DEPARTMENT OF THE INTERIOR

Office of the Secretary

List of Programs Eligible for Inclusion in Fiscal Year 2002 Annual Funding Agreements To Be Negotiated With Self-Governance Tribes by Interior Bureaus Other Than the Bureau of Indian Affairs

AGENCY: Office of the Secretary, Interior.

ACTION: Notice.

SUMMARY: This notice lists programs or portions of programs that are eligible for inclusion in Fiscal Year 2002 annual funding agreements with self-governance tribes and lists programmatic targets for each of the non-BIA bureaus, pursuant to section 405(c)(4) of the Tribal Self-Governance Act.

DATES: This notice expires on September 30, 2002.

ADDRESSES: Inquiries or comments regarding this notice may be directed to the Office of Self-Governance (MS-2542, MIB), 1849 C Street NW., Washington, DC 20240-0001. Telephone (202) 219-0240 or to the bureau points of contact listed below.

SUPPLEMENTARY INFORMATION:

I. Background

Title II of the Indian Self-Determination and Education Assistance Act Amendments of 1994 (Pub. L. 103-413, the "Self-Governance Act" or the "Act") instituted a permanent tribal self-governance program at the Department of the Interior (DOI). Under the self-governance program certain programs, services, functions, and activities, or portions thereof, in Interior bureaus other than BIA are eligible to be planned, conducted, consolidated, and administered by a self-governance tribal government.

Under section 405(c) of the Self-Governance Act, the Secretary of the Interior is required to publish annually: (1) A list of non-BIA programs, services, functions, and activities, or portions thereof, that are eligible for inclusion in agreements negotiated under the self-governance program; and (2) programmatic targets for these bureaus.

Under the Self-Governance Act, two categories of non-BIA programs are eligible for self-governance funding agreements:

(1) Under section 403(b)(2) of the Act, any non-BIA program, service, function or activity that is administered by Interior that is "otherwise available to Indian tribes or Indians," can be administered by a tribal government through a self-governance agreement. The Department interprets this provision to authorize the inclusion of programs eligible for self-determination contracting under Title I of the Indian Self-Determination and Education Assistance Act (Pub. L. 93-638). Section 403(b)(2) also specifies that "nothing in this subsection may be construed to provide any tribe with a preference with respect to the opportunity of the tribe to administer programs, services, functions and activities, or portions thereof, unless such preference is otherwise provided for by law."

(2) Under section 403(c) of the Act, the Secretary may include other programs, services, functions, and activities, or portions thereof, that are of "special geographic, historical, or cultural significance" to a self-governance tribe.

Under section 403(k) of the Self-Governance Act, annual agreements cannot include programs, services, functions, or activities that are inherently Federal or where the statute establishing the existing program does not authorize the type of participation sought by the tribe. However, a tribe (or tribes) need not be identified in the authorizing statutes in order for a program or element to be included in a self-governance agreement. While general legal and policy guidance regarding what constitutes an inherently Federal function exists, we will determine whether a specific function is inherently Federal on a case-by-case basis considering the totality of circumstances.

Response to Comments

The Department provided the proposed list to the Self-Governance Tribes at the semi-annual Tribal Self-Governance Fall Conference held in Nashville, Tennessee on October 10-12, 2000. No comments were received. Several minor editorial and technical change provided by Interior's bureaus were incorporated.

III. Eligible Programs of the Department of the Interior non-BIA Bureaus

Below is a listing by bureau of the types of non-BIA programs, or portions thereof, that may be eligible for self-governance annual funding agreements because they are either "otherwise available to Indians" under Title I and not precluded by any other law, or may have "special geographic, historical, or cultural significance" to a participating tribe. The lists represent the most current information on programs potentially available to Tribes under a Self-Governance agreement.

The Department will also consider for inclusion in annual funding agreements other programs or activities not included below, but which, upon request of a self-governance tribe, the Department determines to be eligible under either sections 403(b)(2) or 403(c) of the Act. Tribes with an interest in such potential agreements are encouraged to begin discussions with the appropriate non-BIA bureau.

A. Eligible Programs of the Bureau of Land Management (BLM)

BLM management responsibilities cover a wide range of areas, such as recreational activities, timber, range and minerals management, wildlife habitat management and watershed restoration. In addition, BLM is responsible for the survey of certain Federal and tribal lands. Two programs provide tribal services: (1) Tribal and allottee minerals management; and (2) Survey of tribal and allottee lands.

