SUPPLEMENTARY INFORMATION:
A. Background
This final rule amends the FAR by adding a new FAR part 49, subpart on prohibition of acquisition of products produced by forced or indentured child labor (subpart 22.15), adding a new certification regarding knowledge of child labor for listed end products (FAR 52.212–3 and 52.212–18), and adding a clause at 52.222–19, that requires cooperation with authorities if the solicitation included the certification provision and provides remedies for violations relating to use of forced or indentured child labor.

On June 12, 1999, the President signed Executive Order 13126, Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor (the Executive Order). The Executive Order states a broad policy that executive agencies must take appropriate actions to enforce the laws prohibiting the manufacture or importation of products mined, produced, or manufactured wholly or in part by forced or indentured child labor.

Section 2 of the Executive Order directed the Department of Labor (DoL), in consultation with the Department of Treasury and the Department of State, to publish in the Federal Register a list of products (the List, identified by their country of origin, for which there is a reasonable basis to believe that such product may have been mined, produced, or manufactured by forced or indentured child labor. DoL published the preliminary List in the Federal Register on September 6, 2000 (65 FR 54108–54112), and solicited public comment. After receipt and consideration of the public comments, DoL is publishing the final List in today’s Federal Register.

Section 3 of the Executive Order required the Councils to issue a proposed rule, amending the FAR to implement the policy expressed in the Executive Order. Accordingly, the Councils published a proposed rule in the Federal Register on September 6, 2000 (65 FR 54104–54107). Public comments on the proposed rule were due by November 6, 2000.

Ten respondents submitted public comments. Most comments received did not object to the basic policy but were outside the scope of the case, because they request FAR revisions that go beyond the scope of the Executive Order or are inconsistent with the requirements of the Executive Order. For example, some suggested expanding the scope of the mandate of the Executive Order in the regulation to address products made by convict labor and forced or indentured labor by persons 18 or older—clearly outside the purview of this rulemaking. Other respondents suggested using a different definition of “forced or indentured child labor,” a comment that has been addressed in the companion rule being issued simultaneously by the Department of Labor. The Councils carefully considered all comments in formulation of the final rule.

The proposed and final rule that is the same as the proposed rule, except for minor editorial changes. This is a significant regulatory action, and therefore, was subject to review under Section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

B. Regulatory Flexibility Act
The Department of Defense, the General Services Administration, and the National Aeronautics and Space Administration certify that this final rule will not have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., because only a small percentage of acquisitions are for products on the DoL List, there is minimal impact on offerors providing a listed product that originates in a country other than the corresponding countries identified on the DoL List, and not all offerors responding to solicitations for these acquisitions are small entities. With regard to the clause that requires cooperation with authorities and provides remedies for violations relating to use of forced or indentured child labor, we expect that very few contractors are furnishing end products or components produced by forced or indentured child labor. The rule does not apply to micro-purchases.

The Councils did not receive any comments regarding the Regulatory Flexibility Act as a result of publication of the proposed rule in the Federal Register at 65 FR 54104.

C. Nonstatutory Certification Approval
In accordance with Section 29 of the Office of Federal Procurement Policy Act, 41 U.S.C. Section 425, the FAR Council has requested approval from the Administrator for Federal Procurement Policy for inclusion of a nonstatutory certification in the Federal Acquisition Regulation. In the absence of an Administrator, that approval has been granted by the Director of the Office of Management and Budget in accordance with the Federal Vacancies Reform Act of 1998, 5 U.S.C. 3348(b)(2).

D. Paperwork Reduction Act
The Paperwork Reduction Act (Pub. L. 104–13) applies. This final rule contains information collection requirements that have been submitted to the Office of Management and Budget (OMB) which will not take effect prior to OMB approval of these provisions. Two respondents commented on the estimated burden of the information collection requirements.

The Councils note that the average response time reflects the average...
burden on all contractors, including those who must simply certify that they are not supplying products that were mined, produced, or manufactured in the corresponding country identified on the DoL List. We also anticipate that, given the need to comply with the Tariff Act of 1930, many offerors would already have taken steps that would enable them to make the necessary certification, before they sought to supply a product from a country identified on the DoL List.

The proposed rule erroneously stated the estimated hours per response as .30 hours rather than .5 hours (30 minutes). This does not change the total estimate of 250 response burden hours per year. The revised annual reporting burden is estimated as follows:

- Respondents: 500.
- Responses per respondent: 1.
- Total annual responses: 500.
- Preparation hours per response: .5.
- Total response burden hours: 250.

Therefore, DoD, GSA, and NASA amend 48 CFR Parts 22 and 52 as set forth below:

1. The authority citation for 48 CFR Parts 22 and 52 continues to read as follows:

   Authority: 40 U.S.C. 486(c); 10 U.S.C. chapter 137; and 42 U.S.C. 2473(c).

PART 22—APPLICATION OF LABOR LAWS TO GOVERNMENT ACQUISITIONS

2. Add Subpart 22.15 to read as follows:

Subpart 22.15—Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor

Sec.

22.1500 Scope.

This subpart applies to acquisitions of supplies that exceed the micro-purchase threshold.

22.1501 Definitions.

As used in this subpart—

Forced or indentured child labor means all work or service—

(1) Exacted from any person under the age of 18 under the menace of any penalty for its nonperformance and for which the worker does not offer himself voluntarily; or

(2) Performed by any person under the age of 18 pursuant to a contract the enforcement of which can be accomplished by process or penalties.

