AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the University of Alaska Museum, Fairbanks, AK and in the control of the U.S. Department of Interior, Bureau of Land Management, Alaska State Office, Anchorage, AK.

A detailed assessment of the human remains was made by Bureau of Land Management and University of Alaska Museum professional staff in consultation with representatives of McGrath Native Village.

In 1961, human remains representing one individual were recovered from a site 3/4 of a mile upriver from McGrath Native Village on lands controlled by the Bureau of Land Management following their disturbance by a bulldozer operated by person(s) unknown. These human remains were given to the University of Alaska Museum, Fairbanks, AK, by Pete Egres. No known individual was identified. No associated funerary objects are present.

Based on geographic location, this individual has been identified as Native American. Based on the estimated age of the human remains (early 20th century or before), oral tradition, and evidence of traditional use of the area, this individual has been culturally affiliated with McGrath Native Village.

Based on the above-mentioned information, officials of the Bureau of Land Management have determined that, pursuant to 43 CFR 10.2 (d)(1), the

human remains listed above represent the physical remains of one individual of Native American ancestry. DEPARTMENT OF THE INTERIOR**National Park Service****Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Milwaukee Public Museum, Milwaukee, WI**AGENCY: National Park Service, Interior.
ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Milwaukee Public Museum, Milwaukee, WI.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 43 CFR 10.2 (c). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by Milwaukee Public Museum professional staff and contract specialists in physical anthropology in consultation with representatives of the Seneca Nation of New York and the Haudenosaunee Standing Committee on Burial Rules and Regulations.

At an unknown date, human remains representing one individual were removed from the Reed Site, Richmond, Ontario County, NY, by A. H. Dewey of Rochester, NY. Mr. Dewey donated the remains to the Milwaukee Public Museum in 1923. No known individual was identified. No associated funerary objects are present.

The remains were reportedly removed from a refuse pit at the Reed Site. Historical evidence identifies the Reed Site as a Seneca settlement, occupied circa A.D. 1000–1500.

Based on dental traits and site associations, these human remains are identified as Native American. Historical documentation and consultation evidence provided by representatives of the Seneca Nation of New York and the Haudenosaunee Standing Committee on Burial Rules and Regulations have identified the Reed Site as part of the Seneca's traditional territory.

Based on the above-mentioned information, officials of the Milwaukee Public Museum have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the Milwaukee Public Museum also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Seneca Nation of New York and the Seneca-Cayuga Tribe of Oklahoma.

This notice has been sent to officials of the Seneca Nation of New York, the Haudenosaunee Standing Committee on Burial Rules and Regulations, and the Seneca-Cayuga Tribe of Oklahoma. Representatives of any other Indian tribe that believes itself to be culturally affiliated with these human remains should contact Dr. Alex Barker, Anthropology Section Head, Milwaukee Public Museum, 800 West Wells Street, Milwaukee, WI 53233, telephone (414) 278–2786, before March 23, 2001. Repatriation of the human remains to the Seneca Nation of New York and the Seneca-Cayuga Tribe of Oklahoma may begin after that date if no additional claimants come forward.

Dated: February 5, 2001.

Notice of Inventory Completion for Native American Human Remains and Associated Funerary Objects in the Possession of the Milwaukee Public Museum, Milwaukee, WI

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native American Graves Protection and Repatriation Act (NAGPRA), 43 CFR 10.9, of the completion of an inventory of human remains and associated funerary objects in the possession of the Milwaukee Public Museum, Milwaukee, WI.

The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by Milwaukee Public Museum professional staff and contract specialists in physical anthropology, in consultation with representatives of the Pawnee Nation of Oklahoma.

In 1927, A.M. Brooking, founder of the Hastings Museum, Hastings, NE, removed human remains representing one individual from a Skidi Pawnee

village four miles east of Cushing, Howard County, NE. In 1928, the Hastings Museum donated these remains to the Milwaukee Public Museum as part of a collection exchange. No known individual was identified. No associated funerary objects are present.

Based on cranial morphology and dental characteristics, these human remains are identified as Native American. Milwaukee Public Museum records state that these remains were removed from a Pawnee village. Consultation evidence indicates that the location of the village is within the traditional territory of the Pawnee Nation of Oklahoma.

Based on the above-mentioned information, officials of the Milwaukee Public Museum have determined that, pursuant to 43 CFR 10.2 (d)(1), the human remains listed above represent the physical remains of one individual of Native American ancestry. Officials of the Milwaukee Public Museum also have determined that, pursuant to 43 CFR 10.2 (e), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and the Pawnee Nation of Oklahoma.
