

List of Subjects in 21 CFR Part 1

Cosmetics, Drugs, Exports, Food labeling, Imports, Labeling, Reporting and recordkeeping requirements.

Therefore, under the Federal Food, Drug, and Cosmetic Act, the Public Health Service Act, and under authority delegated to the Commissioner of Food and Drugs, it is proposed that 21 CFR part 1 be amended as follows:

PART 1—GENERAL ENFORCEMENT REGULATIONS

1. The authority citation for 21 CFR part 1 is revised to read as follows:

Illustration 2

UNITED STATES REFUSED ENTRY

(b) You must make the mark at least 2.5 cm. or 1 inch high in capital or uppercase letters. The mark must be clear, conspicuous, and permanently affixed. You also must:

(1) Affix the mark to the packing container of the food, if possible, and to an invoice, bill of lading, and any other shipping document accompanying the food when it is exported. For purposes of this rule, a packing container is any container used to pack one or more immediate containers of the refused food, and an immediate container is any container which holds an imported food for sale to the ultimate consumer, the term “packing container” excludes trailers, railroad cars and similar transportation-related items, and

(2) Affix the mark, under the supervision of a FDA employee or individual designated by FDA, before the food is exported.

(c) You must not:

(1) Import or offer to import any food that has been previously refused admission into the United States and marked as “UNITED STATES REFUSED ENTRY;” or

(2) Alter, remove, tamper with, or conceal a “UNITED STATES REFUSED ENTRY” mark.

Margaret M. Dotzel,
Associate Commissioner for Policy.

Timothy E. Skud,
Acting Deputy Assistant Secretary. Department of the Treasury.

BILLING CODE 4160–01–F

DEPARTMENT OF THE INTERIOR
Office of Surface Mining Reclamation and Enforcement
30 CFR Part 870
RIN 1029–AB95
Abandoned Mine Land (AML) Fee Collection and Coal Production Reporting on the OSM–1 Form

AGENCY: Office of Surface Mining Reclamation and Enforcement, Interior.

ACTION: Proposed rule; reopening and extension of the comment period.

SUMMARY: We, the Office of Surface Mining Reclamation and Enforcement (OSM) are reopening and extending the comment period on a proposal to amend our regulations governing Abandoned Mine Land (AML) reclamation fee reporting to allow for the electronic filing of the information required on the OSM–1 Form.

DATES: Written comments: We will accept written comments on the proposed rule until 5 p.m., Eastern time, on February 21, 2001.

ADDRESSES: If you wish to comment, you may submit your comments by any one of the following methods. You may mail or hand-deliver comments to the Office of Surface Mining Reclamation and Enforcement, Administrative Record, Room 101, 1951 Constitution Avenue, NW, Washington, DC 20240. You may also submit comments to OSM via the Internet at: omsrules@osmre.gov.

FOR FURTHER INFORMATION CONTACT: Mr. Sean Spillane, Office of Surface Mining Reclamation and Enforcement, Denver Federal Center, Building 20k, Room B–2005, Denver, Colorado 80225; Telephone 303–236–0330, Ext. 278. E-mail: sspskillan@osmre.gov.

SUPPLEMENTARY INFORMATION:

I. Background Information
II. How Would the Electronic Submission Process Work?
III. How Do I Submit Comments on the Proposed Rule?

I. Background Information

On February 15, 2000 (65 FR 7706), we published a proposed rule which would revise our regulations to allow a coal operator (or the entity reporting for the operator) the option of filing the OSM–1 Form electronically. Because of the notary requirement in section 402(c) of the Surface Mining Control and Reclamation Act of 1977 (SMCRA), the
The option of using a signed and dated electronic statement made under penalty of perjury in lieu of a sworn, notarized statement, we are considering modifying the paper form to incorporate an appropriate signature block for this provision. The new paper form, if adopted, would allow the operator to submit either the sworn, notarized statement or an unsworn statement made under penalty of perjury. We believe that this modification would further simplify reporting requirements for operators. Your comments on this matter are also requested.

How Would the Electronic Submission Process Work?

We intend to develop a website where companies will be able to log in and complete the OSM–1 Form on-line. Access to the website will be controlled by ID and password which will be used as the method of electronic signature. When initially accessing the website, companies will be able to download encryption software which is free. The data which is encrypted can be read only by the company and the data submitted by the company cannot be changed by unauthorized persons. A file transfer protocol (FTP) version of the electronic OSM–1 Form will allow companies with a large number of reporting permits to automate their filing process by transferring their data report files directly from their computer to OSM. The FTP process will use a form of electronic signature called a Public Key Infrastructure (PKI). PKI is a system for encrypting, decrypting, signing and verifying the data transferred electronically. With PKI, the company (user) can obtain a free download of the software for a private signing key. With this key, the user creates a digital signature on an electronic file or encrypts the data. OSM, as the recipient of the file, employs the public key to validate the signature made with the private key or decrypts the data. The two keys are mathematically linked and form a unique pair. Only the public key can validate the signature made with the associated private key(s). This process also verifies that the file has not been altered since its encryption. The companies that use FTP will also need a user identification and password to enable them to print their OSM report from the website after their data is transferred.  

