Abstract: This survey is submitted under the system clearance for Quick Response Information System (QRIS) surveys (that covers the Fast Response Survey System, also known as FRSS). It meets the conditions of that clearance: short, policy-relevant, one-time surveys that go to a small sample. This survey is designed to learn about the extent to which programs exist in public schools to serve primarily 3- and 4-year-old children before they begin kindergarten. It contains questions about whether these programs are full- or part-day; whether the programs are designed to

meet the needs of special needs children (those with disabilities or limited English proficiency) or for all students; questions about whether other services are offered, such as meals and transportation; and questions about sources of funding for these programs; and finally questions about teacher characteristics.