BLM carries out some of its activities in the management of public lands through contracts and cooperative agreements. These and other activities, dependent upon availability of funds, the need for specific services, and the Self-Governance tribe demonstrating a special geographic, cultural, or historical connection, may also be available for inclusion in self-governance agreements. Once a tribe has made initial contact with BLM, more specific information will be provided by the respective BLM State office.

Tribal Services

1. *Cadastral Survey*. Tribal and allottee cadastral survey services are already available for contracts under Title I of the Act and therefore may be available for inclusion in an annual funding agreement.

2. *Minerals Management*. Inspection and enforcement of Indian oil and gas operations, and inspection, enforcement and production verification of Indian coal and sand and gravel operations: Are already available for contracts under Title I of the Act and therefore may be available for inclusion in an annual funding agreement.

Other Activities

1. *Cultural Heritage*. Cultural heritage activities, such as research and inventory, may be available in specific States.

2. *Forestry Management*. Activities, such as environmental studies, tree planting, thinning and similar work, may be available in specific States.

3. *Range Management*. Activities, such as re-vegetation, noxious weed control, fencing, construction and maintenance of range improvements, grazing management experiments, range monitoring, and similar activities, may be available in specific States.

4. *Riparian Management*. Activities, such as facilities construction, erosion control, rehabilitation, and similar activities, may be available in specific States.

5. *Recreation Management*. Activities, such as facilities construction and maintenance, interpretive design and construction, and similar activities, may be available in specific States.

7. *Wild Horse Management*. Activities such as wild horse round ups, removal, and disposition, including operation and maintenance of wild horse facilities may be available in specific States.

The above programs under "Other Activities" are available in many states for competitive contracting. However, if they are of special geographic, historical or cultural significance to a participating Self-Governance tribe, they may be available for annual funding agreements. Tribes may also discuss additional BLM-funded activities with the relevant State office in relation to negotiating specific self-governance agreements.

For questions regarding Indian Self-Governance, contact Jerry Cordova,

Bureau of Land Management, 1849 C Street NW., Washington, DC 20240-0001, telephone: (202) 452-7756, tax: (202) 452-7701. General information on all contracts available in a given year through the BLM can be obtained from the BLM National Business Center, P.O. MMS provides stewardship of America's offshore resources and collects revenues generated from mineral leases on Federal and Indian lands. MMS is responsible for the management of the Federal Outer Continental Shelf, which are submerged lands off the coasts that have significant energy and mineral resources. Within the offshore minerals management program, environmental impact

assessments and statements, and environmental studies, may be available if a self-governance tribe demonstrates a special geographic, cultural, or historical connection.

MMS also offers mineral-owning tribes other opportunities to become involved in MMS's Royalty Management Program functions. These programs address the intent of Indian self-governance but are available regardless of self-governance intentions or status and are a good prerequisite for assuming other technical functions. Generally, royalty management programs are available to self-governance tribes are as follows:

1. *Audit of tribal royalty payments.* Audit activities for tribal leases, except for the issuance of orders, final valuation decisions, and other enforcement activities. (For tribes already participating in MMS delegated audits, this program is offered as an optional alternative.)

2. *Verification of tribal royalty payments.* Financial compliance verification and monitoring activities, production verification, and appeals research and analysis.

3. *Tribal royalty reporting, accounting and data management.* Establishment and management of royalty reporting and accounting systems including document processing, production reporting, reference data (lease, payor, agreement) management, billing and general ledger.

MMS will install equipment at tribal locations, train tribal staff, and assist tribe in researching and monitoring all payments, reports, accounts, and historical information regarding their leases.

7. *Royalty Internship Program.* A new orientation and training program for auditors and accountants from mineral producing tribes to acquaint tribal staff with royalty laws, procedures, and techniques. This program is recommended for tribes that are considering a self-governance agreement but have not yet acquired mineral revenue expertise via a FOGRMA section 202 contract.

Information includes maps, data bases, and descriptions and analyses of the water, plants, animals, energy, and mineral resources, land surface, underlying geologic structure and dynamic processes of the earth. Information on these scientific issues is developed through extensive research, field studies, and comprehensive data collection to: evaluate natural hazards such as earthquakes, volcanoes, landslides, floods, droughts, subsidence and other ground failures; assess energy, mineral, and water resources in terms of their quality, quantity, and availability; evaluate the habitats of animals and plants; and produce geographic, cartographic, and remotely-sensed information in digital and non-digital formats.
