

Individual responses to comments will not be provided

The Quino checkerspot is found in association with topographically diverse landscapes that contain low to moderate levels of non-native vegetation.

Vegetation types that support the Quino checkerspot are coastal sage scrub, open chaparral, juniper woodland, forblands, and native grassland. Soil and climatic conditions, as well as ecological and physical factors, affect the suitability of habitat within the species' range. Urban and agricultural development, invasion of non-native species, habitat fragmentation and degradation, increased fire frequency, and other human-caused disturbances have resulted in substantial losses of habitat throughout the species' historic range. Conservation needs include protection and management of suitable and restorable habitat; habitat restoration and enhancement; and establishment of Quino checkerspot captive breeding program. This plan identifies six Recovery Units. Recovery Units are geographically bounded areas containing extant Quino checkerspot populations that are the focus of recovery actions or tasks. Recovery Units include lands both essential and not essential to the long-term conservation of the Quino checkerspot.

The overall objective of this recovery plan is to reclassify the Quino checkerspot to threatened and ensure the species' long-term conservation. Interim goals include (1) protect habitat supporting known current population distributions (habitat complexes), and (2) stabilize populations within known population distributions (described habitat complexes), and (3) conduct research necessary to refine recovery criteria. Reclassification is appropriate when a taxon is no longer in danger throughout a significant portion of its range.

Downlisting of the Quino checkerspot butterfly in southern California is contingent upon the following criteria: (1) Permanently protect habitat patches supporting known extant population distributions (habitat complexes) and possible landscape connectivity areas among them, (2) Permanently provide for and implement management of described habitat complexes to restore habitat quality, including maintenance of hostplant populations, maintenance of diverse nectar sources and pollinators, control of non-native plant invasion, and maintenance of internal landscape connectivity, (3) Establish and maintain a captive propagation program for purposes of re-introduction and augmentation of wild populations, maintenance of refugia populations, and

research, (4) Initiate and implement a cooperative educational outreach program targeting areas where Quino checkerspot populations are most threatened, (5) Two additional populations or metapopulations must be documented or introduced in the remaining undeveloped coastal areas of the Quino checkerspot's historic range, (6) The managed, protected population or metapopulation segments within currently described habitat complexes must demonstrate stability (constancy or resilience) without augmentation, and (7) conduct research needed to refine management strategies and to develop delisting criteria.

The draft plan was developed with primary contributions from a recovery team of scientists from the University of California at Riverside, the University of California at Los Angeles, RECON Inc. (San Diego), the University of Nevada at Reno, and the University of Texas (Austin) with expertise in different aspects of *Euphydryas editha* biology.

Public Comments Solicited

The Service solicits written comments on the recovery plan described. All comments received by the date specified above will be considered prior to approval of this plan.

Authority: The authority for this action is section 4(f) of the Endangered Species Act, 16 U.S.C. 1533(f).

Dated: January 11, 2001.

Michael J. Spear,

Manager, California/Nevada Operations Office, Region 1, U.S. Fish and Wildlife Service.

Meeting of the Alaska Migratory Bird Co-management Council

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of meeting.

SUMMARY: The Alaska Migratory Bird Co-management Council has scheduled a public meeting to develop recommendations for regulations for the spring/summer migratory bird subsistence harvest for the period March 10 to September 1, 2002. In addition to developing recommended regulations, the Co-management Council will finalize by-laws which will guide future deliberations of the Council.

DATES: The Co-management Council will meet February 26-28, 2001.

ADDRESSES: The meeting will be conducted at the Hawthorn Suites Hotel at 1110 W. 8th Avenue in Anchorage, Alaska.

FOR FURTHER INFORMATION CONTACT: For additional information call Mimi Hogan at 907/786-3673 or Bob Stevens at 907/786-3499. Individuals with a disability who may need special accommodations in order to participate in the public comment portion of the meeting should call one of the above numbers.

SUPPLEMENTARY INFORMATION: The U.S. Fish and Wildlife Service formed the Alaska Migratory Bird Co-Management Council, which includes Native, state, and federal representatives as equals, by means of a Notice of Decision published in the **Federal Register**, 65 FR 16405-16409, March 28, 2000. Amended migratory bird treaties with Canada and Mexico required the formation of such a management body. The Co-management Council will make recommendations for, among other things, regulations for spring/summer harvesting of migratory birds in Alaska. In addition to creation of the Co-management Council, the Notice of Decision identified seven geographic regions. Each region will submit to the Co-management Council requests for specific regulations for its area. The Co-management Council will then develop recommendations for statewide regulations and submit them to the Fish and Wildlife Service for approval.

The meeting of the Co-management Council will begin on Monday, February 26 at 1:00 p.m. Sessions on February 27 and 28 will begin at 8:00 a.m. The public is invited to attend. The Co-management Council will provide opportunities for public comment on agenda items. Agendas will be available at the door.

Dated: January 19, 2001.

David B. Allen,

Regional Director, Anchorage, Alaska.

RIN 1018-AG47

Policy on Maintaining the Biological Integrity, Diversity, and Environmental Health of the National Wildlife Refuge System: Delay of Effective Date

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Final policy; delay of effective date.

