Submission of Information

As in previous **Federal Registers** announcing the annual IRIS agenda, EPA is soliciting public involvement in new assessments starting in FY 2001. While EPA conducts a thorough literature search for each chemical substance, there may be other articles or unpublished studies we are not aware of. We would greatly appreciate receiving scientific information from the public during the information gathering stage for the list of "new assessments" listed above. Interested persons should provide scientific comments, analyses, studies, and other pertinent scientific information. The most useful documents for EPA are unpublished studies or other primary technical sources that we may not otherwise obtain through open literature searches. Also note that if you have submitted certain information previously then there is no need to resubmit that information. Information from the public is being solicited for 60 days via this notice.

Procedures for Submission

Similar to the process described in the January 12, 2000, **Federal Register**, submissions will be handled in a three-step process:

1. *Submission Inventory*: First, you should simply provide a list within 60 days of this notice briefly identifying all the information (reports, papers, articles, etc.) you wish to submit. The list should specify by name and CASRN (Chemical Abstract Service Registry Number) the chemical substance(s) to which the information pertains, state the type of assessment that is being addressed (e.g., carcinogenicity), and describe briefly the information to be submitted for consideration. Where possible, documents should be listed in scientific citation format, that is, author(s), title, journal, and date. Your

cover letter should state that the correspondence is an IRIS submission, describe in general terms the purpose of the submission, and include names, addresses, and telephone numbers of persons to contact for additional information. Mail two copies of the submission to the IRIS Submission Desk, c/o Courtney R. Johnson, National Center for Environmental Assessment (8601D), U.S. Environmental Protection Agency, Washington, DC 20460.

Alternatively, you may submit the submission inventory and cover letter electronically to IRIS.desk@epa.gov. Electronic information must be submitted in WordPerfect format or as an ASCII file. Information will also be accepted on 3.5" floppy disks. All information in electronic form must be identified as an IRIS submission.

2. *EPA Replies to Submission Inventory*: In the second step, EPA will compare the submission inventory to existing files and identify the information that should be submitted. This step will help prevent an influx of duplicative information. You will receive notification requesting full submission of the selected material.

3. *Full Submission of Selected Material*: In the third step, you should send in the information indicated by EPA within 30 days of EPA's reply. Prompt response to EPA will ensure that your material can be considered in the assessment in a timely fashion. Submittals should include a cover letter addressing all of the points in item 1 above. In addition, when you submit results of new health effects studies concerning existing substances on IRIS, you should include a specific explanation of how and why the study results could change the information in IRIS.

Please send two copies, at least one of which should be unbound, to the IRIS Submission Desk, as described in Step 1. The IRIS Submission Desk will acknowledge receipt of your information.

Confidential Business Information (CBI) should not be submitted to the IRIS Submission Desk. CBI must be submitted to the appropriate EPA Office via established procedures for submission of CBI (see 40 CFR, Part 2, Subpart B). If you believe that a CBI submission contains information with implications for IRIS, please note that in the cover letter accompanying the submission to the appropriate office.

You may also request to augment your submission with a scientific briefing to EPA staff. Such requests should be made directly to Amy Mills, IRIS Program Manager (see **FOR FURTHER INFORMATION**).
