I. Abstract

The Departments of Commerce and Treasury are required to determine whether nonprofit institutions established for scientific or educational purposes are entitled to duty-free entry under the Florence Agreement of certain scientific instruments they import. Without the collection of the information, Treasury and Commerce would not have the necessary information to carry out the responsibilities of determining eligibility for duty-free entry assigned by law.

II. Method of Collection

The Department of Commerce distributes Form ITA-338P to potential applicants upon request. The applicant completes the form and then forwards it to the United States Customs Service. Upon acceptance by Customs as a valid application, the application is transmitted to Commerce for processing.

[I.D. 010901B]

Incidental Take of Marine Mammals; Taking of Ringed Seals Incidental to On-ice Seismic Activities

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of issuance of a letter of authorization.

SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended, notification is hereby given that a letter of authorization to take ringed and bearded seals incidental to on-ice seismic operations in the Beaufort Sea off Alaska was issued on January 22, 2001, to Western Geophysical of Anchorage, AK.

DATES: This letter of authorization is effective from January 22, 2001, through May 31, 2001.

ADDRESSES: The application and letter is available for review in the following

offices: Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910, and Western Alaska Field Office, NMFS, 701 C Street, Anchorage, AK 99513.

FOR FURTHER INFORMATION CONTACT: Kenneth R. Hollingshead, NMFS, (301) 713-2055, ext 128 or Brad Smith, Western Alaska Field Office, NMFS, (907) 271-5006.

SUPPLEMENTARY INFORMATION: Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 *et seq.*) directs NMFS to allow, on request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region, if certain findings are made by NMFS and regulations are issued. Under the MMPA, the term "taking" means to harass, hunt, capture, or kill or to attempt to harass, hunt, capture or kill marine mammals.

Permission may be granted for periods up to 5 years if NMFS finds, after notification and opportunity for public comment, that the taking will have a negligible impact on the species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of the species or stock(s) for subsistence uses. In addition, NMFS must prescribe regulations that include permissible methods of taking and other means effecting the least practicable adverse impact on the species and its habitat and on the availability of the species for subsistence uses, paying particular attention to rookeries, mating grounds, and areas of similar significance. The regulations must include requirements pertaining to the monitoring and reporting of such taking. Regulations governing the taking of ringed and bearded seals incidental to on-ice seismic surveys were published on February 2, 1998 (63 FR 5277), and remain in effect until December 31, 2002.

Summary of Request

NMFS received a request for a letter of authorization on September 11, 2000, from Western Geophysical. This letter requested a take by harassment of a small number of ringed seals and bearded seals incidental to conducting vibroseis surveys in the Beaufort Sea off Alaska.

Issuance of the letter of authorization is based on findings that the total takings by this activity will have a negligible impact on the ringed seal stocks of the Western Beaufort Sea and that the applicant has met the requirements contained in the