SUMMARY: In accordance with the memorandum of January 20, 2001, from the Assistant to the President and Chief of Staff, entitled "Regulatory Review Plan," published in the **Federal Register** on January 24, 2001 (66 FR 7701), this document temporarily delays for 60 days the effective date of the document entitled "Policy on Maintaining the Biological Integrity, Diversity, and Environmental Health of the National Wildlife Refuge System; Notice," published in the **Federal Register** on January 16, 2001 (66 FR 3809). This policy guides personnel of the National Wildlife Refuge System in implementing the clause of the National Wildlife Refuge System Improvement Act of 1997 directing the Secretary of the Interior to ensure that the "biological integrity, diversity, and environmental health" of the System is maintained.

DATES: The effective date of the Policy on Maintaining the Biological Integrity, Diversity, and Environmental Health of the National Wildlife Refuge System published in the **Federal Register** on January 16, 2001, at 66 FR 3809, is delayed for 60 days, from February 15, 2001, to a new effective date of April 16, 2001.

FOR FURTHER INFORMATION CONTACT: Elizabeth Souheaver, Acting Chief, Division of Natural Resources, National Wildlife Refuge System, U.S. Fish and Wildlife Service, 4401 North Fairfax Drive, Room 670, Arlington, Virginia 22203; telephone (703) 358-1744.

SUPPLEMENTARY INFORMATION: To the extent that 5 U.S.C. section 553 applies to this action, this action is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. section 553(b)(A). Alternatively, the Department's implementation of this action without opportunity for public comment, effective immediately upon publication today in the **Federal Register**, is based on the good cause exceptions in 5 U.S.C. sections 553(b)(3)(B) and 553(d)(3), in that seeking public comment is impractical, unnecessary and contrary to the public interest. The temporary 60-day delay in effective date is necessary to give Department officials the opportunity for further review and consideration of new regulations, consistent with the Assistant to the President's memorandum of January 20, 2001. Given the imminence of the effective date, seeking prior public comment on this temporary delay would have been impractical, as well as contrary to the public interest in the orderly promulgation and implementation of regulations.

Dated: February 2, 2001.

Timothy S. Elliott,

Acting Deputy Solicitor.

Bureau of Land Management

[ID-070-1020-PG]

Resource Advisory Council Meeting; Upper Snake River District

AGENCY: Bureau of Land Management, Interior.

ACTION: Resource Advisory Council meeting locations and times

SUMMARY: In accordance with the Federal Land Policy and Management Act and the Federal Advisory Committee Act of 1972 (FACA), 5 U.S.C., the Department of the Interior, Bureau of Land Management (BLM) meeting of the Upper Snake River District Resource Advisory Council (RAC) will be held as indicated below. The agenda for this two-day meeting will include updates on the designation of an expanded Craters of the Moon, Fire Management Planning, the Shoshone Land Use Plan Amendments, Sage Grouse Studies in the Lower Snake River District as a starting point for studies in this District, and Selenium cleanup in the Pocatello Field Office. The agenda may change as other issues warrant between publication of this notice and the meeting. All meetings are open to the public. The public may present written or oral comments to the council. Each formal council meeting will have a time allocated for hearing public comments. Individuals who plan to attend and need further information about the meetings, or need special assistance such as sign language interpretation or other reasonable accommodations should contact David Howell at the Upper Snake River District Office, 1405 Hollipark Dr., Idaho Falls, ID 83401, or telephone (208) 524-7559.

DATES AND TIMES: The next meeting will be held February 21-22, 2000 at the Best Western Burley Inn, address in Burley, Idaho. An executive session of the RAC will begin at 1 p.m., and the full RAC meeting will begin at 2 p.m. The meeting will conclude no later than 3 p.m. the following day. Public comments, if any, will be scheduled from 2:00 to 2:30 p.m. on February 21, 2001.

SUPPLEMENTARY INFORMATION: The purpose of the Resource Advisory

Council is to advise the Secretary of the Interior, through the BLM, on a variety of planning and management issues associated with the management of the of the public lands.

FOR FURTHER INFORMATION CONTACT:

David Howell, Upper Snake River District, 1405 Hollipark Dr., Idaho Falls, ID 83401, (208) 524-7559.

Dated: January 19, 2001.

Joe Kraayenbrink,

Idaho Falls Field Manager.

Bureau of Land Management

[NV-930-1430-ET; N-62297]

Cancellation of Proposed Withdrawal; Nevada

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Bureau of Land Management has canceled its withdrawal application to protect resource values and open space in southern Washoe County.

FOR FURTHER INFORMATION CONTACT: Dennis J. Samuelson, BLM Nevada State Office, P.O. Box 12000, Reno, Nevada 89520, 775-861-6532.

SUPPLEMENTARY INFORMATION: A Notice of Proposed Withdrawal was published as FR Doc. 98-18016 in the **Federal Register**, 63 FR 36937-36940, July 8, 1998, for the Bureau of Land Management to withdraw 15,757.14 acres of reserved Federal minerals from mining and 166,906.28 acres of public land from surface entry and mining, but not from sales, exchanges, recreation and public purposes, or mineral leasing to protect resource values and open space in the southern Washoe County urban, suburban, and rural residential areas. This proposed withdrawal has been superseded by a subsequent proposal.

The segregative effect for the lands described in the notice terminated in accordance with said notice on July 7, 2000, subject to valid existing rights, the provisions of existing withdrawals, other segregations of record, and the requirements of applicable law.

Dated: February 1, 2001.

Jim Stobaugh,

Lands Team Lead.
