Childhood Lead Poisoning Prevention Programs (CLPPP); Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a cooperative agreement program for new State and competing continuation State programs to develop and improve Childhood Lead Poisoning Prevention activities which include building Statewide capacity to conduct surveillance of blood lead levels in children. CDC is committed to achieving the health promotion and disease prevention objectives of A Healthy People, a national activity to reduce morbidity and mortality and improve the quality of life. This announcement is related to the focus area of Environmental Health. For a copy of "Healthy People 2010," (Full Report: Stock No. 017-001-00547-9), write or call: Superintendent of Documents, Government Printing Office, Washington, DC 20402-9325, telephone (202) 512-1800 or visit the Internet site: <http://www.health.gov/healthypeople/>.

The purpose of this program is to provide the impetus for the development, implementation, expansion, and evaluation of State and local childhood lead poisoning prevention program activities which include Statewide surveillance capacity to determine areas at high-risk for lead exposure. Also, this cooperative agreement is to carry out the core public health functions of Assessment, Policy Development, and Assurance in childhood lead poisoning prevention programs.

Funding for this program will be to:

1. Develop and/or enhance a surveillance system that monitors all blood lead levels (BLLs).
2. Assure screening of children who are at high-risk of lead exposure and follow-up care for children who are identified with elevated BLLs.
3. Assure awareness and intervention for the general public and affected professionals in relation to preventing childhood lead poisoning.
4. Expand primary prevention of childhood lead poisoning in high-risk areas in collaboration with appropriate government and community-based organizations.
