

entered in the proceeding on the petitioner's interest. The petition should also identify the specific aspect(s) of the subject matter of the proceeding as to which petitioner wishes to intervene. Any person who has filed a petition for leave to intervene or who has been admitted as a party may amend the petition without requesting leave of the Board up to 15 days prior to the first prehearing conference scheduled in the proceeding, but such an amended petition must satisfy the specificity requirements described above.

Not later than 15 days prior to the first prehearing conference scheduled in the proceeding, a petitioner shall file a supplement to the petition to intervene which must include a list of the contentions which are sought to be litigated in the matter. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner shall provide a brief explanation of the bases of the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to those specific sources and documents of which the petitioner is aware and on which the petitioner intends to rely to establish those facts or expert opinion. Petitioner must provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. Contentions shall be limited to matters within the scope of the amendment under consideration. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to file such a supplement which satisfies these requirements with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene, and have the opportunity to participate fully in the conduct of the hearing, including the opportunity to present evidence and cross-examine witnesses.

A request for a hearing or a petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, by the above date. A copy of the petition should also be sent to the Office of the

General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to Mr. Jeffrie J. Keenan, Esquire, Nuclear Business Unit—N21, P.O. Box 236, Hancocks Bridge, NJ 08038, attorney for the licensee.

Nontimely filings of petitions for leave to intervene, amended petitions, supplemental petitions and/or requests for hearing will not be entertained absent a determination by the Commission, the presiding officer or the presiding Atomic Safety and Licensing Board that the petition and/or request should be granted based upon a balancing of the factors specified in 10 CFR 2.714(a)(1)(i)-(v) and 2.714(d).

If a request for a hearing is received, the Commission's staff may issue the amendment after it completes its technical review and prior to the completion of any required hearing if it publishes a further notice for public comment of its proposed finding of no significant hazards consideration in accordance with 10 CFR 50.91 and 50.92.

For further details with respect to this action, see the application for amendment dated November 10, 2000, which is available for public inspection at the Commission's Public Document Room, located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland, and accessible electronically through the ADAMS Public Electronic Reading Room link at the NRC Web site (<http://www.nrc.gov>).

Dated at Rockville, Maryland, this 23rd day of January 2001.

For the Nuclear Regulatory Commission.

## **NUCLEAR REGULATORY COMMISSION**

### **Meeting Concerning The Revision of the Oversight Program for Nuclear Fuel Cycle Facilities**

**AGENCY:** Nuclear Regulatory Commission (NRC).

**ACTION:** Notice of Public Meeting.

**SUMMARY:** NRC will hold a public meeting at the NRC Headquarters location at 11555 Rockville Pike, in Rockville, MD to provide the public, those regulated by the NRC, and other stakeholders with information about, and an opportunity to provide views on,

how NRC plans to revise its oversight program for nuclear fuel cycle facilities. This meeting follows the December 20, 2000 briefing to the Commission by NRC staff and external stakeholders on this subject. Presentations and other documents provided at each meeting are placed on the NRC INTERNET web page (<http://www.nrc.gov>).

Similar to the revision of the oversight program for commercial nuclear power reactor plants, NRC initiated an effort to improve its oversight program for nuclear fuel cycle facilities. This effort is described in SECY-99-188, "Evaluation and Proposed Revision of the Nuclear Fuel Cycle Facility Safety Inspection Program," and in SECY-00-0222, "Status of Nuclear Fuel Cycle Facility Oversight Program Revision." SECY-99-188 and SECY-00-0222 are available in the Public Document Room and on the NRC Web Page at <http://www.nrc.gov/NRC/COMMISSION/SECYS/index.html>.

*Purpose of Meeting:* To obtain stakeholder views for improving the NRC oversight program for ensuring fuel cycle licensees and certificate holders maintain protection of worker and public health and safety, protection of the environment, and safeguards for special nuclear material and classified matter in the interest of national security. The oversight program applies to commercial nuclear fuel cycle facilities regulated under 10 CFR Parts 40, 70, and 76. The facilities currently include gaseous diffusion plants, highly enriched uranium fuel fabrication facilities, low-enriched uranium fuel fabrication facilities, and a uranium hexafluoride (UF<sub>6</sub>) production facility. These facilities possess large quantities of materials that are potentially hazardous (i.e., radioactive, toxic, and/or flammable) to the workers, public, and environment. Also, some of the facilities possess information and material important to national security. In revising the oversight program, the goal is to have an oversight program that: (1) Provides earlier and more objective indications of facility performance in the areas of safety and national security, (2) increases stakeholder confidence in the NRC, and (3) increases regulatory effectiveness, efficiency, and realism. To achieve this goal, the NRC desires the revised oversight program to be more risk-informed and performance-based.

The public meeting will focus on the next actions and schedule in the project to revise the oversight program. A final draft project work plan has been posted on the NRC Technical Conference website at <http://techconf.llnl.gov/cgi->

*bin/topics*. This work plan will be the main agenda item.