List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor means the list published by the Department of Labor in accordance with Executive Order 13126 of June 12, 1999, Prohibition of Acquisition of Products Produced by Forced or Indentured Child Labor. The list identifies products, by their country of origin, that the Departments of Labor, Treasury, and State have a reasonable basis to believe might have been mined, produced, or manufactured by forced or indentured child labor.

22.1502 Policy.

Agencies must take appropriate action to enforce the laws prohibiting the manufacture or importation of products that have been mined, produced, or manufactured wholly or in part by forced or indentured child labor (19 U.S.C. 1307, 29 U.S.C. 201, et seq., and 41 U.S.C. 35, et seq.). Agencies should make every effort to avoid acquiring such products.

22.1503 Procedures for acquiring end products on the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor.

(a) When issuing a solicitation for supplies expected to exceed the micro-purchase threshold, the contracting officer must check the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor (the List) (www.dol.gov/dol/ilab) (see 22.1505(a)). Appearance of a product on the List is not a bar to purchase of any such product mined, produced, or manufactured in the identified country, but rather is an alert that there is a reasonable basis to believe that such product may have been mined, produced, or manufactured by forced or indentured child labor.

(b) The requirements of this subpart that result from the appearance of any end product on the List do not apply to a solicitation or contract if the identified country of origin on the List is—

(1) Canada, and the anticipated value of the acquisition is $25,000 or more (see 25.405);

(2) Israel, and the anticipated value of the acquisition is $50,000 or more (see 25.406);

(3) Mexico, and the anticipated value of the acquisition is $54,372 or more (see 25.405); or

(4) Aruba, Austria, Belgium, Denmark, Finland, France, Germany, Greece, Hong Kong, Ireland, Italy, Japan, Korea, Liechtenstein, Luxembourg, Netherlands, Norway, Portugal, Singapore, Spain, Sweden, Switzerland, or the United Kingdom and the anticipated value of the acquisition is $177,000 or more (see 25.403(b)).

(c) Except as provided in paragraph (b) of this section, before the contracting officer may make an award for an end product (regardless of country of origin) of a type identified by country of origin on the List the offeror must certify that—

(1) It will not supply any end product on the List that was mined, produced, or manufactured in a country identified on the List for that product, as specified in the solicitation by the contracting officer in the Certification Regarding Knowledge of Child Labor for Listed End Products; or

(2) It has made a good faith effort to determine whether forced or indentured child labor was used to mine, produce, or manufacture any end product to be furnished under the contract that is on the List and was mined, produced, or manufactured in a country identified on the List for that product; and
(ii) On the basis of those efforts, the offeror is unaware of any such use of child labor.

d) Absent any actual knowledge that the certification is false, the contracting officer must rely on the offerors’ certifications in making award decisions.

(e) Whenever a contracting officer has reason to believe that forced or indentured child labor was used to mine, produce, or manufacture an end product furnished pursuant to a contract awarded subject to the certification required in paragraph (c) of this section, the contracting officer must refer the matter for investigation by the agency’s Inspector General, the Attorney General, or the Secretary of the Treasury, whichever is determined appropriate in accordance with agency procedures, except to the extent that the end product is from the country listed in paragraph (b) of this section, under a contract exceeding the applicable threshold.

(f) Proper certification will not prevent the head of an agency from imposing remedies in accordance with section 22.1504(a)(4) if it is later discovered that the contractor has furnished an end product or component that has in fact been mined, produced, or manufactured, wholly or in part, using forced or indentured child labor.

22.1504 Violations and remedies.

(a) Violations. The Government may impose remedies set forth in paragraph (b) of this section for the following violations (note that the violations in paragraphs (a)(3) and (a)(4) of this section go beyond violations of the requirements relating to certification of end products) (see 22.1503):

(1) The contractor has submitted a false certification regarding knowledge of the use of forced or indentured child labor.

(2) The contractor has failed to cooperate as required in accordance with the clause at 22.222–19, Child Labor Cooperation with Authorities and Remedies, with an investigation of the use of forced or indentured child labor by an Inspector General, the Attorney General, or the Secretary of the Treasury.

(3) The contractor uses forced or indentured child labor in its mining, production, or manufacturing processes.

(4) The contractor has furnished an end product or component mined, produced, or manufactured, wholly or in part, by forced or indentured child labor. Remedies in paragraphs (b)(2) and (b)(3) of this section are inappropriate unless the contractor knew of the violation.

(b) Remedies. (1) The contracting officer may terminate the contract.

(2) The suspending official may suspend the contractor in accordance with the procedures in subpart 9.4.

(3) The debarring official may debar the contractor for a period not to exceed 3 years in accordance with the procedures in subpart 9.4.

22.1505 Solicitation provision and contract clause.

(a) Except as provided in paragraph (b) of 22.1503, insert the provision at 52.222–18, Certification Regarding Knowledge of Child Labor for Listed End Products, in all solicitations that are expected to exceed the micro-purchase threshold and are for the acquisition of end products (regardless of country of origin) of a type identified by country of origin on the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, except solicitations for commercial items that include the provision at 52.212–3, Offeror Representations and Certifications—Commercial Items. The contracting officer must identify in paragraph (b) of the provision at 52.222–18, Certification Regarding Knowledge of Child Labor for Listed End Products, or paragraph (i)(1) of the provision at 52.212–3, any applicable end products and countries of origin from the List. For solicitations estimated to equal or exceed $25,000, the contracting officer must exclude from the List in the solicitation end products from any countries identified at 22.1503(b), in accordance with the specified thresholds.

(b) Insert the clause at 52.222–19, Child Labor—Cooperation with Authorities and Remedies, in all solicitations and contracts for the acquisition of supplies that are expected to exceed the micro-purchase threshold.
