy, Secretary.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted to OMB for Review and Approval

December 15, 2000.

SUMMARY: The Federal Communications Commissions, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act (PRA) that does not display a valid control number. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated

collection techniques or other forms of information technology.

DATES: Written comments should be submitted on or before February 5, 2001. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 1-A804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0761.

Title: Closed Captioning of Video Programming.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business and other for-profit entities; and Individuals or households.

Number of Respondents: 1,425.

Estimate Time Per Response: 30 mins. to 5 hrs.

Frequency of Response: On occasion reporting requirement; Third party disclosure.

Total Annual Burden: 2,013 hours.

Total Annual Costs: \$19,000.

Needs and Uses: The FCC's Report and Order, FCC 97-279, adopted rules and implementation schedules for the closed captioning of video programming, pursuant to Section 305 of the Telecommunications Act of 1996, which added Section 713, Video Programming Accessibility, to the Communications Act of 1934, as amended. The requirements set forth in Section 713 are intended to ensure that video programming is accessible to individuals with hearing disabilities through close captioning, regardless of the delivery mechanism used to reach consumers. Pursuant to Section 713, the FCC established phase-in schedules to increase the amount of closed captioned programming. The rules also provided procedures for entities to use to request exemptions of the closed captioning requirements base on an undue burden standard.

Furthermore, they detailed a complaint process for viewers to use for the enforcement of closed captioning requirements.
