The Agency has considered the available data on the risks associated with the proposed use of Flucarbazone-Sodium, and information on social, economic, and environmental benefits to be derived from such use. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of Flucarbazone-Sodium during the period of conditional registration will not cause any unreasonable adverse effect on the environment, and that use of the pesticide is, in the public interest.

Consistent with section 3(c)(7)(C) of FIFRA, the Agency has determined that these conditional registrations are in the public interest. Use of the pesticides are of significance to the user community, and appropriate labeling, use directions, and other measures have been taken to ensure that use of the pesticides will not result in unreasonable adverse effects to man and the environment.
