Finding of No Significant Impact

Based on the above EA, the Commission has concluded that environmental impacts that would be created by the proposed action would not have a significant effect on the quality of the human environment and a Finding of No Significant Impact is appropriate. Accordingly, the preparation of an Environmental Impact Statement is not warranted.

Documents

Documents submitted by SteriGenics are available for public inspection from the Publicly Available Records (PARS) component of the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/NRC/ADAMS/index.html> (the Public Electronic Reading Room). Assistance with the Public Electronic Reading Room may be obtained by calling (800) 397-4209. The accession numbers for the licensee's documents referred to in this Assessment are listed next to the document date above.

Opportunity for a Hearing

Any person whose interest may be affected by the issuance of this action may file a request for a hearing. Any request for hearing must be filed with the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555, within 30 days of the publication of this notice in the **Federal Register**; be served on the NRC staff (Executive Director for Operations, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852), and on the licensee (SteriGenics International, 210 Clyde Road, Somerset, NJ 08873); and must comply with the requirements for requesting a hearing set forth in the Commission's regulations, 10 CFR part 2, subpart L, "Information Hearing Procedures for Adjudications in Materials Licensing Proceedings."

These requirements, which the request must address in detail, are:

1. The interest of the requestor in the proceeding;
2. How that interest may be affected by the results of the proceeding (including the reasons why the requestor should be permitted a hearing);
3. The requestor's areas of concern about the licensing activity that is the subject matter of the proceeding; and
4. The circumstances establishing that the request for hearing is timely—that

is, filed within 30 days of the date of this notice.

In addressing how the requestor's interest may be affected by the proceeding, the request should describe the nature of the requestor's right under the Atomic Energy Act of 1954, as amended, to be made a party to the proceeding; the nature and extent of the requestor's property, financial, or other (*i.e.*, health, safety) interest in the proceeding; and the possible effect of any order that may be entered in the proceeding upon the requestor's interest.

Dated at King of Prussia, Pennsylvania, this 4th day of January 2001.

For the Nuclear Regulatory Commission.

John D. Kinneman,

*Chief, Nuclear Materials Safety Branch 2,
Division of Nuclear Materials Safety Region I.*

NUCLEAR REGULATORY COMMISSION

[Docket No. 030-28641, License No. 42-23539-01AF, Department of the Air Force; Docket No. 030-29462, License No. 45-23645-01NA, Department of the Navy; Docket No. 040-08767, License No. SUC-1380, Department of the Army]

Notice of Issuance of Director's Decision Under 10 CFR 2.206

Notice is hereby given that the Director, Office of Nuclear Material Safety and Safeguards, has issued a director's decision with regard to a petition dated June 1, 2000, filed by Doug Rokke, Ph.D., hereinafter referred to as the "petitioner." The petition concerns the use of depleted uranium (DU) by the U.S. Department of Defense and all services.

The petition requested that the U.S. Nuclear Regulatory Commission (Commission or NRC) hold a hearing to consider "the revocation of the master DU [depleted uranium] license for the U.S. Department of Defense and all services, implementation of substantial fines and consideration of personal criminal liability." As the basis for this request, the petitioner stated that "the continuing deliberate use of DU munitions during battle and during peacetime is resulting in serious health and environmental consequences."

By letter dated September 8, 2000, and addressed to the petitioner, the NRC staff acknowledged receiving the petition, and stated that pursuant to 10 CFR 2.206 the petition was referred to the Office of Nuclear Material Safety and Safeguards for action, and that it

would be acted upon within a reasonable time.

The NRC staff requested the U.S. Department of the Air Force, the U.S. Department of the Army, and the U.S. Department of the Navy to respond to the petition. The licensees responded on October 30, 2000, and the information provided was considered by the staff in its evaluation of the petition.

The Director of the Office of Nuclear Material Safety and Safeguards has determined that the request to hold a hearing to consider the revocation of the military licenses authorizing the use of DU, implementation of substantial fines, and consideration of personal criminal liability, should be denied. The reasons for this decision are explained in the director's decision pursuant to 10 CFR 2.206 [DD-01-01], the complete text of which is available in ADAMS for inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and via the NRC's Web site (<http://www.nrc.gov>) on the World Wide Web, under the "Public Involvement" icon.

A copy of the director's decision will be filed with the Secretary of the Commission for the Commission's review in accordance with 10 CFR 2.206 of the Commission's regulations. As provided for by this regulation, the director's decision will constitute the final action of the Commission 25 days after the date of the decision, unless the Commission, on its own motion, institutes a review of the director's decision in that time.

Dated at Rockville, Maryland, this 9th day of January 2001.

For the Nuclear Regulatory Commission.

William F. Kane,

Director, Office of Nuclear Material Safety and Safeguards.
