

Description of the need for the information and proposed use of the information: The information is to be placed in a public docket for the use by vehicle, headlamp and headlamp light source manufacturers for determining the interchangeability aspects of headlamp light sources for manufacturing purposes and for the design and manufacture of headlamps. In order for replacement light sources to be designated as acceptable replacements, the replacement light sources also are required to comply with the dimensional and performance information in the docket for its type. The Federal program for reducing highway fatalities, injuries and accidents would likely be adversely affected if the information was not collected, because the bulbs would, in fact, not be standardized for performance and interchangeability. If the interchangeability information were not available to manufacturers who normally provide original equipment and aftermarket parts, replacements could become significantly more costly to replace upon burnout, and ready availability would also likely diminish because the replacements would be available from only the vehicle's manufacturer or its dealer. As a potential adverse safety consequence, more and more vehicles would likely be on the highways at night with headlamps having one or more failed bulbs because of the higher expense and lower availability, and therefore reduce the roadway illumination and increase the risk of accident. In the event that the information collection were not reapproved, it is likely that the agency would have to reinstate headlamp light source information as part of the federal lighting standard and thus any new light source designs could be used only after a lengthy and costly rulemaking instead of this simple review and reference procedure.

Description of the Likely Respondents (Including Estimated Number, and Proposed Frequency of Response to the Collection of Information): For the burdened parties, only those which develop a new or modified headlamp light source or other additional interchange information will have to submit information. Based on the last three years of Part 564 data collection, sixteen submissions have been received.

Estimate of the Total Annual Reporting and Recordkeeping Burden Resulting from the Collection of Information: The average estimated cost of the information submissions is estimated to be 4.2 hours per submission at \$100 per hour for a cost of \$420 each, thus at a rate of 16/3

submissions per year, the average annual cost is \$2240 and the average annual hour burden is 22.9 hours.

Associate Administrator for Safety Performance Standards.

DEPARTMENT OF THE TREASURY

Departmental Offices Privacy Act of 1974; System of Records

AGENCY: Departmental Offices, Treasury.

ACTION: Notice of Alteration to a Privacy Act System of Records.

SUMMARY: The Department is altering its system of records, Treasury/DO .203—Public Transportation Incentive Program Records.

DATES: Comments must be received no later than February 15, 2001. The proposed system of records will be effective February 26, 2001, unless the Department receives comments that would result in a contrary determination.

ADDRESSES: Comments should be sent to Disclosure Services, Department of the Treasury, 1500 Pennsylvania Ave., NW., Washington DC, 20220.

FOR FURTHER INFORMATION CONTACT: Les Smith, Program Manager, Facilities Management Division, (202) 622-0989, fax (202) 622-5334.

SUPPLEMENTARY INFORMATION: The Department is altering its system of records notice pertaining to the public transportation incentive program to bring its format into conformance with the other Treasury-wide systems of records notices by adding the following Treasury bureaus to the notice: Bureau of Alcohol, Tobacco and Firearms (ATF); Office of the Comptroller of the Currency (OCC); United States Customs Service (CS); Federal Law Enforcement Training Center (FLETC); Internal Revenue Service (IRS); United States Secret Service (USSS); and Office of Thrift Supervision (OTS). The system location is revised by listing each bureau under "System Location."

The "System manager(s)" is revised to identify the official responsible for the program at each bureau. The "Categories of records in the system" has been expanded to include records relating to the incentives authorized under the Federal Workforce Transportation Program. The "Purpose(s)" statement and the "Notification procedures" are also being revised. Under "Authority for maintenance of the system," new authority citations are being added as needed by individual bureaus. Three new routine uses (routine uses 7, 8 and 9) are being added to the system notice and routine uses (2) and (6) are being amended. The entry under "Record source categories" is also being revised.

The records are used to administer the public transportation incentive or subsidy programs provided by the bureaus for eligible employees. The notice for the system of records was last published in its entirety on December 17, 1998, at 63 FR 69737.

The altered system of records report, as required by 5 U.S.C. 552a(r) of the Privacy Act, has been submitted to the Committee on Government Reform and Oversight of the House of Representatives, the Committee on Governmental Affairs of the Senate, and the Office of Management and Budget, pursuant to Appendix I to OMB Circular A-130, Federal Agency Responsibilities
