

has this complicated process been analyzed by individual states to fully understand its impact. The receipt must have the ability to work individually and jointly with parole boards, agency administrators, supervision staff, and treatment and service providers, in order to effectively manage policy development teams. The intent is that the recipient of this award will take into consideration the research and the practical knowledge of responding to violations, and from that knowledge base, assist states to develop policy driven practices for organizations to follow. The resulting effect should allow for a more rational utilization of prison space, staff allocation (both in the field and correctional facilities) and create a meaningful return on the investment the state makes in corrections.

The recipient of this cooperative agreement must prepare a proposal that describes their plan to meet the goals/objective which should include a schedule identifying benchmarks of significant tasks in chart form. Applicants must identify their key project staff and the relevant expertise of each. Also, the application should indicate how it will work with NIC on an announcement for marketing this project; develop selection criteria; and compile information on applicants making application. The proposal should present a methodology or approach that the applicant proposes to employ in providing technical assistance to 6 paroling authorities that would incorporate the following and other elements deemed appropriate to accomplishing the objectives of the project:

- The process for taking decision makers through analysis of past practices for parole violations including what data, information and decision making policies and practices should be identified, collected and analyzed.
- Develop descriptions of acceptable responses to a range of violation behaviors and identify the various sanctions and interventions strategies to consider.
- Develop future outcome or performance measures for a policy-driven parole violation process.
- Determine which dynamic screening, classification and assessment system(s) may contribute to improved violation decision-making and how and when such systems should be used.
- Develop a plan to design, implement and operate interventions consistent with the principles of effective interventions aimed at reducing risk by confronting parole violators criminogenic needs.

**Authority:** Public Law 93-415.

**Funds Available:** This is a cooperative agreement. A cooperative agreement is a form of assistance relationship through which the National Institute of Corrections is involved during the performance of the award. The award is made to an organization who, in concert with the Institute, will solicit and select participating jurisdictions and provide them with technical assistance. No funds are transferred to state or local government. The Community Corrections Division will provide the financial assistance in the form of a cooperative agreement to an agency or organization, who makes application. This initiative emphasizes policy development by paroling authorities in partnership with supervision staff and service delivery organizations. The award will be limited to \$250,000 (direct and indirect cost) and project activity must be completed within 18 months of the date of award. Funds may not be used for construction, or to acquire or build real property. This project will be a collaborative venture with the NIC Community Correction Division.

**Deadline for Receipt of Applications:** Applications must be received by 4:00 p.m. on Thursday, February 28, 2001. They should be addressed to: Director, National Institute of Corrections, 320 First Street, NW, Room 5007, Washington, DC 20534. Hand delivered applications should be brought to 500 First Street, NW, Washington, DC 20534. The front desk will call Bobbi Tinsley at (202) 307-3106 extension 0 for pickup.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-266 and 50-301]

### Nuclear Management Company, LLC; Notice of Withdrawal of Application for Amendment to Facility Operating License

The U.S. Nuclear Regulatory Commission (the Commission) has granted the request of Nuclear Management Company, LLC (the licensee) to withdraw its October 5, 1999, application for proposed amendment to Facility Operating License Nos. DPR-24 and DPR-27 for the Point Beach Nuclear Plant, Units 1 and 2, located in Town of Two Creeks, Manitowoc County, Wisconsin.

The proposed amendment would have revised the Technical Specifications (TSs) to eliminate inconsistencies, principally related to decay heat removal. The amendment is no longer necessary because the inconsistencies are being corrected as part of a separate application dated November 15, 1999, to convert Point Beach's current TSs to improved TSs. The November 15, 1999, application is currently being reviewed by the staff of the Commission.

The Commission had previously issued a Notice of Consideration of Issuance of Amendment published in the **Federal Register** on November 17, 1999 (64 FR 62717). However, by letter dated December 19, 2000, the licensee withdrew the proposed change.

For further details with respect to this action, see the application for amendment dated October 5, 1999, as supplemented May 19, 2000, and the licensee's letter dated December 19, 2000, which withdrew the application for license amendment. Documents may be examined, and/or copied for a fee, at the NRC's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 5th day of January 2001.

For the Nuclear Regulatory Commission.
