SUPPLEMENTARY INFORMATION: The environmental assessment of this federally assisted action indicates that the project will not cause significant local, or national impacts on the environment. As a result of these findings, Patricia S. Leavenworth, State Conservationist, has determined that the preparation and review of an environmental impact statement are not needed for this project.

The project purposes are flood prevention and recreation. The planned works of improvement include the removal of one single family dwelling from the hydraulic shadow of Structure Number 2, and the enactment of a county floodplain zoning ordinance which restricts future development within the hydraulic shadow of Structure Number 2.

The Notice of a Finding of No Significant Impact (FONSI) has been forwarded to the Environmental Protection Agency and to various Federal, State, and local agencies and interested parties. A limited number of copies of the FONSI are available to fill single copy requests at the above address. Basic data developed during the environmental assessment are on file and may be reviewed by contacting Sheryl B. Paczwa.

No administrative action on implementation of the proposal will be taken until 30 days after the date of this publication in the **Federal Register**.

State Conservationist.