II. How Do I Submit Comments on the Proposed Rule?

Written Comments: If you submit written or electronic comment on the proposed rule during the 30-day extended comment period, please be specific, should be confined to issues pertinent to the notice, and should explain the reason for any recommended change(s). Where practical, you should submit three copies of your comments. We may not be able to consider or include in the Administrative Record comments delivered to an address other than those listed above (see ADDRESSES).  

Electronic Comment: Please submit Internet comments as an ASCII or WordPerfect file avoiding the use of special characters and any form of encryption. Please also include “Attn: RIN 1029–AB95” and your name and return address in your Internet message. If you do not receive a confirmation from the system that we have received your Internet message, contact us directly at 202–208–2847.  

Availability of Comments: Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours at the OSM Administrative Record Room (see ADDRESSES). Individual respondents may request that we withhold their home address from the rulemaking
DEPARTMENT OF TRANSPORTATION

Coast Guard

33 CFR Part 117
[CGD7–00–123]
RIN 2115–AE47

Drawbridge Operation Regulations: Siesta Drive Drawbridge, Gulf Intracoastal Waterway, Florida

AGENCY: Coast Guard, DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: The Coast Guard proposes to change the operating regulations of the Siesta Drive drawbridge across the Gulf Intracoastal Waterway, mile 71.6 at Sarasota, Florida. This rule would allow the drawbridge to open only every 20 minutes between the hours of 7 a.m. and 6 p.m., Monday through Friday, except Federal holidays. This action is intended to improve the movement of morning commuter traffic while not unreasonably interfering with the movement of vessel traffic.

DATES: Comments and related material must reach the Coast Guard on or before March 23, 2001.

ADDRESSES: You may mail comments and related material to Commander (obr), Seventh Coast Guard District, 909 SE 1st Avenue, Room 406, Miami, FL 33131, telephone number 305–415–6743.

SUPPLEMENTARY INFORMATION:

Request for Comments
We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking [CGD7–00–123], indicate the specific section of this document to which each comment applies, and give the reason for each comment. Please submit all comments and related material in an unbound format, no larger than 8 1/2 by 11 inches, suitable for copying. If you would like to know they reached us, please enclose a stamped, self-addressed postcard or envelope. We will consider all comments and material received during the comment period. We may change this proposed rule in view of them.

Public Meeting
We do not now plan to hold a public meeting. But you may submit a request for a meeting by writing to Bridge Branch, Seventh Coast Guard District, 909 SE 1st Ave., Room 406, Miami, FL 33131, explaining why one would be beneficial. If we determine that one would aid this rulemaking, we will hold one at a time and place announced by a later notice in the Federal Register.

Background and Purpose
The Siesta Drive bascule bridge is a two lane narrow undivided urban arterial roadway, which is already severely congested due to insufficient capacity. The proposed rule would extend the existing 20 minute weekday schedule to cover the morning commuter period. The bridge opens less than once per hour during this period so the effect on vessels is not considered unreasonable.

Discussion of Proposed Rule
The proposed rule would allow the bridge to start its scheduled openings at 7 a.m. weekdays instead of the present 11 a.m. to 6 p.m. schedule. This should facilitate the movement of commuter traffic across the drawbridge while not unreasonably interfering with the movement of vessel traffic through the drawspans.

Regulatory Evaluation
This proposed rule is not a “significant regulatory action” under section 3(f) of Executive Order 12866 and does not require an assessment of potential costs and benefits under section 6(a)(3) of that Order. The Office of Management and Budget has not reviewed it under that Order. It is not significant under the regulatory policies and procedures of the Department of Transportation (DOT)(44 FR 11040, February 26, 1979).

We expect the economic impact of this proposed rule to be so minimal that a full Regulatory Evaluation under paragraph 10e of the regulatory policies and procedures of DOT is unnecessary. The number of openings that occur during the proposed period of additional regulations is less than once per hour and the maximum waiting time would be 20 minutes.

Small Entities
Under the Regulatory Flexibility Act (5 U.S.C. 601–612), we considered whether this proposed rule would have a significant economic impact on a substantial number of small entities. This proposed rule would affect the following entities, some of which might be small entities: the owners or operators of vessels intending to transit under the Siesta Key bridge during the hours of 7 a.m. to 11 a.m. on weekdays.

If you think that your business, organization, or governmental jurisdiction qualifies as a small entity and that this proposed rule would have a significant economic impact on it, please submit a comment (see ADDRESSES) explaining why you think it qualifies and how and to what degree this proposed rule would economically affect it.

Assistant for Small Entities
Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Public Law 104–121), we want to assist small entities in understanding this proposed rule so that
