DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Office of Public Health and Science; Request for Applications for the National Community Centers of Excellence in Women's Health (CCOE) Program

AGENCY: Office of the Secretary, Office of Public Health and Science, Office on Women's Health.

Authority: This program is authorized by 42 U.S.C. 300u-2(a)(1), 300u-3, and 300u-6(e).

Purpose: To provide recognition and funding to community-based programs that unite promising approaches in women's health through the integration of the following *six components*: (1) Comprehensive health service delivery, (2) training for lay and professional health providers, (3) community-based research, (4) public education and outreach, (5) leadership development for women as health care consumers and providers, and (6) technical assistance to ensure the replication of promising models and strategies that coordinate and integrate women's health activities at the community level and improve health outcomes for underserved women. The National Community Centers of Excellence in Women's Health (CCOE) program is not for the development of new programs or to fund direct service but rather to integrate, coordinate, and strengthen linkages between activities/programs that are already underway in the community in order to reduce fragmentation in women's health services and activities.

The proposed CCOE program must address women's health from a women-centered, women-friendly, women-relevant, holistic, multi-disciplinary, cultural and community-based perspective. Information and services provided must be at the educational level and within the language and cultural context that are most appropriate for the individuals for whom the information and services are intended. Women's health issues are defined in the context of women's lives, including their multiple social roles and the importance of relationships with other people to their lives. This definition of women's health encompasses both mental and physical health (including oral health) and spans the life course.

The CCOE program will be supported through the cooperative agreement mechanism, to allow a collaborative relationship between the CCOEs and the
