BILLING CODE 4160-18-M

DEPARTMENT OF HEALTH AND HUMAN SERVICES

National Institutes of Health

Submission for OMB Review; Comment Request; The National Epidemiologic Survey on Alcohol and Related Conditions

SUMMARY: Under the provisions of Section 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, the National Institute on Alcohol Abuse and Alcoholism (NIAAA), the National Institutes of Health (NIH) has submitted to the Office of Management and Budget (OMB) a request for review and approval of the information collection listed below. This proposed information collection was previously published in the **Federal Register** on October 17, 2000, page 61342 and allowed 60-days for public comment. No public comments was received. The purpose of this notice is to allow an additional 30 days for public comment. The National Institutes of Health may not conduct or sponsor, and the respondent is not required to respond to, an information collection that has been extended, revised, or implemented on or after October 1, 1995, unless it displays a currently valid OMB control number.

Proposed Collection

Title: The National Epidemiologic Survey on Alcohol and Related Conditions. *Type of Information Collection Request:* NEW. *Need and Use of Information Collection:* This study will determine the incidence and prevalence of alcohol use disorders in a representative sample of the United States population with the primary purpose of estimating the extent and

distribution of alcohol consumption, alcohol use disorders and their associated psychological and medical disabilities across major sociodemographic subgroups. The primary objectives of this first wave of this longitudinal study is to understand the relationships between alcohol consumption, alcohol use disorders and their related disabilities with a view towards designing more effective treatment and intervention programs. The findings will provide valuable information concerning: (1) Trends in alcohol use disorders and their related disabilities in subgroups of the population of special concern; (2) identification of subgroups at high risk for alcohol use disorders that may be complicated by associated psychological and medical disabilities; (3) incidence of alcohol use disorders and their associated disabilities with a view toward understanding their natural history; (4) treatment utilization of alcohol use disorders in order to determine unmet treatment need and linguistic, social, economic and cultural barriers to treatment; (5) the college-aged segment of the population at high risk for binge drinking and its adverse consequences; and (6) the identification of safe and hazardous levels of drinking as they relate to the development of alcohol use disorders and their associated disabilities. *Frequency of Response:* On occasion. *Affected Public:* Individuals. *Type of Respondents:* Adults. The annual reporting burden is as follows: *Estimated Number of Respondents:* 48,000; *Estimated Number of Responses per Respondent:* 1; *Average Burden Hours Per Response:* 1.00; and *Estimated Total Annual Burden Hours Requested:* 48,000. The annualized cost to respondents is estimated at: \$576,000.00. There are no Capital Costs to report. There are no Operating or Maintenance Costs to report.

Request for Comments

Written comments and/or suggestions from the public and affected agencies are invited on one or more of the following points: (1) Whether the proposed collection of information is necessary for the proper performance of the function of the agency, including whether the information will have practical utility; (2) The accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and (4) Ways to minimize the burden of the collection of information

on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Direct Comments to OMB

Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503, Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact Dr. Bridget Grant, Chief, Biometry Branch, Division of Biometry and Epidemiology, NIAAA, NIH, Willco Building, Suite 514, 6000 Executive Boulevard, Bethesda, Maryland 20892-7003, or call non-toll-free number (301) 443-7370 or E-mail your request, including your address to: Bgrant@willco.niaaa.nih.gov.

Comments Due Date

Comments regarding this information collection are best assured of having their full effect if received on or before February 7, 2001.

Dated: November 22, 2000.

Stephen Long,

Executive Officer, NIAAA.

BILLING CODE 4140-01-M

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Receipt of Request to Amend Endangered Species Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt.

The following applicant requests a permit amendment to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 *et seq.*):

Applicant: Assistant Regional Director, Ecological Services, U.S. Fish and Wildlife Service, Hadley, Massachusetts

Permit No.: TE-697823

This applicant requests to amend their current permit for take activities for all listed species in the states of Connecticut, Delaware, Maine, Maryland, Massachusetts, New

Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, Vermont, Virginia, West Virginia, and the District of Columbia for the purpose of scientific research and enhancement of survival of the species, to include the recently listed Gulf of Maine distinct population segment of Atlantic salmon (*Salmo salar*).

DATES: Written comments on this request for a permit amendment must be received on or before February 7, 2001.

ADDRESSES: Written data or comments should be submitted to the Regional Endangered Species Permits Coordinator, U.S. Fish and Wildlife Service, 300 Westgate Center Drive, Hadley, Massachusetts 01035; facsimile: 413-253-8482.

FOR FURTHER INFORMATION CONTACT: Documents and other information submitted with this request for an amendment are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents within 20 days of the date of publication of this notice to the address above; telephone: 413-253-8628.

Dated: December 19, 2000.

Dr. Mamie A. Parker,
Acting Regional Director.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management; Alaska

[AK-921-1410-BK-P]

Notice for Publication; Filing of Plat of Survey; Alaska

The plat of survey of the following described land was officially filed in the Alaska State Office, Anchorage, Alaska, on the date indicated.