**DATES:** Members of the public, industry, and other stakeholders are invited to attend and participate in the meeting, which is scheduled for 10:00 a.m. to 1:00 p.m. on Thursday, February 8, 2001. The meeting will be held in the One White Flint North building in conference room O-16B4.

**ADDRESSES:** NRC Headquarters, 11555 Rockville Pike, in Rockville, MD. Visitor parking around NRC Headquarters is limited; however, the public meeting site may be reached by taking the Washington DC area metro to White Flint. NRC Headquarters is located across the street from the White Flint metro station.

**FOR FURTHER INFORMATION, CONTACT:** Patrick Castleman, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555, telephone (301) 415-8118, e-mail [pic@nrc.gov](mailto:pic@nrc.gov).

Dated at Rockville, Maryland this 23 day of January 2001.

For the Nuclear Regulatory Commission.

## NUCLEAR REGULATORY COMMISSION

### Advisory Committee on Reactor Safeguards

#### Subcommittee Meeting on Thermal-Hydraulic Phenomena; Notice of Meeting

The ACRS Subcommittee on Thermal-Hydraulic Phenomena will hold a meeting on February 20, 2001, Room T-2B3, 11545 Rockville Pike, Rockville, Maryland.

Portions of the meeting may be closed to public attendance to discuss proprietary information per 5 U.S.C. 552b(c)(4) pertinent to the Electric Power Research Institute.

The agenda for the subject meeting shall be as follows:

*Tuesday, February 20, 2001—8:30 a.m. until the conclusion of business*

The Subcommittee will (1) continue its review of the Electric Power Research Institute RETRAN-3D thermal-hydraulic transient analysis code, and (2) discuss the status of the NRC staff's pending reviews of industry thermal-hydraulic codes. The purpose of this meeting is to gather information, analyze relevant issues and facts, and to formulate proposed positions and actions, as appropriate, for deliberation by the full Committee.

Oral statements may be presented by members of the public with the concurrence of the Subcommittee Chairman. Written statements will be accepted and made available to the Committee. Electronic recordings will be permitted only during those portions of the meeting that are open to the public, and questions may be asked only by members of the Subcommittee, its consultants, and staff. Persons desiring to make oral statements should notify the cognizant ACRS staff engineer named below five days prior to the meeting, if possible, so that appropriate arrangements can be made.

During the initial portion of the meeting, the Subcommittee, along with any of its consultants who may be present, may exchange preliminary views regarding matters to be considered during the balance of the meeting.

The Subcommittee will then hear presentations by and hold discussions with representatives of the Electric Power Research Institute, the NRC staff, and other interested persons regarding this review.

Further information regarding topics to be discussed, whether the meeting has been canceled or rescheduled, and the Chairman's ruling on requests for

the opportunity to present oral statements and the time allotted therefor, can be obtained by contacting the cognizant ACRS staff engineer, Mr. Paul A. Boehmert (telephone 301-415-8065) between 7:30 a.m. and 4:30 p.m. (EST). Persons planning to attend this meeting are urged to contact the above named individual one or two working days prior to the meeting to be advised of any potential changes to the agenda, etc., that may have occurred.

Date: January 24, 2001.

**James E. Lyons,**

*Associate Director for Technical Support.*

## NUCLEAR REGULATORY COMMISSION

### Sunshine Act Meeting

**AGENCY HOLDING THE MEETING:** Nuclear Regulatory Commission.

**DATE:** Weeks of January 29, February 5, 12, 19, 26, March 5, 2001.

**PLACE:** Commissioners' Conference Room, 11555 Rockville Pike, Rockville, Maryland.

**STATUS:** Public and Closed.

**MATTERS TO BE CONSIDERED:**

*Week of January 29, 2001*

Tuesday, January 30, 2001

9:30 a.m.—Briefing on Status of Nuclear Waste Safety (Public Meeting) (Contact: Claudia Seelig, 301-415-7243)

This meeting will be webcast live at the Web address—[www.nrc.gov/live.html](http://www.nrc.gov/live.html)

Wednesday, January 31, 2001

9:25 a.m.—Affirmation Session (Public Meeting) (Tentative)

a: Fansteel, Inc. (Muskogee, Oklahoma Site); Parties' Joint Motion to Dismiss Fansteel, Inc.'s Appeal of the Presiding Officer's Decision to Grant a Hearing

b: HYDRO RESOURCES, INC. Commission Review of LBP-99-40 (Presiding Officer decision holding proceeding in abeyance); Commission Review of last half of LBP-99-30 (Presiding Officer decision on NEPA/Environmental Justice)

9:30 a.m.—Briefing on Status of OCIO Programs, Performance, and Plans (Public Meeting) (Contact: Donnie Grimsley, 301-415-8702)

This meeting will be webcast live at the Web address—[www.nrc.gov/live.html](http://www.nrc.gov/live.html)
