Delaware Water Gap National Recreation Area Citizen Advisory Commission Meeting

AGENCY: National Park Service, Interior.

ACTION: Notice of meeting.

SUMMARY: This notice announces three public meetings of the Delaware Water Gap National Recreation Area Citizen Advisory Commission. Notice of these meetings is required under the Federal Advisory Committee Act (Public Law 92–463).

MEETING DATE AND TIME: Thursday, March 8, 2001 at 7 p.m.

SNOW DATE: Thursday, March 15, 2001 at 7 p.m.

Address: Bushkill Visitor Center, U.S. Route 209, Bushkill, PA 18324.

Annual Meeting of Citizen Advisory Commission

Meeting Date and Time: Thursday, March 8, 2001 immediately following the 7 p.m. meeting.

Snow Date: Thursday, March 15, 2001.

Address: Bushkill Visitor Center, U.S. Route 209, Bushkill, PA 18324.

Meeting Date and Time: Saturday, June 9, 2001, at 9 a.m.

Address: New Jersey District Office, Walpack, NJ.

The agenda will include reports from Citizen Advisory Commission committees. Superintendent Bill Laitner will give a report on various park issues. The meeting will be open to the public and there will be an opportunity for public comment on these issues. The annual meeting will consist of election of officers for the 2001–2002 term.

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Colorado Historical Society, Denver, CO

AGENCY: National Park Service.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Colorado Historical Society, Denver, CO.

This notice is published as part of the National Park Service’s administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains and associated funerary objects was made by Colorado Historical Society professional staff in consultation with representatives of the Arapahoe Tribe of the Wind River Reservation, Wyoming; Cheyenne-Arapaho Tribes of Oklahoma; Comanche Indian Tribe, Oklahoma; Fort Sill Apache Tribe of Oklahoma; Kiowa Indian Tribe of Oklahoma; Northern Cheyenne Tribe of the Northern Cheyenne Indian Reservation, Montana; Oglala Sioux Tribe of the Pine Ridge Reservation, South Dakota; Pawnee Nation of Oklahoma; Rosebud Sioux Tribe of the Rosebud Indian Reservation, South Dakota; Southern Ute Tribe of the Southern Ute Reservation, Colorado; Three Affiliated Tribes of the Fort Berthold Reservation, North Dakota; Ute Indian Tribe of the Uintah & Ouray Reservation, Utah; and Ute Mountain Tribe of the Ute Mountain Reservation, Colorado, New Mexico & Utah. The following tribes were invited, but were unable to participate in consultations: Apache Tribe of Oklahoma; Jicarilla Apache Tribe of the Jicarilla Apache Indian Reservation, New Mexico; Shoshone Tribe of the Wind River Reservation, Wyoming; and Wichita and Affiliated Tribes (Wichita, Keechi, Waco & Tawakoni), Oklahoma.

In 1935, human remains representing one individual consisting of a scalplock were donated to the Colorado Historical Society by David H. Moffat, a well-known businessman who settled in Colorado about 1860. The circumstances under which Mr. Moffat acquired the scalplock are not clear. Museum documentation and accession records indicate that the individual is Native American. No known individual was identified. No associated funerary objects are present.

In May 1934, human remains representing one individual consisting of a partial skull were donated to the Colorado Historical Society by Jay Monaghan of Meeker, Colorado. According to the society’s accession records, Mr. Monaghan found the skull on Skull Creek in Moffat County, Colorado, approximately 90 miles from Craig, Colorado. Museum documentation and examination of the skull indicate that the individual is Native American. No known individual was identified. No associated funerary objects are present.

In 1936, human remains representing one individual were donated to the Colorado Historical Society by Nina Nicholas. The remains, consisting of a fragment of mandible and maxilla, along with loose teeth, were found in a sandpit near Boyero, Lincoln County, Colorado. Physical examination of the teeth indicates that this individual is Native American. No known individual was identified. No associated funerary objects are present.

In 1913, human remains representing a minimum of one individual were donated to the Colorado Historical Society. The remains, consisting of a skull and mandible of an adult male, were found in Denver, Colorado, during a building construction project. The face, base, and right side of the skull are missing. A tag attached to the mandible states, “It is doubtful if this jaw belonged to the present skull, although they have been kept together.” In the opinion of the anthropologist who assessed these remains in 1981, the skull and mandible “may or may not belong together.” Mr. Hummert also noted that the teeth indicate that this individual differs from Anasazi populations, supporting the probable provenience of this person from the eastern plains of Colorado. Based on physical examination, the remains probably have greater antiquity than the Euro-American occupation period of the Denver area. This individual is therefore presumed to be Native American. No known individual was identified. No associated funerary objects are present.

In September 1936, human remains representing one individual were donated to the Colorado Historical Society by Joseph M. Crow of Hooper, Colorado. Mr. Crow found the remains at the Sand Dunes in the San Luis Valley of Colorado. Physical examination indicates that the remains, consisting of a partial skull and mandible, are from an individual approximately 16 years of age. Wear on the teeth indicates that this individual is Native American. No known individual was identified. No associated funerary objects are present.

On April 16, 1942, human remains representing one individual were donated to the Colorado Historical Society by Guy P. Walsh of Wray, Colorado. Records indicate that the remains were probably found by a Mr. White near Bayfield, Colorado. Physical examination of the remains indicates that the remains, consisting of a skull and mandible from an adult female, 30–35 years of age, revealed cranial and dental characteristics consistent with Native American individuals. No known individual was identified. No associated funerary objects are present.

Prior to 1963, human remains representing two individuals were donated to the Colorado Historical Society. These remains might have been part of a donation made by Anna Scarlett and M.D. Davis during the 1920’s, but this is uncertain. The remains consist of a highly fragmentary skull and mandible of an adult, and the fragmented femora of an adolescent. The indistinguishable costs of these remains and soil indicates that the adolescent’s remains were most likely...