A plat representing the dependent resurvey of Tract A, U.S. Survey No. 465, Alaska, situated near the westerly shore of Shelikof Strait, in Alaska, was accepted November 1, 2000, and was officially filed November 8, 2000.

This plat was prepared at the request of the National Park Service to delineate the surrounding public lands.

This plat will immediately become the basic record for describing the land for all authorized purposes. This survey has been placed in the open files in the Alaska State Office and is available to the public as a matter of information.

All inquiries relating to these lands should be sent to the Alaska State Office, Bureau of Land Management, 222 West Seventh Avenue, #13,

Anchorage, Alaska 99513-7599; 907-267-1403.

Daniel L. Johnson,

Chief, Branch of Field Surveys.

BILLING CODE 1410-BK-P

DEPARTMENT OF THE INTERIOR

Minerals Management Service (MMS)

Outer Continental Shelf (OCS), Alaska Region, Beaufort Sea, Proposed Liberty Development and Production Plan (DPP)

AGENCY: Minerals Management Service, Interior.

ACTION: Notice of Availability of the Draft Environmental Impact Statement (EIS) and Locations and Dates of Public Hearings for British Petroleum Exploration (Alaska) (BPXA) Inc.'s Proposed Liberty DPP Offshore Alaska.

SUMMARY: The MMS is issuing a draft EIS for the BPXA Inc.'s proposed Liberty Development Project DPP in the Beaufort Sea, Alaska. The U.S. Army Corps of Engineers (COE) and the Environmental Protection Agency (EPA) were cooperating agencies, with the MMS, in preparing the EIS. Information on the availability of the EIS and dates and locations for public hearings and submission of comments are presented in this notice.

FOR FURTHER INFORMATION CONTACT: For matters pertaining to this notice, contact Mr. Fred King (Alaska OCS Region, Anchorage) at (907) 271-6696 or toll free at 1-800-764-2627.

DATES: Comments on the draft EIS will be accepted until March 13, 2001.

SUPPLEMENTARY INFORMATION: The MMS, in cooperation with the COE and EPA, prepared a draft EIS on BPXA Inc.'s proposed Liberty Development Project DPP. This EIS additionally serves as the environmental analysis for the BPXA's Oil Discharge Prevention and Contingency Plan (ODPCP) and the construction and operation of a pipeline that would be associated with any Right-of-Way (ROW) for the OCS portion of the proposed Liberty pipeline. The public review for the DPP, ODPCP, and ROW will be announced separately by the MMS Alaska OCS Region.

This EIS is also intended to meet NEPA compliance and public notice requirements for EPA's issuance of a National Pollutant Discharge Elimination System (NPDES) permit, pursuant to Section 402 of the Clean Water Act. By this notice, the EPA is

seeking public review and comment of the NPDES permit and explanatory fact sheet which are included as Appendix I in the draft EIS.

The Liberty prospect is located on the OCS in the Beaufort Sea northeast of the Prudhoe Bay oil field. The MMS is the lead agency which developed the EIS, in cooperation with the COE and the EPA, as required by the National Environmental Policy Act (NEPA) of 1969, as amended (42 U.S.C. 4371 *et seq.*). In February 1998, BPXA submitted a DPP, subsequently revised in November 1998 (Revision 1) and July 2000 (Revision 2), describing how they proposed to produce, develop, and transport oil from the Liberty Prospect using a manmade gravel island constructed on the Federal OCS and located in 22 feet of water about 6.1 miles offshore in Foggy Island Bay and 1.5 miles west of the abandoned Tern Island. The Liberty Island facility would be a self-contained offshore drilling operation with processing facilities. Oil would be transported to shore in a common carrier pipeline which connects with the Trans-Alaska Pipeline System. A new gravel mine site and offshore and onshore ice roads are part of the proposed project. The MMS based the EIS analyses on estimates of the kinds and amounts of activity onshore and offshore that could result from transporting personnel and equipment offshore, constructing the self-contained manmade gravel island and structures, installing structures and equipment on the island, drilling wells, and constructing a common carrier oil pipeline buried in an undersea trench to an onshore landfall and then elevated onshore by vertical support members to a tie-in with the existing onshore Badami oil pipeline, then to the Trans-Alaska Pipeline System.

The EIS addresses a range of potentially applicable technologies and construction options. The EIS evaluates the BPXA Proposal, a No-Action alternative, and a variety of alternatives that were developed in light of the most significant issues raised from scoping. The alternatives examine three island locations and pipeline routes, four pipeline designs, two types of upper slope protection for the production island, two gravel mine sites, and two pipeline burial depths. The EIS also evaluates the effects of oil spill response activities described in the ODPCP.

EIS Availability: You may obtain single copies of the draft EIS, "OCS EIS, MMS 2001-001" (three volumes), from the MMS, Alaska OCS Region, Attention: Mr. Fred R. King, (MS 8303), 949 E. 36th Avenue, Room 308, Anchorage, Alaska 99508-4363, or by
