Accordingly, the publication of the notice of proposed rulemaking and notice of public hearing (REG-130477-00 and REG-130481-00), which are the subject of FR Doc. 01-304, is corrected as follows:

1. On page 3930, column 1, in the preamble under the paragraph heading "Overview", first full paragraph in the column, first bullet statement, line ten, the language "beginning date shall no longer need" is corrected to read "beginning date, no longer need".

It also has been determined that section 553(b) of the Administrative Procedure Act (5 U.S.C. chapter 5) does not apply to these regulations, and because the regulation does not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to" is corrected to read "regulatory assessment is not required. It is hereby certified that these

regulations will not have a significant economic impact on a substantial number of small entities. This certification is based on the fact that, when determining the minimum required distribution in cases where a plan participant wishes to designate a trust as beneficiary of the participant's benefit, the reporting burden is primarily on the plan participant, or trustee of the trust named as beneficiary, to supply information rather than on the entity maintaining the retirement plan and the fact that the number of participants per plan to whom the burden applies is insignificant. The recordkeeping burden with respect to section 403(b) contracts under which the pre-1987 account balance must be maintained applies only to issuers and custodians of those contracts, which generally are not small entities. Accordingly, a Regulatory Flexibility Analysis is not required. Pursuant to".
