SUPPLEMENTARY INFORMATION:

Title: 7 CFR part 210, National School Lunch Program.

OMB Number: 0584-0006.

Expiration Date: February 28, 2001.

Type of Request: Extension of a currently approved collection.

Abstract: The National School Lunch Act of 1946 (NSLA), as amended, authorizes the National School Lunch Program (NSLP). The Department of Agriculture provides States with general and special cash assistance and donations of foods to assist schools in serving nutritious lunches to children each school day. Participating schools must serve lunches that are nutritionally adequate and to the extent practicable ensure that participating children gain a full understanding of the relationship between proper eating and good health.

The Department of Agriculture prescribes the nutritional requirements of the lunches in accordance with Subsection 9(a) of the NSLA (42 U.S.C. 1758(a)). That provision requires that "Lunches served by schools participating in the school lunch program under this Act shall meet minimum nutritional requirements prescribed by the Secretary on the basis of tested nutritional research * * *."

On June 8, 2000, the Department published in the **Federal Register** (65 FR 36315) an interim rule which allows schools to offer foods that consist of up to 100 percent alternate protein products. In so doing, school food authorities that already provide menus or otherwise communicate with program participants must identify products or dishes with more than 30 percent alternate protein products in a manner which does not characterize it solely as beef, pork, poultry or seafood products or dishes. This could include information provided on serving lines and does not require that school food authorities use menus or other methods of communication. This provision allows program participants to make informed decisions about their food choices under the school meals programs and is referred to as a third-

party disclosure requirement. Although this provision is in effect, this Notice affords the public an opportunity to again comment on the burden associated with the Identification of Blended Beef, Pork, Poultry or Seafood Products rule.

The purpose of this Notice is also to request an extension of the Information Collection Budget for the NSLP and in accordance with the Paperwork Reduction Act of 1995, and to allow the public 60 days to comment on all reporting and recordkeeping burdens as indicated under the *Estimated Total Annual Burden on Respondents* below. The information being requested is required to administer and operate this program in accordance with the NSLA, as amended. The Program is administered at the State and school food authority levels and the operations include the submission and approval of applications, execution of agreements, submission of claims, payment of claims and, monitoring and providing technical assistance. All of the reporting and recordkeeping requirements associated with the NSLP are currently approved by the Office of Management and Budget and are in force.

Respondents: State agencies, school food authorities, schools.

Estimated Number of Respondents: 118,051 respondents.

Average Number of Responses per Respondent: The number of responses is estimated to be 160 responses per respondent per year.

Estimated Total Annual Burden on Respondents: The recordkeeping hours are estimated at 8,336,342, and the reporting burden hours are estimated at 1,126,280, for an estimated total annual burden of 9,462,622.

Dated: January 16, 2001.

Samuel Chambers, Jr.,
Administrator.
